Overview of this booklet

What is this booklet for?

This Scheme Booklet is about the proposed recommended tripartite stapling of BWR Units and Planloc Shares to WOTSO Shares (**Stapling Proposal**) by way of the Scheme of Arrangement.

The Scheme Booklet is designed to provide WOTSO Shareholders with information to consider before voting on whether the Scheme should proceed at the Scheme Meeting scheduled for Friday 29 January 2021 and whether the Supporting Resolutions should be passed at the General Meeting (to be held on the same date as the Scheme Meeting).

Why should you vote?

As a WOTSO Shareholder, you have a say in whether the Stapling Proposal is completed or not – this is your opportunity to play a role in deciding the future of your investment in WOTSO.

Is the Scheme in the best interests of WOTSO Shareholders?

The WOTSO Board unanimously recommends that WOTSO Shareholders **vote in favour** of the Scheme and the Supporting Resolutions, subject to no Superior Proposal being made for WOTSO and the Independent Expert continuing to conclude that the Scheme is in the best interests of WOTSO Shareholders.

The Independent Expert has considered the Scheme and has concluded that in the absence of a Superior Proposal, **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

The Independent Expert's Report is included in this booklet for your consideration in Annexure B.

How do the WOTSO Directors intend to vote in respect of their own shares?

In the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is in the best interests of WOTSO Shareholders, each WOTSO Director intends to vote, or cause to be voted, all WOTSO Shares held by or controlled by them in favour of the Scheme and the Supporting Resolutions.

What you should do next

Read this booklet and consider the Scheme

You should read and carefully consider the information included in this booklet to help you make an informed decision.

There is a "Questions and answers" summary included in Section 1, to help answer any questions you may have.

If you have any doubts as to what action you should take, please contact your legal, investment or other professional adviser.

Vote on the Scheme

As a WOTSO Shareholder, it is your right to vote on whether the Scheme should proceed and whether the Supporting Resolutions should be passed.

You can vote:

- by proxy, using both of the enclosed Proxy Forms (one for the Scheme Meeting and the other for the General Meeting), or by attorney or corporate representative; or
- in person by attending the Scheme Meeting and General Meeting to be held at 10.00 am and 10:30am (AEDT) respectively on Friday 29 January 2021 at WOTSO Pymont, Level 3, 55 Pymont Bridge Road, Pymont, NSW 2009.

If you vote by proxy, both your Proxy Forms (ie the form for the Scheme Meeting and the form for the General Meeting) must be received by 7:00pm (AEDT) on Wednesday 27 January 2021, for your vote to be counted. Instructions for submitting your Proxy Form are set out in the Notice of Scheme Meeting (see Annexure G) and Notice of General Meeting (see Annexure H)

COVID-19

As at the date of the Scheme Booklet there is no restriction on public gatherings imposed by the New South Wales or Federal governments that prohibits the Scheme Meeting or the General Meeting to be held in the manner proposed.

However, if between dispatch of the Scheme Booklet and the date of the Scheme Meeting circumstances change and the proposed physical meeting cannot be held without breaching statutory restrictions, the WOTSO Board has determined to utilise virtual meeting technology to ensure that the Scheme Meeting and the General Meeting can continue to be held as virtual meetings.

If virtual meetings are required to be held, WOTSO will despatch amended notices of meeting with updated voting and attendance instructions, and will ensure that WOTSO Shareholders are given a reasonable time to consider these updated instructions or seek assistance from WOTSO or the Share Registry.

Participating in the Scheme

If you are eligible and wish to participate in the Scheme, you will need to ensure that you do not sell your WOTSO Shares prior to 5.00pm (AEDT) on 10 February 2021, being the expected Scheme Record Date. Otherwise, and assuming the Scheme is approved by the Requisite Majorities and the Court, you do not need to do anything to participate in the Scheme.

Letter from the Chairman of WOTSO

Dear WOTSO Shareholder

On behalf of the WOTSO Board, I enclose a Scheme Booklet that sets out a proposal to staple both WOTSO Ltd (**WOTSO**) and Planloc Ltd (**Planloc**) to the BlackWall Property Trust (**BWR**). Planloc is a property investment company currently owned by Pelorus Private Equity Limited (**Pelorus Private Equity**).

Subject to shareholder and Court approval, Eligible WOTSO Shareholders will receive newly issued BWR Units and Planloc Shares, which together with their existing WOTSO Shares will form single "stapled securities". The new combined structure will trade on the ASX as "WOTSO Property". BWR will no longer trade on the ASX as a standalone entity, but will instead trade together with WOTSO and Planloc as part of a combined stapled group.

The stapled structure may seem complicated, but it is driven by regulatory and taxation issues and is not uncommon in Australia. Many entities listed on the ASX are stapled structures including Scentre Group, Stockland, Charter Hall, Vicinity Centres and Cromwell Property.

Bringing together BWR, WOTSO and Planloc was not our intention at the beginning of this year. You will recall that WOTSO was formed within BlackWall Limited (**BlackWall**) and was spun off into a separate structure at the start of the year. The plan was for WOTSO to raise new capital and set off on a rapid expansion path but we then faced two unanticipated hurdles:

1. unforeseen regulatory barriers that limited the ability to raise capital from strategic investors; and
2. the onset of COVID-19.

While working through the lockdowns and other issues created by COVID-19 we considered a number of options for the future of WOTSO. We were heartened by WOTSO's performance during this time and it reinforced our view that it is a resilient business with significant potential.

When reviewing the options for WOTSO we reflected on our experience so far, this strengthened our view that there is a natural synergy between WOTSO and a dynamic property portfolio. With WOTSO in the same camp as its major landlord, BWR, the potential to function as a readymade tenant and incubator for new tenants is enhanced and is likely to generate positive outcomes for both landlord and tenant.

BWR has the capital base to help WOTSO grow without the need for WOTSO to raise new capital at this time and the structure does not preclude WOTSO from entering into new third party leases.

The WOTSO Directors unanimously recommend that you **vote in favour** of the Scheme at the Scheme Meeting (as well as the Supporting Resolutions at the General Meeting), in the absence of a Superior Proposal and subject to the Independent Expert continuing to consider that the Scheme is in the best interests of WOTSO Shareholders. Subject to those qualifications, each of the WOTSO Directors intends to vote, or cause to be voted, all WOTSO Shares held by or controlled by them in favour of the Scheme at the Scheme Meeting (as well as the Supporting Resolutions at the General Meeting).

How to vote

Your vote is important and we encourage you to vote on the Scheme.

For the Scheme to be approved votes in favour of the Scheme Resolution must be received from a majority in number (more than 50%) of WOTSO Shareholders present and voting and at least 75% of the total number of votes cast on the Scheme Resolution by WOTSO Shareholders.

Details of how to vote at the Scheme Meeting and General Meeting are set out in the Notice of Scheme Meeting in Annexure G and the Notice of General Meeting in Annexure H respectively.

Independent Expert's Report

The Independent Expert has considered the Scheme and has concluded that, in the absence of a Superior Proposal, **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

The Board notes that the Independent Expert has assessed the transaction on the basis of a notional takeover of WOTSO by BWR, or put another way, on the basis that WOTSO Shareholders move from 100% ownership of WOTSO to an approximately 13% non-controlling interest in WOTSO post-stapling. The Board respects the independent opinion and analysis conducted by the Independent Expert (and notes that the Independent Expert has concluded that the Scheme is **in the best interests of WOTSO Shareholders**), nonetheless the Board wishes to clarify the following for the benefit of shareholders:

- as noted in the Independent Expert Report (at section 3.3), ASIC's regulatory policy on independent expert reports in Regulatory Guide 111 prescribes that a key matter that an expert needs to consider when determining the appropriate form of analysis is whether or not the effect of the transactions is comparable to a takeover bid and is therefore representative of a change of control transaction;
- although the Independent Expert has assessed the Scheme as "a takeover offer for WOTSO via the acquisition of an 87% interest in (WOTSO) by BWR", in reality **there is no takeover offer nor acquisition by BWR**, but rather the acquisition upon completion of the Scheme is by individual BWR Unitholders (of which there are more than 1,400);
- the Independent Expert has considered the fair value of a WOTSO Share prior to the Scheme *on a controlling basis*. Notwithstanding the *notional* takeover analysis undertaken by the Independent Expert, in reality WOTSO has approximately 1,200 shareholders with no individual shareholder currently having control of WOTSO; and
- the conclusion by the Independent Expert that the Scheme is "not fair" (although reasonable) is a direct result of ASIC's policy in Regulatory Guide 111 that a *takeover offer* is considered "fair" if the value of the offer price or consideration is equal to or greater than the value of the securities that are the subject of the offer (otherwise it is automatically "unfair"). Such valuation was undertaken by the Independent Expert based on a *notional* takeover or change in control of WOTSO (notwithstanding our comments above).

The Board encourages Shareholders to review and form their own opinion in regards the Independent Expert's Report. The Independent Expert's Report is set out in full in Annexure B.

Further Information

The Scheme Booklet sets out important information relating to the Scheme, the reasons why the WOTSO Board has recommended that WOTSO Shareholders vote in favour of the Scheme together with the Independent Expert's Report. The Scheme Booklet also sets out some of the reasons why you may wish to vote against the Scheme.

Please read this document carefully and in its entirety. It will assist you in making an informed decision on how to vote. We also encourage you to seek independent financial, legal and taxation advice before making any decision in relation to your WOTSO Shares.

If you have any general queries about the Scheme or the Scheme Booklet, please do not hesitate to contact us by email or phone. A list of contact options are set out below.

On behalf of the WOTSO Board, I would like to take this opportunity to thank you for your ongoing support of WOTSO and I look forward to your participation at the Scheme Meeting and General Meeting.

Yours sincerely

Seph Glew
Chairman

It is not intended to address all relevant issues for WOTSO Shareholders.

2. What to do and how to vote

2.1 Carefully read and consider this Scheme Booklet

This is an important document. You should read the information in this Scheme Booklet in its entirety before making a decision on how to vote at the Scheme Meeting and the General Meeting. If you are in doubt as to what you should do, you should consult your legal, investment or other professional adviser.

2.2 Consider the reasons to vote for or against the Scheme

Refer to Sections 3.5 to 3.8 for a discussion of the reasons to vote in favour of the Scheme and Section 3.9 for a discussion of the reasons you may wish to vote against the Scheme.

Information on the risks of holding the Stapled Securities can be found in Section 6.

2.3 WOTSO Directors' recommendation and opinion of the Independent Expert

The WOTSO Board unanimously recommends that, in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is in the best interests of WOTSO Shareholders, you **vote in favour** of the Scheme Resolution at the Scheme Meeting, and **vote in favour** of the Supporting Resolutions at the General Meeting. Subject to those qualifications, each WOTSO Director intends to vote or cause to be voted all WOTSO Shares held or controlled by them in favour of the Scheme Resolution at the Scheme Meeting (and in favour of the Supporting Resolutions at the General Meeting).

The Independent Expert has considered the Scheme and has concluded that in the absence of a Superior Proposal, **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

2.4 Scheme Meeting

The Scheme Meeting will be held at WOTSO Pyrmont, Level 3, 55 Pyrmont Bridge Road, Pyrmont, NSW 2009 on Friday 29 January 2021 at 10:00am (AEDT). For the Scheme to proceed, votes in favour of the Scheme Resolution must be received from both:

- (a) a majority in number (more than 50%) of WOTSO Shareholders present and voting (whether in person, by proxy, by attorney or by corporate representative) at the Scheme Meeting; and
- (b) at least 75% of the total number of WOTSO Shares voted at the Scheme Meeting (whether in person, by proxy, by attorney or by corporate representative) by WOTSO Shareholders,

(the **Requisite Majorities**).

The Court has the discretion to waive the first of these two requirements if it considers it appropriate to do so.

The passing of Scheme Resolution by the Requisite Majorities at the Scheme Meeting is a condition of the Scheme becoming Effective and being implemented.

3. The proposed Stapled Group and reasons to vote

3.1 Overview

On the basis the Scheme is approved and implemented, the Stapled Group (which will be known as "WOTSO Property") will comprise of WOTSO, BWR and Planloc (each a **Stapled Entity**). Information in relation to each Stapled Entity is provided below.

3.2 WOTSO

(a) Overview

The WOTSO business commenced operations in 2014 through WOTSO Workspace Pty Ltd, a subsidiary of BlackWall Limited (**BlackWall**). WOTSO Limited was incorporated by BlackWall in 2019 to carry on the WOTSO business, until it demerged and formed its own consolidated group on 8 January 2020. WOTSO operates flexible workspaces, largely targeted towards small to medium enterprises in suburban or regional locations.

WOTSO commenced with 2 Sydney sites in 2014 and has since grown to operate 16 flexible workspaces across Australia, and 1 in Malaysia. WOTSO's revenue is largely derived from the use of private offices on monthly terms with the remainder being through memberships in open plan, co-working environments, events, meeting rooms and other additional services.

As at the date of this Scheme Booklet, WOTSO has over 3,400 occupied desks, compared to a capacity of just over 5,200. WOTSO expects to continue its current growth strategy of building revenue on newly opened sites and will roll out new sites as and when commercially attractive opportunities are identified, with a focus on suburban and regional Australia.

(b) What we do

WOTSO looks through the traditional office lease to our customers. We see ourselves as a retail and corporate service provider, as opposed to a manager administering a contract. Our role is to provide a space, amenity and atmosphere that facilitates our customer's business. We sell office space on flexible terms be that month to month or day to day, removing the frictions often associated with the provision of commercial office space. More recently, as flexible working has been brought to the front of everyone's mind, we are seeing a growth in more casual use of our spaces with daily drop-in passes increasing 3 fold since February 2020.

Our customers are attracted to WOTSO because they are well-designed, spaced in prominent locations surrounded by parking, transport and amenities. WOTSO is distinguished from its peers by its "street presence". We achieve this by choosing high profile sites with signage as big as we can get. If the opportunity presents, we will decorate our buildings or facades with eye catching street art. Our aim is that potential customers know where a WOTSO is before they have a need for our services. When they need us, we win their business by making the transaction easy as we do not require a long lock-in contract. We aim to build long-term relationships on short-term contracts.

(c) Business model

WOTSO's network is comprised of just over 34,000 sqm of space. WOTSO, in some respects, is like a hotel. We generate revenue from customers/members in a real estate linked operating business. That said, WOTSO does not own the buildings from which it operates, instead we employ a number of structures with property owners (such as BWR) including leases, management arrangements and joint ventures. As at the date of Scheme

Booklet, WOTSO primarily operates via leases (a summary of which are set out in Section 3.2(f)(ii) below) with the landlords being BWR (or its controlled entities), related parties or other third parties.

The Stapling Proposal will help us consolidate the management of WOTSO and BWR, which we believe will ensure the Stapled Group is well-placed to take advantage of opportunities in both the commercial real estate and co-working sectors.

We believe in the suburban flexible office model and think WOTSO could have up to 50 locations in NSW alone. BWR will be the capital partner during this expansionary phase, but we will want locations that we think will work for WOTSO and we will want to make sound property purchases, so this growth may take time. Third party lease structures are still an option, but they will need to be on the right terms and flexible in nature.

(d) Capital structure

As at the date of this Scheme Booklet, WOTSO has a total of 81,068,581 WOTSO Shares on issue held by approximately 1,200 Shareholders.

As part of the implementation of the Scheme, WOTSO will:

- » undertake a consolidation of WOTSO Shares so that there will be 20,691,412 WOTSO Shares on issue immediately after the consolidation and on the Scheme Record Date (**WOTSO Share Consolidation**); and
- » issue an additional 142,150,000 WOTSO Shares to BWR Unitholders pursuant to the Scheme.

Therefore, upon implementation of the Scheme, there will be 162,841,412 WOTSO Shares on issue.

The rights and liabilities of WOTSO Shares upon implementation of the Scheme is summarised in Section 9.12(a).

(e) Liability to BWR

WOTSO's debt is entirely comprised of a loan held by BWR with an interest margin of 2%. This was approximately \$2 million as at the date of this Scheme Booklet. The loan has been used to fund lease deposits and fit-out of expanding sites including WOTSO North Strathfield and Zetland.

(f) Material Contracts

(i) Membership

Regardless of the type of structure used at a particular site, WOTSO's revenue is a function of receipts from its members. Most members sign up on a month to month basis and payment is made by credit card or direct debit monthly in advance. Any length of stay is acceptable and our terms and systems are flexible enough to cater for this.

(ii) Leases

The following table lists details for each of the leases entered into for sites at which the WOTSO business operates (with each Lessee being wholly owned entities of WOTSO):

Location	Area (sqm)	Start Date	Expiry Date	Options	Lessor
North Strathfield	4,463	01/07/19	30/06/29	2 x 5 years	Unrelated 3 rd party

Neutral Bay	1,629	01/07/14	30/09/25	1 x 5 years	Related Party

As noted in the table above, WOTSO (or its subsidiaries) pays rent for leased properties the lessors of which include BWR and a related party. The rent paid is determined with reference to arm's length commercial rates.

(iii) **WOTSO standard form leases and landlord leases**

The WOTSO standard form leases are all on substantially the same terms, save for commercial differences. The institutional landlord leases are in the landlord's standard form, subject to negotiated amendments, and are in substantially the same terms, save for commercial differences.

All leases impose on WOTSO usual obligations to:

- » pay rent on time;
- » keep the premises clean and maintained, excluding structural repair;
- » use the premises as commercial offices, with no material constraint on the ability to sub-let or licence parts of the premises;
- » return the premises at the end of the term in good condition, except for fair wear and tear (most include a make good obligation); and
- » most include turnover rent (ie rent calculated based on the turnover of the tenant), except for Neutral Bay, Bondi Junction, Penrith and North Strathfield.

These leases:

- » do not require provision of a bank guarantee (or cash) by way of security (except for Zetland, Bondi, Penrith, Chermside and Woden);
- » impose on the lessors the obligation to keep the relevant building in good, clean and structurally sound condition; and
- » do not include any conditions that are unusual or more onerous than would be expected in an arms-length commercially negotiated office lease of similar premises.

Finally, WOTSO Manly operates under a lease with a profit share arrangement.

- (g) The intentions for the Stapled Group is set out in Section 3.12 below. However the WOTSO Directors confirm that, on the basis that the Stapling Proposal is successful:
- (i) the business of WOTSO is intended to continue as it currently does;
 - (ii) there is no intention for any major changes to be made to WOTSO's business, and there is no intention for any redeployment of the fixed assets of WOTSO; and
 - (iii) there is no intention for any material change to the future employment of WOTSO's present employees.

3.3 BWR

(a) Overview

BlackWall Property Trust (**BWR**) was listed on the Official List on 28 October 2011 (ASX:BWR). BWR is an open-ended unit trust that invests in income producing real estate and real estate joint ventures. Currently, all investments of BWR are located in Australia.

As at 30 June 2020, BWR had gross assets of just under \$350 million, which comprised of 11 properties located in New South Wales, Queensland, the Australian Capital Territory, South Australia and Tasmania. This equated to an NTA of \$1.47 per BWR Unit.

BWR's investment portfolio as at 30 June 2020 had net gearing of 16%, a level which management believes positions BWR well to take advantage of any new opportunities as they arise.

(b) Responsible Entity

BFSL is the responsible entity of BWR and is responsible for the overall operation of BWR. BFSL is wholly owned by BlackWall, a vertically integrated property management, funds management and investment business. It provides property and asset management services to a range of property syndicates.

BFSL as responsible entity is bound by the Constitution of BWR, the Corporations Act and the Listing Rules. BFSL has lodged a compliance plan with ASIC which sets out the key measures which BFSL will apply to comply with BWR's constitution, the Corporations Act and the Listing Rules. This plan is overseen by a compliance committee and BFSL's compliance with it is audited annually.

BFSL has duties under the Corporations Act as responsible entity of BWR. These duties require BFSL as responsible entity to act in the best interest of members of BWR, and where there is a conflict between member's interests and its own, to give priority to the members. The responsible entity must follow these duties when making decisions about, and managing any potential conflicts of BWR. To ensure BFSL will continue to be able to comply with its duties, ASIC has provided certain statutory reliefs including modifying BFSL's duties as responsible entity to account for the stapled structure. More details on the ASIC reliefs are set out in Section 9.11.

(c) Investment Strategy

BWR's management believes that holding property long term for rental income can generate superior returns. Accordingly, the investment strategy of BWR is to hold long term property assets to provide investors with a stable income stream and generate sustainable capital growth. Specifically, management:

- (i) actively pursues development strategies to grow rental returns and increase net lettable area;
- (ii) administers debt levels to ensure an appropriate balance of risk and returns on capital; and
- (iii) actively manages the assets to ensure they function as intended and meet the needs of existing and future tenants.

(d) **Capital**

(i) **Capital Structure**

As at the date of this Scheme Booklet, BWR has a total of 142,150,000 BWR Units on issue, held by approximately 1,400 Unitholders.

As part of the implementation of the Scheme, BWR will issue an additional 20,691,412 BWR Units to WOTSO Shareholders pursuant to the Scheme. Thus upon implementation of the Scheme, there will be 162,841,412 BWR Units on issue.

The rights and liabilities of BWR Units upon implementation of the Scheme is summarised in Section 9.12(b).

(ii) **Capital Management**

BWR is conducting an on market buy-back for a maximum number of 14,851,605 units, which was announced on 23 October 2019. As at the date of this Scheme Booklet BWR has bought back 6,366,055 units. Although the buy-back is due to expire on 23 October 2021 unless extended, the buy-back has been paused to facilitate the Stapling Proposal. The BWR buy-back will lapse if the Stapling Proposal is implemented.

The Stapled Group does not intend to conduct a buy-back in relation to the Stapled Securities. The Stapled Group will revisit the appropriateness of any buy-back of Stapled Securities after the Stapled Group becomes operational.

(e) **Distributions**

It is BFSL's policy as responsible entity that BWR make distributions when it is able and it is considered prudent to do so. Such distributions are paid from distributable income, which may include a component of capital. You should be aware that although BWR aims to pay distributions semi-annually, the amount of each distribution may vary or no distribution may be payable in a period. BWR has paid semi-annual distributions at a rate of 7 cents per unit per annum over the last 12 months. However, investors should note that past performance is not an indication of future returns. Please refer to Section 6 on risks of holding Stapled Securities and specifically risks of holding BWR Units at Section 6.5.

(f) **Debt Facilities**

BWR holds three secured debt facilities with National Australia Bank (**NAB**) totaling \$87 million as disclosed in BWR's Annual Report for the year ended 30 June 2020. The debt facilities from NAB are secured over the BWR owned properties, as detailed in the table below. There have been no changes to these facilities since the Annual Report and the facilities are summarised below:

Security	Borrowings	Security Value	Expiry	Margin
Sippy Downs		\$23,000,000		
Symonston		\$8,200,000		
Varsity Lakes	\$40,000,000	\$19,500,000	02/21	2.10%
Toowoomba		\$3,800,000		
Yandina		\$23,300,000		
Villawood	\$7,000,000	\$22,000,000	02/21	1.65%
Pymont	\$40,000,000	\$150,000,000	09/22	2.10%
Unencumbered real property assets	\$ -	\$101,000,000		

BWR expects that the NAB facilities expiring and falling due in February 2021 will be renewed (and on substantially the same terms as disclosed above).

With BWR's net gearing under 20%, new debt facilities over unencumbered assets are currently being arranged so when opportunities do present themselves the speed at which transactions can be executed is not impeded by funding.

(g) **No obligation to allow withdrawals**

BWR is an ASX-listed trust. This means that its Units are able to be traded on market by appointing a broker. The Stapled Group will apply for quotation of any BWR Units to be issued under the Stapling Proposal. As an ASX-listed trust, BWR is not obliged to allow withdrawals.

(h) **Portfolio**

As at the date of this Booklet, BWR's investment portfolio comprised of 11 properties located in New South Wales, Queensland, the Australian Capital Territory, South Australia and Tasmania. The majority of BWR's investments in property are 100% owned, with the remaining two properties being held indirectly via joint venture positions in unlisted funds (including Pelorus Private Equity).

A summary of BWR's portfolio (including details regarding ownership, yield and valuation) is set out in BWR's Annual Report for the year ended 30 June 2020, available on BWR's website and on the ASX.

New property valuations were obtained for the purposes of the Stapling Proposal. The movement from valuations disclosed in the June 2020 annual report are as follows:

(ii) *850 Woodville Road, Villawood, New South Wales*

The Villawood property is a family entertainment centre in Sydney's west, approximately 28 kilometres from Sydney CBD. The property has great exposure to Woodville Road and is home to 8 different tenants (as detailed below). The property was valued at \$22 million in November 2020 and is currently producing net passing income of approximately \$1.65 million per annum.

The property has approximately 9,388 sqm of lettable area and is currently tenanted as follows:

Tenant	Tenancy (sqm)	Lease Expiry	Option(s)
Zone Bowling	3,857	Jun 2028	1x5 year
Flip Out	2,199	Apr 2029	2x5 years
Indoor Climbing Gym	1,235	Mar 2030	n/a
Chipmunks	1,040	Jan 2022	1x5 year
Brawn Gym	397	Jun 2022	1x3 year
Swim Loops	314	Mar 2022	2x5 years
The Wood Pantry	181	Apr 2026	2x5 years
Parramatta Glass	165	Aug 2021	n/a

Planloc owns approximately 49% of the WRV Unit Trust, which owns the Villawood property. BWR is the other substantial unitholder in the WRV Unit Trust, holding approximately 46% of the units. The remaining 5% of units are held by six third-party investors who are unrelated to Planloc, BWR or WOTSO.

(e) **Capital Structure**

As at the date of this Scheme Booklet, Planloc has a total of 4 Planloc Shares on issue, all of which are held by Pelorus Private Equity. As part of the implementation of the Scheme, Planloc will:

- » undertake a subdivision of Planloc Shares so that there will be 142,150,000 Planloc Shares on issue immediately after the subdivision (**Planloc Share Split**); and
- » will issue an additional 20,691,412 Planloc Shares to WOTSO Shareholders pursuant to the Scheme.

Therefore upon implementation of the Scheme, there will be 162,841,412 Planloc Shares on issue.

Upon implementation of the Scheme, the constitution of Planloc will be identical to the constitution of WOTSO. The rights and liabilities of WOTSO Shares (which will be applicable to Planloc Shares) upon implementation of the Scheme is summarised in Section 9.12(a).

Further information regarding the implementation of the Scheme is set out in Sections 4 and 7.

3.5 Why are we doing this?

You may recall that WOTSO was originally owned by BlackWall and its shares were distributed directly to BlackWall shareholders earlier this year through a demerger process. It made sense for WOTSO and BlackWall to be separate businesses to allow WOTSO to forge its own path and grow through the introduction of new capital. Following the demerger there were a number of changes in circumstances surrounding the WOTSO business including but not limited to:

- changes to management;
- a refocus of the growth strategy to concentrate on existing sites profitability before actively seeking new sites;
- regulatory considerations that meant a large placement of new WOTSO shares would not proceed; and
- COVID-19 and subsequent economic crisis.

These factors, along with others, made us re-evaluate the future for WOTSO. The planned entitlement offer and subsequent listing of WOTSO was a difficult proposition in a very uncertain market yet we recognized the need to provide liquidity for WOTSO shareholders as promised. COVID-19 had, if anything, made us more confident in WOTSO's market strategy of focusing on suburban and regional areas as a provider of office space on flexible terms. It appeared to us that BWR provided a great partner for WOTSO to deal with an uncertain market whilst providing a new growth trajectory.

3.6 Why is it good for WOTSO?

The WOTSO Board unanimously believes WOTSO Shareholders should vote **in favour** of the Scheme at the Scheme Meeting, and the Supporting Resolutions at the General Meeting, for the following reasons:

- **Provides liquidity for WOTSO shareholders** – stapling to BWR will mean that WOTSO shares will be effectively listed on the ASX and able to be traded as shareholders see fit. This is something that has always been a priority for WOTSO and its shareholders.
- **Secures WOTSO's future** – by linking to a property owner that is expanding its portfolio, WOTSO has a growth path that is lower risk and easier to execute.
- **Cements relationship with WOTSO's largest landlord** - 8 of WOTSO's 17 sites are housed in BWR owned assets. The stapling will ensure that interests are aligned between BWR and WOTSO.
- **WOTSO can still pursue 3rd party leasing deals under the stapled structure** - however WOTSO will not be dependent on entering into third party leases (ie with non-BWR lessors) for growth and as a result will only do these deals on appropriate terms that are better suited to WOTSO's risk profile, such as turnover rents and management agreements.
- **BWR can act as an immediate capital partner for WOTSO** - BWR is a well capitalised REIT and has already acted as a funding partner for WOTSO's expansion. The stapling will mean that WOTSO has direct access to BWR's capital to help fund WOTSO's expansion in both BWR owned and third-party assets.

- **Access to listed capital markets for future funding requirements** - once admitted to the Official List as part of the Stapled Group, WOTSO's ability to raise capital, if and where needed, will be strengthened.
- **Operational efficiencies will mean reduced overheads** - it is expected that across the Stapled Group there will be cost savings of around \$500,000p.a. In particular costs relating to executive management and the board of directors is expected to be shared across the group. Given the same members of the BlackWall Board will be acting as the Board of WOTSO, new independent directors will not be required to be engaged saving approximately \$200,000 per annum. Further, senior management of BlackWall will also be performing some of the management roles of WOTSO which is estimated to save another approximately \$250,000 per annum. Audit fees is expected to be reduced by approximately \$30,000 per annum as individual reports will not be required. Finally, the WOTSO head office rent will also be combined with that of BlackWall saving approximately \$50,000 per annum.

The Stapling Proposal does also not preclude any other potential paths that WOTSO may travel in the future.

The Independent Expert has considered the Scheme and has concluded that in the absence of a Superior Proposal, **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

The WOTSO Board unanimously recommends that you **vote in favour** of the Scheme at the Scheme Meeting, and the Supporting Resolutions at the General Meeting (in the absence of a Superior Proposal and subject to the Independent Expert continuing to conclude that the Scheme is in the best interests of WOTSO Shareholders). Subject to those qualifications, each WOTSO Director intends to vote, or cause to be voted, all WOTSO Shares held by or controlled by them in favour of the Scheme (as well as in favour of the Supporting Resolutions).

3.7 Why is it good for BWR?

BWR's view on property investment has always been to acquire well (often opportunistically), continuously improve and reposition its assets, and to hold and collect rent for the long term. BWR is a nimble and flexible landlord for its tenants and as a result a "flexible" property offering has always been something it provides whether or not it was referred to as that. The addition of WOTSO compliments this strategy and gives BWR a greater sense of direction when considering the acquisition of new assets as well as determining the type of tenants it wishes to attract. WOTSO also provides the following:

- a ready-made tenant for appropriate spaces that become vacant;
- the ability to acquire vacant assets with less risk as WOTSO can provide an immediate solution;
- the ability to act as an incubator for larger tenants on more traditional leasing terms. Some WOTSO businesses are growing SMEs that may naturally move over time away from a flexible offering. BWR's portfolio can also provide that solution for growth;
- a more diversified income stream. BWR is not a long WALE REIT. BWR considers that a hundred \$10,000 transactions are far better and less risky than one \$1 million transaction. BWR considers that this diversified approach eventually achieves better valuation outcomes;

- better efficiencies in management of the properties through having WOTSO staff on-site resulting in reduction in administrative costs. WOTSO staff who are on-site at BWR properties will be able to perform a dual role of managing the WOTSO site and its members as well as undertaking general property management tasks. These tasks would have otherwise been the responsibility of a BlackWall employee and include coordinating capital works or repairs, assisting with the advertising and leasing of non-WOTSO space and acting as a first point of contact for the property generally. Travel costs will also be reduced as locally based staff will be able to reduce the need for head office travel to the sites. It is estimated that these efficiencies will lead to cost saving of around \$12,000 per annum per BWR property that houses a WOTSO space; and
- security of being BWR's largest tenant.

3.8 Why is Planloc part of the Stapling Proposal

Planloc is a company that owns a \$21.5 million mixed use property in Penrith, NSW as well as an interest in an entertainment precinct in Villawood, NSW valued at \$22 million. The Villawood property is already held on the BWR balance sheet by virtue of BWR's existing 46% holding in the asset. The properties have been owned and managed by BlackWall and its related entities for over 10 years and are a natural fit to join the Stapled Group. Given the restructuring occurring with WOTSO it made sense to take the opportunity to also add these properties to the listed Stapled Group. The properties will grow the assets of the Stapled Group giving it more scale and, whilst they are mature properties, still present an opportunity for the group to increase revenue in the assets over time.

3.9 Why you may not agree with the Stapling Proposal

The Stapling Proposal has potential disadvantages and risks that WOTSO Shareholders must consider. While the WOTSO Directors are of the opinion that these disadvantages are outweighed by the Stapling Proposals advantages, WOTSO Shareholders should consider their individual circumstances and make their own determination.

Factors which may lead WOTSO Shareholders to consider voting against the Stapling Proposal include but are not limited to:

- (a) You may consider WOTSO's value over the long term as a stand-alone, unstapled entity will be greater than if WOTSO was a part of the Stapled Group. You may therefore prefer to retain your WOTSO Shares as an unstapled security.
- (b) You may believe the dilutionary impact to your WOTSO shareholding is not commensurate with the value of new BWR Units and Planloc Shares to be issued to you under the Stapled Group.

Absent a Superior Proposal, the WOTSO Directors have also considered the value of BWR Units and Planloc Shares that are to be issued to WOTSO Shareholders relative to the value of WOTSO Shares to be issued to BWR Unitholders.

The Directors consider that the dilutionary impact to WOTSO Shareholders arising from issuing WOTSO Shares is economically equivalent to (or at least not lower than) the gain in the value of new BWR Units and Planloc Shares to be issued to WOTSO Shareholders.

It is possible that a more attractive proposal for WOTSO could materialise in the future. However, since the date that WOTSO announced that it has entered into the Scheme Implementation Deed, no alternative proposal has emerged and the WOTSO Directors are not aware of any alternative proposal that is likely to emerge.

However, notwithstanding the above, you may disagree with the assessment of the Directors.

The Independent Expert has considered the Scheme and has concluded that in the absence of a Superior Proposal, **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

- (c) You may believe WOTSO will become less attractive to potential buyers in the future due to the stapled nature of WOTSO shares requiring a potential acquirer to also acquire BWR Units and Planloc Shares.

You may believe it is in your best interests to maintain your current investment and risk profile of WOTSO Shares and to preserve your investment in a stand-alone entity with the specific characteristics of WOTSO. In particular you might consider that, despite the risks relevant to WOTSO's operations (including those set out in Section 6), WOTSO may be able to return greater value from its assets by remaining independent, or seeking alternative commercialisation strategies as an unstapled entity.

You should be aware that if you do not vote, or if you vote against the Scheme, the Scheme may still be implemented if it is approved by WOTSO Shareholders and by the Court. If this occurs and you are an:

- (a) Eligible Scheme Shareholder, you will receive one BWR Unit and one Planloc Share for every WOTSO Share you hold on the Scheme Record Date (which will be on a post-consolidation basis), and your existing WOTSO Shares will become stapled to Planloc Shares and BWR Units; or
- (b) Ineligible Scheme Shareholder (see Sections 7.1(i) and 7.1(j)), all your WOTSO Shares that you hold on the Scheme Record Date will be transferred to the WOTSO Sale Nominee, and the WOTSO Sale Nominee will also receive one BWR Unit and one Planloc Share for every WOTSO Share you held on the Scheme Record Date. Once the securities are stapled to form Stapled Securities, the WOTSO Sale Nominee will sell the Stapled Securities to which you otherwise would have been entitled and remit the proceeds of sale to you.

The above events will occur even though you may have voted against, or did not vote on, the Scheme Resolution or the Supporting Resolutions.

3.10 What happens if the Stapling Proposal does not proceed?

If the Stapling Proposal does not proceed each of WOTSO, BWR and Planloc will continue to operate as they currently are.

WOTSO will need to find alternative sources of capital in order to grow and as a result this could limit its growth potential and reduce the chance of dividends being paid in order to reinvest back into the business. WOTSO shares would continue to remain in an unlisted environment and would therefore not be liquid.

The majority of the transaction costs associated with the Stapling Proposal have already been incurred and will not be recovered if the Stapling Proposal does not proceed. BWR and WOTSO have agreed to share these costs on a 50% basis each.

3.11 Pricing and valuations

In arriving at the number of WOTSO Shares, BWR Units and Planloc Shares that will be issued to implement the Stapling Proposal (including the ratios by which WOTSO and

Planloc will undertake their respective share consolidation and sub-division), the Directors of each of the Stapled Entities determined the following values for each of the Stapled Entities.

(a) **WOTSO**

\$30,000,000 enterprise value (**EV**).

This EV was calculated through a 5 year discounted cash flow (**DCF**) valuation approach. Financial information related to WOTSO is set out in Section 5.1.

Further details of the valuation for WOTSO, including the assumptions relied up by the WOTSO Directors, are set out in Section 5.1(e).

(b) **BWR**

Net Tangible Assets (**NTA**) of \$206,100,000 (\$1.45/unit, based on pro forma February 2021 accounts).

Independent valuations of all properties were undertaken in November 2020 and used in this calculation. A summary of these valuations are set out in Section 3.3(h).

The NTA is the expected position at 28 February 2021 and includes assumptions in relation to expected half year distributions and income and capital expenditure to February 2021.

Further details of the financial information related to BWR is set out in Section 5.2.

(c) **Planloc**

NTA is regarded as having nil value. Further financial information related to Planloc is set out in Section 5.3.

Independent valuations of the properties were undertaken in November 2020. Liabilities matched assets, and consist of \$10 million of bank debt with the remainder of borrowings (\$14.2 million) held by BWR bringing the NTA to a nil position.

The Independent Expert has undertaken assessments of the valuations of the Stapled Entities in forming its opinion in the Independent Expert Report. In the absence of any other relevant information and/or a superior proposal, the Independent Expert considers **the Scheme is in the best interests of WOTSO Shareholders** on the basis that the Scheme is "not fair but reasonable" to WOTSO Shareholders.

Please see the Independent Expert Report included with this Scheme Booklet at Annexure B.

3.12 What does the future hold for the Stapled Group?

The Stapled Group (to be named "**WOTSO Property**") will provide a unique investment opportunity in the Australian market. Securityholders will gain exposure to the higher rates resulting from the flexible leasing of the operating business, combined with the BWR and Planloc property portfolios which are similar to a traditional A-REIT offering. The COVID-19 pandemic has brought to the forefront how businesses will operate in the future and flexibility is a term that many are grappling with. WOTSO Property will be the type of landlord that many will be looking towards, to provide that happy medium between bringing all of their staff back to CBDs and allowing them to continue to work from home.

WOTSO's offering works in different types of property. It is now housed successfully in bulky goods centres, ex industrial precincts, shopping centres, mixed use developments as well as traditional office spaces. This means that BWR can continue to target a variety of opportunistic property types as it has done in the past. BWR will continue to search for well located properties in suburban areas, close to amenities and transport for acquisition. Price has recently been an impediment and WOTSO Property will need to be patient and wait for the right opportunities, noting that recent economic pressures could be the catalyst.

WOTSO as BWR's largest tenant in mature sites can produce EBITDA margins over 30%. These enhanced returns will flow through to Stapled Security-holders with less risk than holding WOTSO on its own.

With BWR's gearing below 20% new debt facilities over unencumbered assets is being arranged so when opportunities do present themselves the speed at which transactions can be executed is not impeded by funding.

In summary WOTSO Property will be a well-capitalised Stapled Group that will run one of Australia's largest flexible suburban office space providers and will target property that suits this offering. It will be opportunistic in its acquisitions and through the provision of co-working and flexible workspace solutions will drive higher returns to security holders within an environment of less risk.

3.13 Management Agreement

The Stapled Group has entered into the Management Agreement with BFSL (which commences operation conditional on the Scheme becoming Effective), pursuant to which the Stapled Group has appointed BFSL as Investment Manager to provide investment management services and any other services agreed between the Stapled Group and BFSL from time to time.

Ultimately BFSL will be under the supervision of the boards of the Stapled Group. However, provided that BFSL complies with the terms of the Management Agreement, it is authorised to give directions and instructions to the Stapled Group with respect to the management of the Stapled Group's portfolio. The services BFSL will provide include investment management services, operational, support, promotion and marketing services.

A more detail summary of the terms of the Management Agreement can be found in Section 7.4. The fees payable to BFSL in its role as Investment Manager are set out in the table below:

Type of fee or cost	Amount	How and when paid
<i>BWR Fees – fees and costs for managing your interest in BWR</i>		
The BWR Fees are payable to BFSL under and in accordance with the terms of the BWR Constitution (a summary of which is contained in Section 3.3(i)). No additional fees are charged in respect of BWR under the Management Agreement.		
<i>WOTSO Fees – fees and costs for managing your interest in WOTSO</i>		
Management Fee The fees and costs for managing your interest in WOTSO	(a) 2 percent per annum of the gross revenue of WOTSO up to \$20 million per annum; plus (b) 5 percent per annum of the gross revenue of WOTSO above value \$20 million per annum.	This fee is calculated monthly and payable in arrears out of WOTSO's assets.

Type of fee or cost	Amount	How and when paid
<i>Planloc Fees – fees and costs for managing your interest in Planloc</i>		
Service Fee This is the fee for raising capital for Planloc	Service fee of up to 5% of the application moneys for Planloc Shares.	This fee is paid out of the application moneys upon the Planloc Shares being issued. This fee is not payable on the reinvestment of distributions.
Management Fee The fees and costs for managing your interest in Planloc	Management Fee of 0.75% p.a. of the total value of Planloc's assets (Gross Asset Value) which amounts to approximately \$200,000.	This fee is calculated monthly and payable in arrears out of Planloc assets. Gross Asset Value is determined by reference to the most recent valuation.
Acquisition Fee This is the fee for acquiring Planloc's properties	2% of the total acquisition cost of a direct property asset. Eg: \$100,000 for a \$5 million asset.	Payable out of Planloc assets on completion of the acquisition of the property.
Asset Disposal Fee This is the fee for disposing of Planloc's properties	Up to 1% of the gross consideration (net of GST) received by Planloc for the disposal of a property. E.g. Up to \$50,000 on the sale of a \$5 million asset.	The fee is payable out of Planloc assets upon completion of the disposal of the property.

The reasons for each fee arrangement under the Management Agreement is as follows, in relation to:

- (a) **BWR** - No additional fees are charged under the Management Agreement.
- (b) **WOTSO** - A revenue-based fee has been introduced to compensate BFSL for the provision of property management services and operational support (including access to the expertise of senior management) to the WOTSO business.
- (c) **Planloc** - These fees mirror the proposed revised fee structure in BWR (between BWR and BFSL as responsible entity of BWR) and recognise that BFSL will be providing substantially the same services relating to the properties owned by Planloc when compared to those owned by BWR.

The WOTSO Board considers that the fees payable under the Management Agreement are on commercial arms-length terms.

3.14 Board and governance of the Stapled Group

The Board of each Stapled Entity comprising WOTSO Property will be identical on implementation of the Stapling Proposal. To the extent they are not currently on the Board of WOTSO, the Directors currently serving on the Board of BFSL (as responsible entity for BWR) and Planloc will be appointed as Directors of the Stapled Entities. Previously, Alex was a lawyer at Clayton Utz in their Corporate, M&A and Capital Markets team. Alex holds a Bachelor of Laws (Hons) and a Bachelor of Commerce (Economics) from Macquarie University.

(b) **Board and executive remuneration**

No fees are payable by BWR to the Non-Executive and Executive Directors as BWR remunerates BFSL as responsible entity (see Section 3.3(i) for information of fees payable in BWR). However the Non-Executive and Executive Directors are remunerated by BlackWall (the parent of BFSL). For information in relation to remuneration for Non-Executive and Executive Directors by BlackWall, please refer to the audited remuneration report in BlackWall's Annual Report for the year ended 30 June 2020 (which can be accessed on the ASX under the code "BWF").

Under the constitutions of WOTSO and Planloc, the total amount or value of the remuneration for Non-Executive Directors must not exceed the sum determined from time to time by its members (ie Stapled Security-holders) in general meeting. Currently this amount is nil for WOTSO and nil for Planloc (**Remuneration Cap**). The remuneration for Non-Executive and Executive Directors does not include any amount paid to a superannuation fund or for any insurance premium, and a Director may receive special or additional remuneration as determined by the Board for additional or special duties.

Upon implementation of the Stapling Proposal, the Directors have agreed that they will not be paid customary Directors fees for their services as Directors of WOTSO and Planloc. Therefore, each Director will only receive Director's fees in their current role as Non-Executive and Executive Directors of BlackWall.

A summary of the fees payable to BFSL for services provided to the Stapled Group under the Management Agreement is set out in Section 3.13. A summary of the fees payable to BFSL in its capacity as responsible entity of BWR is set out in Section 3.3(i).

(c) **Governance of Stapled Group**

The responsibility for the Stapled Group's proper corporate governance rests with each Stapled Entity's board of directors. The guiding principles of each Board in meeting this responsibility is to act honestly, in good faith and in the best interest of the Stapled Group as a whole. We believe that having a common set of directors across each of the Stapled Entities puts the Stapled Group in the best position to act in accordance with these guiding principles.

The Board of each Stapled Entity will adopt a common set of policies and charters, which have been prepared having regard to the ASX Corporate Governance Principles and Recommendations. The policies and procedures include Code of Conduct, Continuous Disclosure Policy, Risk Framework, Securities Trading Policy, Whistleblower Policy, Diversity Policy and Anti-Bribery and Corruption Policy.

If the Stapling Proposal is not implemented, each Stapled Entity's Board intends to continue the business of its respective Stapled Entity as it is now conducted.

In relation to the requirement in ASX Listing Rule 1.1 Condition 17, the Stapled Group will comply with such condition requiring entities included in the S&P All Ordinaries Index on admission to the Official List to have an audit committee. The composition of the audit committee will be the same as the current audit committee for BWR, and will consist of Non-Executive Directors Robin Tedder and Seph Glew, with the committee to be chaired by Robin Tedder. Further information on the audit committee, including the roles and responsibilities of the committee are set out in the Audit Committee Charter which will be announced on the ASX upon admission of the Stapled Group (as well as being uploaded onto the website of the Stapled Group).

3.15 Continuous disclosure and reporting obligations

Stapled Group

BWR is currently listed on the ASX. WOTSO and Planloc are currently unlisted entities. However, as a part of the Stapling Proposal, WOTSO and Planloc will each apply to the ASX for admission to the Official List and quotation of WOTSO Shares and Planloc Shares. Therefore, following implementation of the Stapling Proposal, the Stapled Group will together be listed on the ASX. Further, certain waivers from the Listing Rules have been sought with the effect that the quoted BWR Units, WOTSO Shares and Planloc Shares, once stapled, can be effectively dealt with as if they are a single stapled security. Further information on the ASX waivers are set out in Section 9.11.

Each Stapled Entity will be a disclosing entity for the purposes of the Corporations Act and the Listing Rules and will be subject to regular reporting and disclosure obligations that require the Stapled Group to immediately disclose to the market any information that it becomes aware of which a reasonable person may expect to have a material impact on the price or value of the Stapled Securities.

In accordance with ASIC's relief under ASIC Corporations (Stapled Group Reports) Instrument 2015/838, the Stapled Entities intend to prepare and lodge a single financial report with ASIC and ASX for both their annual and half year financial statements, in accordance with the conditions of the ASIC instrument and other reporting obligations under Chapter 2M of the Corporations Act.

Copies of these and other documents lodged with ASIC and ASX may be obtained from an ASIC office and are accessible from ASX's website at www.asx.com.au.

WOTSO

WOTSO is currently an unlisted disclosing entity for the purposes of the Corporations Act and therefore is subject to regular reporting and disclosure obligations. Information disclosed by WOTSO is available on its website at www.wotsoworkspace.com.au/shareholder/. In addition, WOTSO is required to lodge various documents with ASIC. Copies of documents lodged with ASIC by WOTSO may be obtained from an ASIC office or via its website at www.asic.gov.au or a copy of WOTSO's Constitution and 2020 Annual Report can be obtained by contacting WOTSO via the Shareholder Information Line.

BWR

BWR is a disclosing entity for the purposes of the Corporations Act and is subject to periodic reporting and disclosure obligations under the Corporations Act and the Listing Rules meaning BWR must notify the ASX of information about specified matters and events as they arise for the purpose of the ASX making that information available to participants in the market.

Publicly disclosed information about all ASX-listed entities, including BWR, is available on the ASX website at www.asx.com.au.

On request, BWR will send to you, free of charge, copies of the following documents:

- the annual financial report most recently lodged with ASIC;
- any half-year financial report lodged with ASIC after lodgement of the annual financial report and before the date of this Scheme Booklet; or
- any continuous disclosure notices given after the lodgement of the annual financial report and before the date of this Scheme Booklet.

Planloc

Planloc has recently converted from a private company to an unlisted public company. Planloc is a wholly owned subsidiary of Pelorus Private Equity. Details about Planloc can be found in the Pelorus Private Equity's Annual Report which is available at www.pelorus.com.au.

Planloc has not been audited on a stand-alone basis. However, given Pelorus Private Equity has made the decision to transfer all its shares in Planloc to BWR Unitholders as part of the Stapling Proposal, the financial information in the audited financial report for FY20 of Pelorus Private Equity has been presented as if Planloc was a discontinuing operation. As required by AASB 5 - *Assets Held for Sale and Discontinued Operations* the activities of Planloc have been reflected separately as a discontinued operation in those financial statements.

Further financial information about Planloc is set out in Section 5.3.

4. Mechanics of the Stapling Proposal

4.1 Background

Stapling three entities together is an inherently complex process. This section gives you the detail of this process should you want to understand the mechanics of the Stapling Proposal.

On 17 November 2020, WOTSO entered into the Scheme Implementation Deed with BWR and Planloc, under which it is proposed that all issued WOTSO Shares on the Scheme Record Date will be stapled to BWR Units and Planloc Shares on a 1:1:1 basis by way of the Scheme of Arrangement.

If the Scheme is approved by WOTSO Shareholders at the Scheme Meeting and by the Court, and if all other necessary approvals and Scheme Conditions are satisfied or waived (where capable of waiver), each WOTSO Share, Planloc Share and BWR Unit will trade as a stapled security on the ASX, and together WOTSO, Planloc and BWR will be known as "WOTSO Property".

If the Scheme is not approved, the Scheme will not proceed and WOTSO will continue as an unstapled, stand-alone unlisted entity.

This Scheme Booklet contains information that the WOTSO Board considers is material to WOTSO Shareholders in making a decision whether or not to vote in favour of the Scheme. You should carefully read this Scheme Booklet as part of your consideration of the Scheme.

4.2 What WOTSO Shareholders will receive under the Stapling Proposal

WOTSO Shareholders will be issued with one BWR Unit and one Planloc Share on the Implementation Date, for every one WOTSO Share they hold as at the Scheme Record Date. Each WOTSO Share, BWR Unit and Planloc Share will be stapled together to form a Stapled Security, which will be quoted on the ASX.

4.3 Scheme Conditions

The obligations of WOTSO, BWR and Planloc to implement the Stapling Proposal are subject to the Scheme Conditions, the key conditions include:

(a) Scheme Resolution

WOTSO Shareholders must pass the Scheme Resolution at the Scheme Meeting by the Requisite Majority.

See Section 7.1(b) for further information on passing the Scheme Resolution.

(b) Supporting Resolutions

The Supporting Resolutions will be voted on at the General Meeting, which will commence immediately upon the close of the Scheme Meeting.

The Supporting Resolutions are:

- (i) the Constitution Replacement Resolution;
- (ii) the Share Consolidation Resolution (to affect the WOTSO Share Consolidation); and

(iii) the Directors Appointment Resolutions.

See Section 8 for further information on the Supporting Resolutions.

(c) **BWR Resolution**

BWR will convene a meeting of BWR Unitholders (**BWR Meeting**) to approve the BWR Resolution, which is necessary for the implementation of the Stapling Proposal.

The BWR Meeting will be held on the same day and location as, and immediately after the close of, WOTSO's General Meeting (which will follow the Scheme Meeting).

The BWR Resolution is the repeal and replacement of the constitution of BWR to implement the BWR Stapling Provisions.

See Section 7.1 for further information on the key steps in implementing the Scheme including further detail regarding the BWR Meeting and BWR Resolution.

(d) **Planloc Resolutions**

Pelorus Private Equity, as the sole shareholder of Planloc, will approve the Planloc Resolutions, which are necessary for the implementation of the Stapling Proposal. The Planloc Resolutions are:

- (i) to split the number of Planloc Shares on issue by a ratio of 1:35,537,500 with the effect that Planloc will have on issue the same number of Planloc Shares as the number of BWR Units on issue on the Scheme Record Date (**Planloc Share Split**); and
- (ii) to appoint Richard Hill and Robin Tedder to the Board of Planloc.

See Section 7.1 for further information on key steps in implementing the Scheme including further detail regarding the Planloc Resolutions.

(e) **Court approval**

If the:

- (i) Requisite Majorities of WOTSO Shareholders vote in favour of the Scheme Resolution at the Scheme Meeting;
- (ii) WOTSO Shareholders approve each of the Supporting Resolutions at the General Meeting; and
- (iii) all other Scheme Conditions are satisfied or waived (where capable of waiver) other than the condition that the Court approve the Scheme,

the Court will be asked to approve the Scheme at the Second Court Hearing. The Stapling Proposal will not proceed if the Court does not provide this approval.

In addition to, and in parallel with, the Court approval process for the Scheme, BFSL as responsible entity for BWR will seek customary judicial advice in the form of a confirmation from the Court under section 63 of the *Trustee Act 1925* (NSW) that:

- (i) BFSL as responsible entity of BWR would be justified in convening the BWR Meeting for the purposes of considering the BWR Resolution; and

- (ii) subject to BWR Unitholders passing the BWR Resolution, BFSL would be justified in proceeding on the basis that repealing the BWR Constitution and replacing it with the BWR Replacement Constitution would be within the powers conferred by the BWR Constitution and section 601GC of the Corporations Act.

The Stapling Proposal will not proceed if the Court does not provide this confirmation to BFSL.

The full details of the Scheme Conditions are set out in clause 3 of the Scheme Implementation Deed, a further detailed summary of which is provided in Section 7.2(b)

All of the Scheme Conditions must be either satisfied or waived (where capable of waiver) in accordance with the Scheme and the Scheme Implementation Deed for the Stapling Proposal to be implemented.

As at the date of this Scheme Booklet, WOTSO is not aware of any circumstances which would cause the Scheme Conditions not to be satisfied. An update as to the status of the Scheme Conditions will be provided at the Scheme Meeting.

If the Scheme Conditions are satisfied or waived (as applicable) the Scheme will constitute a binding arrangement between WOTSO and each WOTSO Shareholder participating in the Scheme to undertake the steps required to implement the Stapling Proposal.

Each of the Scheme Conditions must be satisfied by 8:00am (AEDT) on the Second Hearing Date (subject to certain express exceptions), otherwise each of WOTSO, BWR and Planloc have the right to terminate the Scheme Implementation Deed by notice, in which case the Stapling Proposal will not proceed.

4.4 Capital Reorganisation

Under the Deed Poll, the Stapled Entities, BFSL and Pelorus Private Equity (as applicable) will complete the following actions prior to (or on) the Implementation Date:

- Planloc completes the Planloc Share Split by the Scheme Record Date;
- WOTSO completes the WOTSO Share Consolidation by the Scheme Record Date;
- BFSL transfers all BWR Units held by Ineligible BWR Unitholders on the Scheme Record Date to the BWR Sale Nominee;
- WOTSO transfers all WOTSO Shares held by Ineligible WOTSO Shareholders on the Scheme Record Date to the WOTSO Sale Nominee;
- Pelorus Private Equity completes the transfer of all existing Planloc Shares on issue as at the Scheme Record Date (on a post-split basis) to:
 - (i) BFSL as agent for each Eligible BWR Unitholder on the basis of one Planloc Share per each BWR Unit held by the Eligible BWR Unitholder on the Scheme Record Date); and
 - (ii) the BWR Sale Nominee (acting on behalf of Ineligible BWR Unitholders) on the basis of one Planloc Share per each BWR Unit held by the Ineligible BWR Unitholders on the Scheme Record Date,

(Planloc Transfer Shares);

- BFSL will transfer the Planloc Transfer Shares it holds to all existing Eligible BWR Unitholders as at the Scheme Record Date on a pro rata basis per Eligible BWR Unitholder so that for every one BWR Unit held by a Eligible BWR Unitholder on the Scheme Record Date, an existing Planloc Share will be transferred to them by BFSL;
- upon completion of the WOTSO Share Consolidation by the Scheme Record Date, WOTSO allots and issues a total of 142,150,000 new WOTSO Shares in the following manner:
 - (i) to BFSL as agent on behalf of each Eligible BWR Unitholders on the basis of one WOTSO Share per each BWR Unit held by the Eligible BWR Unitholder on the Scheme Record Date, who will transfer the newly issued WOTSO Shares to all existing Eligible BWR Unitholders as at the Scheme Record Date on a pro rata basis per BWR Unitholder so that for every one BWR Unit held by an Eligible BWR Unitholder on the Scheme Record Date a newly issued WOTSO Share will be transferred to them by BFSL; and
 - (ii) to the BWR Sale Nominee (acting on behalf of Ineligible BWR Unitholders) on the basis of one WOTSO Share per each BWR Unit held by the Ineligible BWR Unitholders on the Scheme Record Date;
- Planloc will allot and issue:
 - (i) one Planloc Share to each Eligible Scheme Shareholder for every one WOTSO Share held by the Eligible Scheme Shareholder on the Scheme Record Date (on a post consolidation basis); and
 - (ii) Planloc Shares to the WOTSO Sale Nominee (acting on behalf of Ineligible Scheme Shareholders) on the basis of one Planloc Share per each WOTSO Share held by the Ineligible Scheme Shareholders on the Scheme Record Date (on a post consolidation basis);
- BWR will allot and issue:
 - (i) one BWR Unit to each Eligible Scheme Shareholder for every one WOTSO Share held by the Eligible Scheme Shareholder on the Scheme Record Date (on a post consolidation basis); and
 - (ii) BWR Units to the WOTSO Sale Nominee (acting on behalf of Ineligible Scheme Shareholders) on the basis of one BWR Unit per each WOTSO Share held by the Ineligible Scheme Shareholders on the Scheme Record Date (on a post consolidation basis).

The effect of the steps above will result in the same number of WOTSO Shares, BWR Units and Planloc Shares on issue on the Implementation Date, with each WOTSO Share, BWR Unit and Planloc Share being stapled together to form one Stapled Security. The effect of the stapling will be that WOTSO, BWR and Planloc will operate as a single economic group to be known as "WOTSO Property".

Further information on the implementation of the Stapling Proposal is set out in Section 7.1.

5. Financial and accounting information

The financial information in this Section is a summary only and has been prepared and extracted for the purposes of this Scheme Booklet only. Aspects of the financial information has been extracted from:

5.1 WOTSO

The summarised financials included below are comprised of:

- » Audited financial statements, as disclosed in the WOTSO Annual Report for the year ended 30 June 2020;
- » A pro-forma balance sheet as at 28 February 2021, which represents the impact of pro-forma adjustments. These adjustments are based on:
 - actual results to 30 September 2020 (unaudited); and
 - forecast results for the period of 1 October 2020 to 28 February 2021.

The WOTSO Directors note the following in relation to the pro-forma balance sheet at 28 February 2021:

- » occupancy has continued to recover from the impact of COVID since the annual report was released in early September 2020;
- » the acquisition of the WOTSO Neutral Bay Franchise from BlackWall was completed on 27 October 2020 for cash consideration of \$500,000;
- » WOTSO continues to be eligible for JobKeeper to 3 January 2021 and the forecast JobKeeper wages subsidies and rent relief (as part of mandatory code) have been reflected;

- » WOTSO has continued to invest in site expansions and improvements, with over \$2 million expected to be spent in the first half of financial year 2021; and
- » excluding this capital expenditure, WOTSO is expected to generate net cash flows of nearly \$2 million.

As disclosed in the Annual Report for the year ended 30 June 2020, WOTSO is currently in negotiations with Yuhu Group regarding its lease at North Strathfield and the \$5.6m incentive due to WOTSO. This is expected to be resolved by February 2021, which will reverse the \$837,000 other receivable (with a corresponding adjustment to trade payables). No other adjustments have been made with respect to this lease from what was previously reported.

Note 1. The implementation of the new leases accounting standard, AASB 16, in FY2020 results in the recognition of lease payments within financing cash flows rather than operating cash flows as reported in previous years. Please refer to the WOTSO June 2020 Annual Report for a detailed explanation of the impact, particularly within the Directors' Report and Note 2.

(d) Turnover Graph

The WOTSO Turnover Graph included below summarises WOTSO's monthly annualised turnover from Jul-15 to Sep-20. This demonstrates WOTSO's significant revenue growth as well as both the significant impact and subsequent recovery driven by COVID.

(e) Valuation

WOTSO is an unlisted entity and its shares are not traded on an active market. As such, there are no recent observable market prices to indicate its value.

After the demerger in January 2020, WOTSO made two private placements at 47.5 cents per share, indicating a pre-money valuation of \$35 million.

Since then, the restrictions created by COVID have had an effect on WOTSO and the broader market. Revenue for WOTSO was down nearly 60% for the months of April to June. As of October, it has recovered to 94% of its pre-COVID occupancy.

WOTSO has been valued at \$30 million using a 5-year discounted cash flow. This is calculated as the present value of forecast cash flows over a 5-year period, commencing 1 January 2021. The cash flow forecast assumes straight-line revenue growth at each site until it reaches maturity. Costs have been forecast based on a range of inputs, including historical actuals, lease contracts (rent) and expected future staffing requirements. The forecast also relies on a couple underlying assumptions, as follows:

- » although WOTSO has consistently opened 3 new sites per year in the last few years, only current operations have been included in the valuation; with no growth from new sites forecast within the 5-year period. The uncertainty over the timing and extent of growth through new sites was considered to be too significant to value accurately;
- » the economy will continue to recover allowing for WOTSO sites to continue growing revenue. A second COVID lockdown that affects our sites would likely have a material impact on this valuation.

Key inputs have also been detailed below:

Key Input	Range	Comments
Target Monthly Desk Rates	\$200 to \$800 per desk	A site's forecast monthly desk price at maturity. This is set with reference to current pricing and competitor pricing at each site.
Maturity Dates	Dec'21 to Jun'23	The date at which a site has started to achieve its long-term earning potential. Management has considered each site's pre-COVID occupancy, current occupancy and occupancy growth rates to estimate when a site is likely to reach maturity
Maturity Economic Efficiency	85%	Proportion of target revenue, where target revenue is the target desk price multiplied by the total number of desks. This is less than 100% as we always expect to have some level of discount or vacancy in our sites.
Discount Rate	11.2%	This discount rate takes into account management's estimate of WOTSO's weighted average cost of capital, based on the risk-free rate and the volatility of the share price of comparable entities relative to market movements.

So far as the WOTSO Board is aware and other than as disclosed in the Scheme Booklet, there has been no material change in WOTSO's financial position since 30 June 2020.

5.2 BWR

The summarised financials included below are comprised of:

- » Audited financial statements, as disclosed in the BWR Annual Reports for the year ended 30 June 2018, 30 June 2019 and 30 June 2020; and
- » A pro-forma balance sheet as at 28 February 2021, which represents the impact of pro-forma adjustments. These adjustments are based on:
 - actual results to 30 September 2020 (unaudited); and
 - forecast results for the period of 1 October 2020 to 28 February 2021.

The BWR Directors note the following in relation to the pro-forma balance sheet at 28 February 2021:

- » all properties in the portfolio have been independently valued in early November 2020, with valuations increasing marginally from June 2020, as summarised in the table below;

BWR Investment Property Valuations (\$'000)	<i>Jun 2020 Valuation</i>	<i>Nov 2020 Valuation</i>	<i>Change</i>
Pymont	147,000	150,000	3,000
Dickson	31,100	31,100	-
Sippy Downs	23,000	24,200	1,200

Adelaide	6,700	6,800	100
Toowoomba	3,800	3,800	-
Total	297,700	302,450	4,750

- » the pro forma adjustments include assumptions relating to the half year distribution and expected income and capital expenditure to February 2021;
- » BWR continues to put its strong cash balance to work in the loan portfolio as it receives a substantially better return compared to the very low returns achieved with cash placed on bank deposit;
- » COVID rent relief continues to be provided to a very limited number of tenants in compliance with the mandatory code issued by the various state governments. The period for granting relief to commercial tenants has been extended to early 2021; and
- » there have been no changes made to borrowings since June 2020 and net gearing has marginally increased to 17%.

Note 1. There have been constructive negotiations with Yuhu Group in relation to the release of a portion of the retention amount held in trust. Half of the total is reflected as a current asset.

Note 2. We continue to put our strong cash balance to work in the loan portfolio as we receive a substantially better return on those loans compared to the extremely low returns achieved with cash placed on bank deposit.

Note 3. COVID rent relief continues to be provided to a very limited number of tenants in compliance with the mandatory code. The period for granting relief has been extended to the end of December 2020.

Note 4. All properties in the portfolio have been independently valued in November 2020.

Note 5. There have been no changes made to borrowings since June 2020. Net gearing has increased marginally to 17%.

5.3 Planloc

The summarised financials included below are comprised of:

- » a Balance Sheet, Profit or Loss and Cash Flow Statement, that has been extracted from the audited financial statements of Pelorus Private Equity for the year ended 30 June 2020. As Planloc is part of the Pelorus Private Equity Group, it has not previously been audited on a stand-alone basis. However, as a result of the stapling proposal, Planloc was presented as discontinuing operation in the FY20 Annual Report, per AASB 5 - *Assets Held for Sale and Discontinued Operations*. Refer to Note 16 of the 30 June 2020 financial statements for further information regarding these historical figures; and
- » a pro-forma balance sheet as at 28 February 2021, which represents the expected balance sheet position based on actuals to 30 September 2020 and adjusted for expected movements to 28 February 2021, including the winding down of the Penrith No3 Fund, which reaches maturity in December 2020. The pro-forma balance sheet also takes into account latest property valuations, distributions payable and the resulting expected movements in cash and borrowings.

5.4 Stapled Group

The pro forma balance sheet below represents the expected financial position at 28 February 2021 if the stapling transaction were completed at this time. The pro forma balance sheet has been prepared by consolidating the pro forma balance sheets of each of the Stapled Entities (for a 28 February 2021 balance date) as disclosed above in this Section 5.

WOTSO Property would report consolidated financial statements, comprising BWR (as the notional parent entity), WOTSO and Planloc. The net assets of the stapled acquirees (ie WOTSO and Planloc) are recognised as a non-controlling interest within the consolidated financial statements. WOTSO Property expects to elect to value this non-controlling interest at fair value, which will give rise to goodwill.

6. Risks of the Stapled Group

6.1 Introduction

The WOTSO Board considers that it is appropriate for WOTSO Shareholders, in considering the Scheme, to be aware that there are a number of risk factors which could adversely affect the future operating and financial performance of the Stapled Group, as well as the value of the Stapled Securities.

This Section 6 is a summary only. There may be:

- additional risks and uncertainties not currently known to the Stapled Entities (as applicable); or
- risks which are known to the applicable Stapled Entity, but not currently considered material.

You should carefully consider the risk factors outlined below and your individual circumstances. This Section 6 is general in nature only and does not take into account your individual objectives, financial situation, taxation position or particular needs. Prior to deciding how to vote on the Scheme, WOTSO Shareholders should carefully consider the risk factors discussed in this Section, as well as other information contained in this Scheme Booklet and seek independent professional advice.

6.2 COVID-19

On 11 March 2020, the World Health Organisation declared COVID-19 to have reached pandemic status.

In the medium to longer term, the direct effects of COVID-19 and measures introduced by State and Federal governments to limit transmission of the virus (such as the forced closure of businesses to facilitate 'social distancing', travel bans and quarantine requirements) will likely have a material negative impact on Australia's economic growth, including the potential for further significant impact on capital markets and share prices.

(a) Impact on WOTSO

When COVID hit Australia, WOTSO was quick to act and offered all members immediate suspensions to their membership without penalty if they no longer wished to come into their space. Our monthly terms meant our members were not burdened by lease obligations throughout this unprecedented time, allowing them to make whatever decisions were best for their business. Our members appreciated this response and whilst 65% of members took us up on this offer in April and May, by August we were back to 90% of our pre-COVID occupancy. The business is cash flow positive and will continue to be as the government support and rent relief runs off. The table below shows the movement in occupied desk numbers since February.

COVID Impact on Occupancy	Total
Occupied desks as at February 2020	3,637 desks
Suspended or cancelled due to COVID	(2,394) desks
Other cancellations	538 desks
Reactivated desks	1,509 desks
New desks sold between March 2020 and October 2020	1,194 desks
Occupied Desks as at 31 October 2020	3,426 desks
% of February 2020 Occupancy	94%

Of particular note in the above is the 1,194 desks that have been sold to new members from since the onset of COVID to 31 October 2020. We feel the value of flexible lease terms has been underestimated by employers and business-owners in the past and COVID has pushed this issue into the spotlight. In our view it is too early to tell what the long term effect on where and how people work will be, but at the very least it has forced all businesses to look at their work practices and consider alternatives. We do not think that the CBD office is dead, rather that it will be used differently and in all likelihood alongside other solutions such as working from home or flexible alternatives like WOTSO.

We have always thought that we have a product that larger enterprises could use but have not seen much take up by them in the past. This is changing. In July we signed our first substantial deal to a business that has indicated they will use 100 day passes per month across our Sydney network. We think this take up will continue and WOTSO will become much like a gym membership which corporates can provide to their employees.

(b) Impact on BWR

Revenue

The COVID pandemic has had an impact on BWR's revenue for the year. As yet BWR has not had any tenants permanently vacate any property as a result of COVID.

In April the Federal Government issued a mandatory code of conduct between landlords and tenants (that qualified for JobKeeper and had turnover of less than \$50 million). Each State then released its own mandatory code for commercial properties and BWR complied with each applicable code. Each code called for rent relief to be provided to tenants in proportion to their turnover decline with at least half of the relief to be given in the form of a rent waiver and the remainder as a deferral of rent. BWR complied with the code as a minimum and in some cases offered more relief than required, in particular for smaller tenants such as cafes and gyms. As a result BWR waived \$713,000 of rent from March to June which represents a reduction of 15% in rent for that period. Since June the waiver has diminished to only 8% of rental income as tenants' turnover recovers. Deferred rent of \$531,000 has been recorded as a receivable and is expected to be recovered over the term of the leases or 2 years whichever is the greater. A detailed assessment has been made of the likely recovery of the deferred amounts with reference to how tenants are reporting a recovery in their revenue and through the payments they are making in relation to rent. Given the time available for the repayment of the deferred rent, BWR does not consider at

this time much of this balance as doubtful. \$24,000 has been raised as a provision for credit loss.

Valuations

There is a level of uncertainty regarding the ultimate impact of COVID on BWR's property valuations. Independent Valuations were performed in June and November 2020 and valuers have noted this uncertainty. The effects of COVID were reflected in various assumptions by the valuers including yield, discount rates and market rent. The overall result was a decline from December 2019 to November 2020 reported values of around 4%.

(c) Impact on Planloc

The valuations of the Penrith and Villawood properties have decreased from \$22.8 million to \$21.5 million and from \$22.3 million to \$22.0 million respectively. While this decrease was expected due to COVID, the lack of activity in the commercial property market has made it difficult to assess the recovery timeline. There has also been some rent waivers and deferrals (as a result of the mandatory rent relief code discussed above) at both the Penrith and Villawood properties, which has impacted the revenue of these sites. Penrith waived around \$100,000 of rent and deferred a further \$90,000 to September 2020. Given the nature of the Villawood property (an entertainment precinct), greater relief was given with \$375,000 of rent being waived to September 2020 and \$90,000 deferred.

6.3 General investment risks – Stapled Security

The market price of Stapled Securities quoted on the ASX will be influenced by a number of factors, including those set out below.

- (a) change in investor sentiment and overall performance of the Australian and international stock markets;
- (b) changes in credit markets;
- (c) changes in general business, industry cycles and economic conditions including inflation, interest rates, exchange rates, commodity prices, employment levels and consumer demand;
- (d) changes in legislation and fiscal, monetary and regulatory policies;
- (e) liquidity cannot be guaranteed and the number of potential buyers or sellers of Stapled Securities on the ASX at any given time may vary;
- (f) natural disasters, catastrophes and health pandemics, whether of a global, regional or local scale; and
- (g) accounting standards which affect the financial performance and position reported by Stapled Group and the Stapled Entities.

These factors may vary across the markets in which the Stapled Entities will operate and have differing effects on different parts of the Stapled Entities' businesses and therefore the price of the Stapled Securities.

6.4 Risks specific to an investment in WOTSO Shares

There are a range of business-specific risks associated with your continued investment in WOTSO Shares, as set out below. You will continue to be exposed to these risks upon the Stapling Proposal becoming successful and WOTSO forming part of the Stapled Group. You should be aware that the COVID-19 economic and social environment has the potential

to exacerbate each of these specific risks in relation to WOTSO (further information as to the effects of COVID-19 on WOTSO is set out in Section 6.2 above).

- (a) **Competition** - There is currently little competition within most localities WOTSO operates. If more competitors expand into suburban and regional areas, WOTSO's competitive advantage could be eroded. In localities with a direct competitor, price undercutting can either lead to lower realised prices or reduced occupancy. Both of which would reduce revenue and profitability and could lead to leasing defaults.
- (b) **Lease Obligations** - The single greatest financial risk to WOTSO is its lease commitments. The profitability of sites is affected by movements in market rents, which also impact the price at which WOTSO can sell to its customers. As WOTSO's lease terms are significantly longer than the month-to-month terms it provides to customers, there is a potential mismatch if market rents fall significantly, which can impact profitability and cash flows.
- (c) **Employee training, retention and recruitment** - As a service-based business, the strength and capabilities of our team are critical in acquiring and retaining customers.
- (d) **Emerging trends and disruptive technology** - New formats and technological developments are driving demand for flexible working. Failure to recognise these could mean WOTSO's product offering is below that of our competitors.
- (e) **Failure to attract and retain clients** - While turnover is expected in the industry, a failure to retain a proportion of current clients and attract new clients would adversely impact financial performance.
- (f) **Failure of IT systems** - A failure of internet or telephone connection or our in-house operating system could cause business interruptions, breaches of customer privacy and loss or corruption of and to customer data. An occurrence of this kind may involve costs to WOTSO to investigate, recover or repair customer data or the company's IT infrastructure. It also poses a risk of losing customers or damaging WOTSO's reputation, which could negatively affect its operating and financial performance.

6.5 Risks specific to an investment in BWR Units and Planloc Shares

There are a range of business-specific risks associated with an investment in BWR Units and Planloc Shares, as set out below. If the Stapling Proposal is successful, you will become exposed to these risks due to holding BWR Units and Planloc Shares as part of the Stapled Security. The specific risks associated with these entities have been dealt with together as the business models and underlying assets are similar. You should be aware that the COVID-19 economic and social environment has the potential to exacerbate each of these specific risks in relation to BWR and Planloc (further information as to the effects of COVID-19 on BWR and Planloc is set out in Section 6.2 above).

- (a) **Valuations** - a valuation by its very nature is an opinion and therefore, the directors' valuations or future independent valuations of BWR or Planloc's assets, may not reflect the price at which an asset could be sold. A low valuation of a material investment would have an adverse impact on the net tangible asset value of BWR or Planloc and as a result could impact the trading price or cause lending covenants to be breached.
- (b) **Tenancy Risk** - the level of vacancies may fluctuate with market forces. An increase in vacancies may adversely affect rental income from the properties BWR or Planloc invests in, which would affect the income of BWR or Planloc.
- (c) **Competition** - the effect of pricing or competition policies of any competing properties or tenants or increased competition from new or existing properties may have an

adverse effect on the level of tenancy vacancies and on the value of the relevant property.

- (d) **Unplanned Capital Expenditure** - the need for unforeseen capital expenditure, and how this expenditure will be funded, may affect BWR or Planloc's ability to meet its debt obligations as well as impacting on the level of distributions to investors.
- (e) **Damage to Assets and Insurance** - insurance in relation to BWR or Planloc's assets may not cover all events or all claims made. Further, appropriate cover for terrorism, pandemics and other uninsurable risks may not be available, or the cover that is available may not be adequate or commercially viable.
- (f) **Liquidity** - there can be no guarantee that BWR or Planloc will be able to sell their properties or investments within a reasonable time, or that any such sale will be at a price equivalent or close to the most recent valuation. Generally, it is BWR and Planloc's strategy to hold property long-term.
- (g) **Distributions/Dividends** - the ability of BWR or Planloc to pay distributions/dividends is dependent on the entity having sufficient cash resources and distributable income. Whilst the level of income derived by BWR or Planloc from year to year is expected to be relatively certain, default in payment of rent by any lessees of the properties or variances in the costs of operating BWR or Planloc may affect the level of income available for distribution/dividends as well as the timing of distributions/dividends.

7. Key Steps and Documents

All dates referred to in this Section 7 are indicative only and any variations to these dates will be published on WOTSO's website.

7.1 Key steps in implementing the Scheme

The key steps in implementing the Scheme are outlined in the following table and summarised below.

#	Step
1.	<u>Preliminary Steps:</u> Enter into Scheme Implementation Deed and Deed Poll First Court Hearing
2.	Scheme meeting of WOTSO shareholders
3.	General meeting of WOTSO shareholders
4.	General meeting of BWR unitholders
5	Completion or waiver of outstanding Scheme Conditions
6.	Second Court Hearing
7.	Effective Date (lodgement of Court order with ASIC)
8.	WOTSO Share Consolidation
9.	Split, transfer, allotment and issue of securities of the Stapled Entities
10.	Stapled Securities quoted on the ASX

(a) Preliminary Steps

- (i) **Enter into Scheme Implementation Deed:** On 17 November 2020, WOTSO, BFSL as responsible entity of BWR and Planloc executed the Scheme Implementation Deed under which, among other things, WOTSO agreed to propose the Scheme. On 16 December 2020, the parties entered into a Deed of Amendment and Restatement to insert customary agreements and warranties into the Scheme of Arrangement to be made on behalf of Ineligible Scheme Shareholders for the transfer of their Scheme Shares to the WOTSO Sale Nominee. A copy of the Scheme Implementation Deed is reproduced in Annexure C and a summary of its key terms (including the Scheme Conditions, exclusivity and termination rights) is set out at Section 7.2.
- (ii) **Enter into Deed Poll:** BFSL as responsible entity of BWR, Planloc and Pelorus Private Equity have executed the Deed Poll in favour of Scheme Shareholders. Subject to the Scheme becoming Effective, pursuant to the Deed Poll, BFSL, Planloc and Pelorus Private Equity covenant in favour of Scheme Shareholders to perform their respective obligations under the Scheme. A copy of the Deed Poll is reproduced in Annexure E.

The Deed Poll is made to ensure BFSL as responsible entity of BWR, Planloc and Pelorus Private Equity perform their respective obligations under the Scheme, including the issue and allotment of (or procuring the issue and allotment of) additional units and shares in accordance with the Scheme.

WOTSO undertakes in favour of each Scheme Shareholder to enforce the Deed Poll against BFSL, Planloc and Pelorus Private Equity on behalf of, and as agent and attorney for, the Scheme Shareholders.

(iii) **First Court hearing**

On 18 December 2020, the Court heard and granted:

- (A) an application made by WOTSO for the Court to make an order under section 411(1) of the Corporations Act directing WOTSO to convene the Scheme Meeting; and
- (B) an application by BFSL as responsible entity of BWR for the Court to provide confirmation under section 63 of the *Trustee Act 1925* (NSW) that:
 - » BFSL would be justified in convening the BWR Meeting for the purposes of considering the BWR Resolution;
 - » and subject to BWR Unitholders passing the BWR Resolution, BWR Trust RE would be justified in proceeding on the basis that repealing the BWR Constitution and replacing it with the BWR Replacement Constitution would be within the powers conferred by the BWR Constitution and section 601GC of the Corporations Act,

(First Judicial Advice).

(b) **Scheme Meeting**

- (i) At the First Court hearing, the Court ordered that WOTSO convene the Scheme Meeting to be held on Friday 29 January 2021 commencing at 10:00am (AEDT) for the purpose of the WOTSO Shareholders voting on the Scheme. Instructions on how to attend and vote at the Scheme Meeting (including how to appoint a proxy, attorney or corporate representative to attend the Scheme Meeting and vote on your behalf) are set out in Section 2 of this Scheme Booklet and in the notes for the Notice of Scheme Meeting in Annexure G to this Scheme Booklet.
- (ii) Votes cast in favour of the Scheme Resolution must be approved by the Requisite Majorities, being:
 - (A) a majority in number (more than 50%) of WOTSO Shareholders present and voting (whether in person or by appointing a proxy, attorney or corporate representative to attend and vote at the Scheme Meeting) at the Scheme Meeting; and
 - (B) at least 75% of the total number of WOTSO Shares voted at the Scheme Meeting by WOTSO Shareholders (whether in person or by appointing a proxy, attorney or corporate representative to attend and vote at the Scheme Meeting).

The Court has the discretion to waive the first of these two requirements if it considers appropriate to do so.

(c) **General Meeting**

- (i) WOTSO is convening the General Meeting for the purpose of voting on the Supporting Resolutions (the passing of which are Scheme Conditions). The General Meeting will be held on the same date as the Scheme Meeting, and immediately upon the close of the Scheme Meeting. Instructions on how to attend and vote at the General Meeting are set out in Section 2 of this Scheme Booklet and in the notes for the Notice of General Meeting in Annexure H of this Scheme Booklet.
- (ii) Votes cast in favour of the Supporting Resolutions must be approved by:
 - (A) in the case of the Constitution Replacement Resolution, at least 75% of the votes cast either in person or by proxy at the meeting by WOTSO Shareholders entitled to vote on the resolution; and
 - (B) in the case of each of the Share Consolidation Resolution and each of the Directors Appointment Resolutions, a majority of the votes cast either in person or by proxy at the meeting by WOTSO Shareholders entitled to vote on each resolution.

Further details about the Supporting Resolutions are set out in Section 8 of this Scheme Booklet.

(d) **BWR Meeting**

As a condition to the Scheme becoming Effective, an extraordinary general meeting of BWR Unitholders (**BWR Meeting**) is being convened to approve the repeal of the existing constitution of BWR and replacing it with the BWR Replacement Constitution which includes provisions necessary for the Stapling Proposal (**BWR Resolution**).

A summary of the BWR Replacement Constitution is provided at Section 9.12(b) of this Scheme Booklet.

(e) **Second Court Hearing**

If the Scheme is approved by the Requisite Majorities of WOTSO Shareholders at the Scheme Meeting and all other Scheme Conditions have been satisfied or remain capable of being satisfied or waived (as applicable), WOTSO will apply to the Court for an order approving the Scheme. Subject to any restrictions arising due to the COVID-19 pandemic which will be announced by WOTSO on its website, each WOTSO Shareholder has the right to appear at Court at the hearing of the application by WOTSO for orders approving the Scheme. The Court has discretion as to whether to grant the orders approving the Scheme, even if the Scheme is agreed to by the Requisite Majorities of WOTSO Shareholders.

In addition, also at the Second Court Hearing, BFSL as responsible entity of BWR will seek customary confirmation from the Court under section 63 of the *Trustee Act 1925* (NSW) that, BWR Unitholders having approved the BWR Resolution by the requisite majority, BFSL would be justified in implementing the BWR Resolution, giving effect to the provisions of the BWR Replacement Constitution and in doing all things and taking all necessary steps to implement the Stapling Proposal (**Second Judicial Advice**).

(f) **Effective Date**

If the Court Order approving the Scheme is obtained, on or before 5.00pm (AEDT) on the first Business Day following approval of the Scheme by the Court in accordance with section 411(4)(b) of the Corporations Act, WOTSO will lodge with ASIC an office copy of the Court Order. The date the office copy of the Court Order is lodged with ASIC will be the Effective Date.

Once the Scheme becomes Effective, WOTSO, BWR, Pelorus Private Equity and Planloc will take or procure the taking of the steps required for the Scheme to be implemented.

(g) **WOTSO Consolidation**

In accordance with the Share Consolidation Resolution at the General Meeting, WOTSO will complete the consolidation of all WOTSO Shares on a 1:0.255233429 basis, with effect by no later than the Scheme Record Date.

The consolidation ratio has been determined by the WOTSO Board with reference to the valuation of WOTSO compared with the valuations of BWR and Planloc.

Please see the Independent Expert's Report in Annexure B for the Independent Expert's analysis of the Scheme.

(h) **Split, transfer, allotment and issue of securities of the Stapled Entities**

Under the Stapling Proposal, the Stapled Entities and Pelorus Private Equity (as applicable) will complete the following actions on or before the Implementation Date:

- (i) Planloc completes the Planloc Share Split to ensure that on the Scheme Record Date there are the equal numbers of Planloc Shares as BWR Units;
 - (ii) all BWR Units held by Ineligible BWR Unitholders on the Scheme Record Date will be transferred to the BWR Sale Nominee;
 - (iii) all WOTSO Shares held by Ineligible WOTSO Shareholders on the Scheme Record Date will be transferred to the WOTSO Sale Nominee;
 - (iv) Pelorus Private Equity completes the transfer of all existing Planloc Shares on issue on the Scheme Record Date to:
 - (A) BFSL, on the basis of one Planloc Share for each BWR Unit held by an Eligible BWR Unitholder on the Scheme Record Date. BFSL will hold these Planloc Shares as agent for each Eligible BWR Unitholder; and
 - (B) the BWR Sale Nominee (on behalf of Ineligible BWR Unitholders) on the basis of one Planloc Share per BWR Unit held by the Ineligible BWR Unitholders on the Schemed Record Date.
- (Planloc Transfer Shares);**
- (v) BFSL will transfer the Planloc Transfer Shares to all existing Eligible BWR Unitholders so that for every one BWR Unit held by an Eligible BWR Unitholder on the Scheme Record Date, an existing Planloc Share will be transferred to them by BFSL;

- (vi) Upon completion of the WOTSO Share Consolidation, WOTSO will complete the allotment and issue a total of 142,150,000 new WOTSO Shares in the following manner:
 - (A) to BFSL who will hold those WOTSO Shares as agent for each Eligible BWR Unitholder (on the basis of one WOTSO Share per BWR Unit held by the Eligible BWR Unitholder on the Scheme Record Date), and who will then transfer the newly issued WOTSO Shares to the Eligible BWR Unitholders on that basis; and
 - (B) to the BWR Sale Nominee (on behalf of Ineligible BWR Unitholders) on the basis of one WOTSO Share per BWR Unit held by the Ineligible BWR Unitholders on the Scheme Record Date.
- (vii) Planloc will complete the allotment and issue of:
 - (A) one Planloc Share to each Eligible Scheme Shareholder for every one WOTSO Share held by the Eligible Scheme Shareholder on the Scheme Record Date (on a post WOTSO consolidation basis); and
 - (B) Planloc Shares to the WOTSO Sale Nominee (on behalf of Ineligible Scheme Shareholders) on the basis of one Planloc Share issued for every one WOTSO Share held by the Ineligible Scheme Shareholders on the Scheme Record Date (on a post WOTSO consolidation basis); and
- (viii) BWR will complete the allotment and issue of:
 - (A) one BWR Unit to each Eligible Scheme Shareholder for every one WOTSO Share held by the Eligible Scheme Shareholder on the Scheme Record Date (on a post WOTSO consolidation basis); and
 - (B) BWR Units to the WOTSO Sale Nominee (on behalf of Ineligible Scheme Shareholders) on the basis of one BWR Unit issued for every one WOTSO Share held by the Ineligible Scheme Shareholders on the Scheme Record Date (on a post WOTSO consolidation basis).

The effect of the steps above will result in the same number of WOTSO Shares, BWR Units and Planloc Shares on issue on the Implementation Date of the Scheme, with each WOTSO Share, BWR Unit and Planloc Share being stapled together to form one Stapled Security. The effect of the stapling will be that WOTSO, BWR and Planloc will operate as a single economic group to be known as "WOTSO Property".

(i) **Eligibility of foreign Scheme Shareholders**

A foreign Scheme Shareholder is any WOTSO Shareholder on the Scheme Record Date whose address is a place outside of Australia or who acts on behalf of such a person.

Restrictions in certain foreign countries may make it impractical or unlawful to offer or receive securities in those countries. Accordingly, not all foreign Scheme Shareholders will be eligible to receive securities under the Stapling Proposal.

Foreign Scheme Shareholders are eligible to participate in the Stapling Proposal only to the extent WOTSO, in conjunction with BWR and Planloc, determines that it is lawful and not unduly onerous or unduly impracticable for the relevant foreign Scheme Shareholder to receive securities under the Stapling Proposal.

No action has been taken to register or qualify the Stapled Securities or otherwise permit a public offer of such securities in any jurisdiction outside Australia.

Based on the information available to WOTSO, foreign WOTSO Shareholders whose addresses are shown in the register on Scheme Record Date as being in the following jurisdictions will be entitled to have BWR Units and Planloc Shares issued to them under the Stapling Proposal subject to any qualifications set out below in respect of that jurisdiction:

- » Hong Kong;
- » New Zealand;
- » United Kingdom; and
- » any other person or jurisdiction in respect of which WOTSO, in conjunction with BWR and Planloc reasonably believes that it is not prohibited and not unduly onerous or impractical to issue BWR Units or Planloc Shares to a WOTSO Shareholder with a registered address in such jurisdiction.

(Eligible Scheme Shareholders)

Nominees, custodians and other shareholders who hold WOTSO Shares on behalf of a beneficial owner resident outside Australia, Hong Kong, New Zealand and the United Kingdom may not forward this Scheme Booklet (or any accompanying document) to anyone outside these countries without the consent of WOTSO.

All other foreign Scheme Shareholders are deemed to be "**Ineligible Scheme Shareholders**" and their interests will be dealt with under the WOTSO Sale Facility as discussed below in Section 7.1(j).

New Zealand

This Scheme Booklet is not a New Zealand disclosure document and has not been registered, filed with or approved by any New Zealand regulatory authority under or in accordance with the Financial Markets Conduct Act 2013. The offer of Stapled Securities under the Stapling Proposal is being made to existing shareholders of WOTSO in reliance upon the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 and, accordingly, this Scheme Booklet may not contain all the information that a disclosure document is required to contain under New Zealand law.

United Kingdom

Neither the information in this Scheme Booklet nor any other document relating to the Stapling Proposal has been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000, as amended (“FSMA”)) has been published or is intended to be published in respect of the Stapled Securities.

Any invitation or inducement to engage in investment activity (within the meaning of section 21 FSMA) received in connection with the issue or sale of the Stapled Securities has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) FSMA does not apply to WOTSO.

In the United Kingdom, this Scheme Booklet is being distributed only to, and is directed at, persons (i) who fall within Article 43 (members of certain bodies corporate) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005, or (ii) to whom it may otherwise be lawfully communicated (together “relevant persons”). The investments to which this Scheme Booklet relates are available only to, and any invitation, offer or agreement to purchase will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this document or any of its contents.

(j) **WOTSO Sale Facility and WOTSO Sale Nominee**

Ineligible Scheme Shareholders will not receive BWR Units or Planloc Shares under the Stapling Proposal. Rather, the existing holding of WOTSO Shares held by Ineligible Scheme Shareholders on the Scheme Record Date will be transferred to the WOTSO Sale Nominee pursuant to the terms of the WOTSO Sale Facility.

Under the WOTSO Sale Facility:

- (i) WOTSO Shares held by Ineligible Scheme Shareholders on the Scheme Record Date will be transferred to the WOTSO Sale Nominee without the need for any further action by the Ineligible Scheme Shareholders;
- (ii) the WOTSO Sale Nominee will participate in the Stapling Proposal in respect of those WOTSO Shares by being issued BWR Units and Planloc Shares that would otherwise have been issued to the Ineligible Scheme Shareholders, in the same way as other Eligible Scheme Shareholders. After the implementation of the Stapling Proposal, the WOTSO Sale Nominee will hold the Stapled Securities which would otherwise have been received by Ineligible Scheme Shareholders;
- (iii) as soon as reasonably practicable after the Implementation Date (and in any event within 30 days of the Implementation Date), the WOTSO Sale Nominee will sell the Stapled Securities it holds. The sale will occur on market in the ordinary course of trading; and
- (iv) promptly after the sale of all the Stapled Securities held by the WOTSO Sale Nominee, the sale proceeds will be paid to Ineligible Scheme Shareholders by cheque or electronic funds transfer into a bank account nominated by the Ineligible Scheme Shareholder for the amount due to each Ineligible Scheme Shareholder together with a statement of how the amount is calculated.

Each Ineligible Scheme Shareholder will participate in the WOTSO Sale Facility and receive an amount equal to the average price per security at which the WOTSO Sale Nominee sold the Stapled Securities, multiplied by the number of Stapled Securities to which the Ineligible Scheme Shareholder would otherwise have been entitled had they participated under the Stapling Proposal.

WOTSO will bear any costs or fees of the WOTSO Sale Nominee.

The sale price of the Stapled Securities and the proceeds that an Ineligible Scheme Shareholder will receive cannot be guaranteed. The sale proceeds will not necessarily be the highest price at which the securities could be sold during the sale period. The WOTSO Sale Nominee will sell the securities in such manner, at such prices and as the WOTSO Sale Nominee determines in good faith with the objective of achieving the best prices reasonably obtainable at the time of the sales. Factors that may influence the price that may be obtained include:

- (i) the total number of Stapled Securities that participate in the WOTSO Sale Facility;
- (ii) the fact there will be a concurrent sale facility for the purpose of selling Stapled Securities that would otherwise have been held by foreign BWR Unitholders who were not eligible to participate in the Stapling Proposal (**Ineligible BWR Unitholders**, see below for more details);
- (iii) the prevailing market conditions, including the prevailing price of Stapled Securities on ASX and the prevailing demand for those securities; and

(iv) the period during which the sale process is undertaken.

(k) **Ineligible BWR Unitholders and the BWR Sale Nominee**

Similar to the process described in Sections 7.1(i) and 7.1(j) in relation to Ineligible Scheme Shareholders, foreign BWR Unitholders who are similarly deemed ineligible to participate in the Stapling Proposal (ie the transfer of Planloc Shares and the issue of WOTSO Shares to BWR Unitholders) (**Ineligible BWR Unitholders**) will have the Stapled Securities to which they would otherwise have been entitled acquired and sold by the BWR Sale Nominee under a sale facility on substantially similar terms as the WOTSO Sale Facility.

(l) **Stapled Securities quoted on the ASX**

Subject to ASX providing its approval, the Stapled Group will be admitted to the Official List and official quotation of the Stapled Securities will commence on, or as soon as possible after the Implementation Date.

The Stapled Securities are expected to trade under the ASX code "WOT".

7.2 **Scheme Implementation Deed**

The Scheme Implementation Deed sets out the obligations of WOTSO, BWR and Planloc in connection with the implementation of the Scheme. A summary of certain key terms of the Scheme Implementation Deed is set out below. A copy of the Scheme Implementation Deed is contained in Annexure C.

(a) **Exclusivity**

The Scheme Implementation Deed provides that WOTSO is subject to certain exclusivity obligations during the Exclusivity Period. These are summarised below:

- (i) "no shop" obligation
- (ii) "no talk" obligation
- (iii) "no due diligence" obligation

WOTSO is required to notify both BWR and Planloc of any Competing Proposals that WOTSO receives. As at the date of this Scheme Booklet, no such Superior Proposal has been received.

However, if the WOTSO Board determines that complying with no talk or no due diligence restrictions or the notification obligation would be likely to constitute a breach of the fiduciary or statutory duties owed by the WOTSO Board, it need not do so, and in those circumstances WOTSO would be permitted to respond to any Competing Proposal or refrain from notifying BWR and Planloc of any Competing Proposal.

WOTSO will keep you informed of any material developments, including by making announcements to WOTSO Shareholders via the WOTSO website. WOTSO Shareholders are encouraged to continue to monitor the WOTSO website until the Scheme is implemented.

Full details of the exclusivity provisions are set out in clause 9 of the Scheme Implementation Deed, set out in Annexure C.

(b) **Scheme Conditions**

The Scheme is subject to the satisfaction (or, if applicable, waiver) of the Scheme Conditions which are summarised below and set out in the Scheme Implementation Deed (which is reproduced in Appendix C to this Scheme Booklet). If the Scheme Conditions are not satisfied or waived (as applicable) by the End Date (being 17 May 2021 or such other date as agreed between WOTSO, BWR and Planloc), the Scheme will not proceed and WOTSO Shareholders will not be issued the additional BWR Units and Planloc Shares.

As at the date of this Scheme Booklet, the outstanding Scheme Conditions which must be satisfied or waived (as applicable) before the Scheme can become Effective are summarised as follows:

- (i) **(Regulatory Approvals)** before 8.00am on the Second Court Date, ASIC and ASX issue or provide such consents or approvals as are necessary or which the parties agree are necessary or desirable to implement the Scheme and such consent, approval or other act has not been withdrawn or revoked before 8.00am on the Second Court Date;
- (ii) **(Admission of stapled group)** the stapled group comprising WOTSO, BWR and Planloc must be approved for admission to the official list of ASX (subject only to customary listing conditions);
- (iii) **(Quotation of Stapled Securities)** ASX has indicated in writing that it will grant permission for the quotation of the Stapled Securities (subject only to customary pre-quotation listing conditions);
- (iv) **(Independent Expert)** the Independent Expert issues an Independent Expert's Report which concludes that the Scheme is in the best interests of WOTSO Shareholders before the time when the Scheme Booklet is registered with ASIC and the Independent Expert does not publicly withdraw, qualify or change that opinion at any time prior to 8.00am on the Second Court Date;
- (v) **(Shareholder approval for Scheme)** WOTSO Shareholders approve the Scheme by the requisite majorities in accordance with the Corporations Act;
- (vi) **(Shareholder approval for Supporting Resolutions)** WOTSO Shareholders approve each of the Supporting Resolutions by the requisite majorities in accordance with the Corporations Act;
- (vii) **(Unitholder approval for BWR Resolution)** BWR Unitholders approve the BWR Resolution by the requisite majority in accordance with the Corporations Act;
- (viii) **(Shareholder approval for Planloc Resolutions)** the Planloc Resolutions are approved by the requisite majorities in accordance with the Corporations Act;
- (ix) **(Court approval)** the Court approves the Scheme in accordance with section 411(4)(b) of the Corporations Act, and grants the Second Judicial Advice;
- (x) **(Stapling Deed)** the Stapling Deed has been executed to take effect on the Implementation Date;
- (xi) **(Management Agreement)** the Management Agreement has been executed to take effect on the Implementation Date;

- (xii) **(No regulatory intervention)** no Court or Government Agency has issued or taken steps to issue an order, temporary restraining order, preliminary or permanent injunction, decree or ruling or taken any action enjoining, restraining or otherwise imposing a legal restraint or prohibition preventing the Scheme and none of those things is in effect as at 8.00am on the Second Court Date;
- (xiii) **(No Prescribed Occurrence)** no WOTSO Prescribed Occurrence, BWR Prescribed Occurrence or Planloc Prescribed Occurrence occurs between the date of the Scheme Implementation Deed and as at 8.00am on the Second Court Date;
- (xiv) **(Representations and Warranties)** the WOTSO Representations and Warranties, BWR Representations and Warranties, and Planloc Representations and Warranties are true and correct in all material respects at all times between the date of the Scheme Implementation Deed and as at 8.00am on the Second Court Date, except where expressed to be operative at another date;
- (xv) **(No change of WOTSO Board recommendation)** between the date of the Scheme Implementation Deed and the date of the Scheme Meeting, none of the Directors of WOTSO changing, qualifying or withdrawing their unanimous recommendation to WOTSO Shareholders to vote in favour of the Scheme, which recommendation may be expressed to be given subject to the Independent Expert opining that the Scheme is in the best interest of WOTSO Shareholders.

The Scheme Conditions in paragraphs (i) to (iii) and (v) to (x) above cannot be waived. As at the date of this Scheme Booklet, the WOTSO Directors are not aware of any reason why the Scheme Conditions should not be satisfied.

(c) **Termination**

As outlined in clause 14 of the Scheme Implementation Deed, the Scheme Implementation Deed may be terminated in circumstances including the following events:

- (i) by any of WOTSO, BWR and Planloc if:
 - (A) the Scheme has not become Effective by the End Date;
 - (B) a Scheme Condition has not been satisfied or waived (as applicable) by the date required, and, in certain circumstances, WOTSO, BWR and Planloc are unable to agree on a course of action;
 - (C) the Court refuses to make orders convening the Scheme Meeting or approving the Scheme and either:
 - » WOTSO, BWR and Planloc agree not to appeal the Court's decision; or
 - » an independent senior counsel advises that, in their opinion, an appeal would have no reasonable prospect of success before the End Date;
 - (D) at any time before 8:00am on the Second Court Date any of the other parties have materially breached any provision of the Scheme Implementation Deed and, if the breach is capable of remedy, the

party in breach has not remedied the breach within the prescribed time; or

- (E) agreed to in writing by WOTSO, BWR and Planloc;
- (ii) by BWR and Planloc if at any time before 8:00am on the Second Court Date, any member of the WOTSO Board fails to make or withdraws their recommendation to the Scheme Shareholders that the Scheme Shareholders should vote in favour of the resolution to approve the Scheme, including any adverse modification to their recommendation, or otherwise makes a public statement indicating that they no longer supports the Scheme;
- (iii) by WOTSO at any time before 8:00am on the Second Court Date if a majority of the WOTSO Board publically recommends a Competing Proposal that is a Superior Proposal, and provided that the Competing Proposal was not facilitated or solicited in breach of the WOTSO's exclusivity obligations described in Section 7.2(a) above.

Full details of the termination events are detailed in the Scheme Implementation Deed contained in Annexure C. If the Scheme Implementation Deed is terminated, the Scheme will not proceed.

(d) **End Date**

The Scheme will lapse and be of no further force or effect if the Scheme has not become Effective on or before 17 May 2021 or such later date as WOTSO, BWR and Planloc agree in writing.

7.3 Stapling Deed

The Stapling Deed sets out the terms and conditions governing the relationship between WOTSO, BWR and Planloc upon becoming a Stapled Group and in respect of the Stapled Securities. A copy of the Stapling Deed is annexed to this Scheme Booklet as Annexure F. Capitalised terms in this Section that are not defined have the meaning given in the Stapling Deed.

The key terms of the Stapling Deed include:

(a) **Stapling**

The WOTSO Shares, BWR Units and Planloc Shares will remain stapled unless a special resolution of the relevant stapled securityholders approves unstapling, if stapling becomes unlawful or prohibited by the Listing Rules, or a winding up is commenced in respect of any of the Stapled Entities.

(b) **Co-operation and Consultation**

The parties to the Stapling Deed agree to share accounting and other information, and to co-operate in operating the Stapled Group, including in relation to providing information to securityholders, valuing assets, preparing accounts, holding meetings, issuing securities, acquiring investments and making dividends and distributions.

(c) **Financial Benefits**

The parties to the Stapling Deed agree to give financial benefits to the other entities in the Stapled Group including by lending money and providing guarantees.

(d) **Dealing in Stapled Securities**

The relevant components of the Stapled Group may only be issued or transferred as part of the Stapled Securities.

Each of the parties to the Stapling Deed must not cancel, buy-back or redeem shares or units unless at the same time there is a corresponding cancellation, buy-back or redemption of the shares or units of each other entity in the Stapled Group.

(e) **Registers**

Each of the parties to the Stapling Deed may maintain or procure the maintenance of a register of Stapled Securities. This includes the appointment of a common registrar.

All details of Stapled Securities and dealings in those securities must be entered in the register. Although separate registers may be kept, the registers must be kept entirely consistent with one another.

(f) **Duties**

When exercising any power or discretion, each of the parties to the Stapling Deed may consider the interest of holders of the relevant Stapled Securities as a whole, not only the interests of members of each stapled entity separately.

(g) **Dispute Resolution**

If there are disagreements arising from the Stapling Deed, each of the parties must use their best endeavours to resolve them and negotiate in good faith before instituting proceedings.

(h) **Allocation of the Issue Price**

Each of the parties to the Stapling Deed must agree from time to time what part of the amount payable for the issue, redemption or buy-back of a Stapled Security is to represent the price of shares or units in each of the entities forming part of the Stapled Group. The allocation is to be based on the methodology set out in the stapling provisions in the constitutions (unless agreed otherwise in the case of an issue or redemption) or fair values of the shares or units (in the case of a buy-back).

If the parties are unable to agree, an independent accountant must be appointed to determine what part of the amount payable is to represent the price of the constituent shares or units.

7.4 Management Agreement

The Management Agreement sets out the terms and conditions on which WOTSO, BWR and Planloc, upon becoming a Stapled Group, appoint BFSL to provide investment and other management services in respect of the Stapled Group.

The key terms of the Management Agreement include:

(a) **Appointment**

The Stapled Group appoints BFSL as Investment Manager to provide investment management services and any other services agreed between the Stapled Group and Investment Manager from time to time.

(b) **Stapled Group Obligations**

The Board of the Stapled Group will supervise the performance of the Investment Manager, and agrees to follow the directions or instructions of the Investment Manager provided that any such direction or instruction is consistent with the Stapling Documents and relevant law, the due exercise of a Director's duties to the Stapled Group, and is in the best interests of the Stapled Group.

(e) **Expenses**

The Stapled Group is liable (from the assets of the Portfolio) for any outgoings, costs, expenses, duties, taxes, fees and commissions properly incurred by the Investment Manager (or its agents) in connection with the Investment Manager performing the Services.

(f) **Indemnity**

The Investment Manager indemnifies each Stapled Entity against any liabilities, direct losses or outgoings suffered by a Stapled Entity, arising from or in connection with a breach of the Management Agreement or any wrongful conduct on the part of the Investment Manager or its agents (except to the extent a Stapled Entity contributed to the liability).

(g) **Reports**

The Investment Manager must, on request of the Stapled Group, provide such reports and information as the Stapled Group may reasonably require.

(h) **Term and termination**

The Investment Manager may terminate the Management Agreement for convenience with 90 days prior written notice.

(i) **Fees**

In consideration for providing the Services, BFSL as Investment Manager is paid management and other fees by each Stapled Entity comprising the Stapled Group. Section 3.13 sets out the fees payable by each Stapled Entity.

- (b) executing any document, or doing or taking any other act, necessary, desirable or expedient to give effect to the Scheme and the transactions contemplated by it.

8. Supporting Resolutions

8.1 Purpose

If the Scheme Resolution is approved by the requisite majority of WOTSO Shareholders at the Scheme Meeting, WOTSO Shareholders will be asked to consider and, if thought fit, approve the Supporting Resolutions at the General Meeting which will commence shortly after the Scheme Meeting concludes or is adjourned.

Each Supporting Resolution is dependent on the passage of each other Supporting Resolution and on the Scheme becoming Effective. The majorities required for each Supporting Resolutions are set out in the Notice of General Meeting and are summarised below.

Each of the Supporting Resolutions is discussed in Section 8.3, in particular for the purposes of informing WOTSO Shareholders of relevant information required to be disclosed under the Corporations Act. However, WOTSO Shareholders should consider the whole of this Scheme Booklet as material to the making of a decision whether to approve the Stapling Proposal.

8.2 Eligibility to vote at General Meeting

Each person who is registered on the WOTSO Share Register as a WOTSO Shareholder as at the Voting Eligibility Time (7.00pm (Sydney time) on Wednesday 27 January 2021) is entitled to attend and vote at the General Meeting, either in person, by proxy or attorney or, in the case of a corporate WOTSO Shareholder or proxy, by a representative.

Section 2 of this Scheme Booklet provides a summary of how to vote at the General Meeting with further information provided in the Notice of General Meeting. A proxy form for the General Meeting is enclosed with this Scheme Booklet.

8.3 Explanation of Supporting Resolutions

(a) Constitution Replacement Resolution

The purpose of the Constitution Replacement Resolution is for WOTSO Shareholders to consider repealing WOTSO's existing constitution and replacing it with the WOTSO Replacement Constitution that will be appropriate to WOTSO's new role as a Stapled Entity within the Stapled Group, and admission to the Official List.

The Constitution Replacement Resolution is proposed as a special resolution and is being put to WOTSO Shareholders to obtain their approval under section 136(2) of the Corporations Act. This section requires that the repeal of WOTSO's existing Constitution and the adoption of the proposed new WOTSO Replacement Constitution be approved by special resolution of WOTSO Shareholders. To be approved, this resolution must be passed by at least 75% of the votes cast either in person or by proxy at the meeting by WOTSO Shareholders entitled to vote on the resolution.

The proposed new WOTSO Replacement Constitution is summarised in Section 9.12(a), and a copy of which has been provided in Annexure I.

The proposed new WOTSO Replacement Constitution is designed to permit and facilitate the stapling of WOTSO Shares to BWR Units and Planloc Shares. The new WOTSO Replacement Constitution:

- (i) reflects WOTSO's obligations under the Stapling Deed and enables WOTSO to effect the Stapling of additional securities to Stapled Securities in the future; and
- (ii) includes provisions necessary for WOTSO to be admitted to the Official List, being provisions required to be included in an entity's constitution by the Listing Rules.

(b) Directors Appointment Resolutions

The purpose of the Directors Appointment Resolutions is to appoint each of Mr Richard Hill and Mr Robin Tedder as non-executive directors of WOTSO.

Messrs Hill and Tedder are currently non-executive directors of BFSL and Planloc, and their appointment to the board of WOTSO will result in the boards of each Stapled Entity comprising the same directors.

Information about each of the candidates can be found in Section 3.14.

(c) Share Consolidation Resolution

The purpose of the Share Consolidation Resolution is to seek WOTSO Shareholder approval for WOTSO to consolidate its issued capital to facilitate the Stapling. There are 81,068,581 WOTSO Shares on issue which means a consolidation is necessary to allow WOTSO Shares to be stapled to BWR Units and Planloc Shares on a 1:1:1 basis.

Under section 254H(1) of the Corporations Act, WOTSO may convert all or any of its shares into a smaller number of shares by ordinary resolution passed at a general meeting.

If the Share Consolidation Resolution is approved (and subject to the Scheme becoming Effective), every one WOTSO Share will be consolidated into 0.255233429 WOTSO Shares which will result in there being 20,691,412 WOTSO Shares on issue immediately after the consolidation (and by the Scheme Record Date).

The consolidation ratio has been determined by the WOTSO Board with reference to the valuation of WOTSO compared with the valuations of BWR and Planloc.

Following the issue of additional WOTSO Shares to BWR Unitholders pursuant to the Scheme and the issue of BWR Units and Planloc Shares to WOTSO Shareholders, there will be the same number of WOTSO Shares on issue as there are BWR Units and Planloc Shares, which will allow the Stapling to occur on a 1:1:1 basis.

As the consolidation applies equally to all WOTSO Shareholders, individual shareholdings will be reduced in the same ratio as the total number of WOTSO Shares (subject to rounding).

Please see the Independent Expert's Report in Annexure B for the Expert's analysis of the Scheme.

The constitutions of WOTSO and Planloc are the primary documents governing the relationship between WOTSO Shareholders and WOTSO, and Planloc Shareholders and Planloc, and which sets out the rights and obligations attaching to the WOTSO Shares and Planloc Shares.

In accordance with the implementation of the Scheme, WOTSO will be seeking to replace its existing constitution with the effect being the constitutions of both WOTSO and Planloc will be identical in nature (other than the name of the corporate entity). See Annexure I.

A summary of the significant rights, liabilities and obligations attaching to the WOTSO Shares (and thus also attaching to Planloc Shares) and a description of other material provisions of the replacement WOTSO Constitution (and thus also the existing Planloc Constitution) are set out below. Capitalised terms in this Section 9.12(a) that are not defined in the Scheme Booklet have the meaning given in the WOTSO

Constitution. The summary in this Section is general in nature and is not intended to explain the legal effect of the document.

Voting at a general meeting	At a general meeting of WOTSO, every Shareholder present in person or by proxy, representative or attorney has one vote on a show of hands and, on a poll, one vote for each WOTSO Share held. In the case of an equality of votes on a resolution, the chairperson of the meeting does not have a casting vote and the resolution will be decided in the negative.
Meetings of members	Each Shareholder is entitled to receive notice of, attend and vote at general meetings of WOTSO and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, Corporations Act and Listing Rules. WOTSO must give at least 28 days' written notice of a general meeting.
Hybrid meetings	WOTSO is permitted to hold hybrid meetings, being general meetings conducted from a physical location in combination with participation from other physical or virtual locations via electronic facilities.
Dividends	The Board may pay any interim and final dividends that, in its judgement, the financial position of WOTSO justifies. The Board may also pay any dividend required to be paid under the terms of issue of a WOTSO Share, and fix a record date, for a dividend and the timing and method of payment.
Transfer of Shares	Subject to the Constitution and to any restrictions attached to a Shareholder's WOTSO Share, WOTSO Shares may be transferred in accordance with the ASX Settlement Operating Rules, the Corporations Act and Listing Rules or by a written transfer in any usual form or in any other form approved by the Board and permitted by the relevant laws and ASX requirements. Issue of further Shares	The Board may, subject to the Constitution, Corporations Act and the Listing Rules issue, allot or grant options for, or otherwise dispose of, WOTSO Shares on such terms as the Board decides.
Stapling	<p>The Constitution includes stapling provisions to facilitate the implementation of the Stapling Proposal including mechanisms to staple, unstaple and restaple WOTSO shares with other securities. Once Stapled, the Stapled Securities are treated as one security.</p> <p>WOTSO must not:</p> <ul style="list-style-type: none"> • offer or issue a WOTSO Share, unless a corresponding offer or issue is made at the same time and to the same person for a BWR Unit and Planloc Share; • cancel, buy-back or redeem a WOTSO Share unless at the same time there is a corresponding cancellation, buy-back or redemption of a BWR Unit and Planloc Share; or • register any transfer of a WOTSO Share to any person unless a BWR Unit and Planloc Share is also transferred to the same person at the same time in a single instrument of transfer of Stapled Securities.
Winding up	If WOTSO is wound up, then subject to the Constitution, the Corporations Act and any rights or restrictions attached to any WOTSO Shares or classes of

	<p>shares, Shareholders will be entitled to a share in any surplus property of WOTSO in proportion to the number of WOTSO Shares held by them.</p> <p>If WOTSO is wound up, the liquidator may, with the sanction of a special resolution, divide among the Shareholders the whole or part of WOTSO's property and decide how the division is to be carried out as between Shareholders or different classes of shareholders.</p>
Non-marketable parcels	In accordance with the Listing Rules, the Board may sell WOTSO Shares that constitute less than a marketable parcel by following the procedures set out in the Constitution. An unmarketable parcel of shares is defined in the Listing Rules and is generally, a holding of shares with a market value of less than \$500.
Proportional takeover provisions	The Constitution contains provisions requiring Shareholder approval in relation to any proportional takeover bid. These provisions will cease to apply unless renewed by Shareholders passing a special resolution by the third anniversary of either the date those rules were adopted or the date those rules were last renewed.

(b) **BWR Replacement Constitution**

The constitution of BWR is the primary document governing the relationship between BWR unitholders and BFSL (as responsible entity). BFSL established the BWR by constitution dated 23 June 2004.

A summary of the key rights and obligations attaching to a BWR Unit is set out below. The summary is not exhaustive and should be read subject to the full terms of the BWR Constitution. The summary provided below is on the basis of the replacement BWR Constitution which will be in force upon implementation of the Scheme (**BWR Replacement Constitution**).

A copy of the BWR Replacement Constitution is available at blackwall.com.au/invest/. The summary in this Section is general in nature and is not intended to explain the legal effect of the document.

Division of beneficial interest	The beneficial interest in BWR is divided into BWR Units. Subject to the terms of issue, every BWR Unit confers an equal and undivided interest in the Assets (as defined in the BWR Replacement Constitution) as a whole, subject to the liabilities of BWR, but not an interest in any particular Asset.
Powers of RE	The responsible entity has all the powers in respect of the BWR that it is possible under the law to confer on a responsible entity and as though it were the absolute owner of the Assets acting in its personal capacity.
Winding up	The responsible entity must wind up BWR or cause BWR to be wound up in any one of the following circumstances: <ul style="list-style-type: none"> • BWR comes to the end of its term set out in the constitution; • BWR is without a responsible entity; • a Court orders BWR to be wound up; • if BWR's purpose has been accomplished or cannot be accomplished

	<p>and the responsible entity uses the mechanism provided for in section 601NC of the Corporations Act; or</p> <ul style="list-style-type: none"> any of the circumstances set out in section 601NE of the Corporations Act apply such that the responsible entity is required to wind up BWR.
Fees	<p>The responsible entity is entitled to be paid certain fees for its services to BWR details of which are set out in Section 3.3(i). The responsible entity will be indemnified and reimbursed out of BWR's Assets for all costs, charges and expenses properly incurred in connection with the establishment, administration, management and winding up of BWR by the responsible entity. The responsible entity must apportion any cost, charge or expense referable to a class asset.</p>
Indemnity and Liability	<p>The responsible entity has a right of indemnity out of the Assets in respect of liabilities incurred in the performance of its duties and for all fees and costs recoverable by it under the constitution. However, this indemnity does not apply in specific circumstances where there has been any negligence, deceit, breach of duty, fraud or breach of trust on the part of the responsible entity. The liability of Unitholders is limited to their Units and the Assets.</p>
Withdrawal Rights	<p>While the Units are officially quoted on the ASX, Unitholders may seek to sell their Units on-market.</p> <p>Otherwise a Unitholder may make a request for the withdrawal of their Units. The responsible entity has the discretion to accept or reject a withdrawal request.</p>
Stapling and reorganisation proposals	<p>The constitution contains broad powers for the responsible entity to implement the Stapling Proposal. This includes powers to:</p> <ul style="list-style-type: none"> staple, unstaple and restaple BWR Units; apply for or purchase fully paid securities on behalf of the Unitholders and consent to become a member of another entity on their behalf; and act as agent and attorney for Unitholders to do all things reasonably necessary to implement the proposal. <p>The responsible entity has specific powers to carry out certain types of reorganisation proposals, including consolidating or dividing BWR Units, stapling and unstapling BWR Units, and, undertaking various other strategies to restructure BWR (such as exchanging BWR Units for interests in another trust).</p> <p>While BWR is stapled, the constitution allows the re-allocation of capital across the stapled entities within the stapled group, to ensure that each entity is appropriately capitalised. For this purpose, the responsible entity may at any time, distribute an amount of capital from BWR, on terms that that distribution is to be applied by the responsible entity (on behalf of and at the deemed direction of members) as a capital payment to another stapled entity within the stapled group.</p> <p>Similarly, the constitution facilitates another stapled entity within the stapled group undertaking a capital reduction or distribution, on terms that the whole or any part of that amount is to be paid to or for the benefit of each Unitholder.</p>

	<p>In that event, each Unitholder is deemed to have directed the responsible entity to accept that incoming capital reallocation amount on their behalf.</p> <p>Once Stapled, the Stapled Securities are treated as one security. The responsible entity must not:</p> <ul style="list-style-type: none"> • offer or issue a BWR Unit, unless a corresponding offer or issue is made at the same time and to the same person for a WOTSO Share and Planloc Share; • cancel, buy-back or redeem a BWR Unit unless at the same time there is a corresponding cancellation, buy-back or redemption of a WOTSO Share and Planloc Share; or • register any transfer of a BWR Unit to any person unless a WOTSO Share and Planloc Share is also transferred to the same person at the same time in a single instrument of transfer of Stapled Securities. <p>The constitution also provides the manner of determining the issue price of Units (as part of stapled securities), calculating "market price" for various reasons, determining distributable income, making payments, sending notices and holding meetings for Stapled Security holders.</p>
Changing the constitution	The constitution can be changed or replaced by Unitholders passing a special resolution. The constitution can also be changed or replaced by the responsible entity (without Unitholders' approval) if the responsible entity believes the change will not adversely affect Unitholders' rights.
Non-marketable parcels	In accordance with the Listing Rules, the responsible entity may sell Units that constitute less than a marketable parcel by following the procedures set out in the BWR constitution. An unmarketable parcel of shares is defined in the Listing Rules and is generally a holding of shares with a market value of less than \$500.
Restrictions on relevant interests	The constitution restricts the number of Units a Unitholder (and the Unitholder's associates or related entities) may have an interest in or exercise control over. A person may not (without the responsible entity's prior written approval which, subject to the Corporations Act, may be granted or withheld in the responsible entity's absolute discretion) acquire by any means or become entitled in any way to a relevant interest in Units if as a result of the acquisition or entitlement that person would have a relevant interest in excess of 15%, or increase the amount by which the person's relevant interest exceeds 15%. This clause does not apply to any class units. This clause does not apply while BWR is admitted to the Official List.
Restricted Securities	A holder of Restricted Securities (as defined in the Listing Rules) must comply with the requirements imposed by the Listing Rules in respect of Restricted Securities.
Valuation of Assets	The responsible entity may cause an Asset to be valued at any time, however the responsible entity must do so as and when required by the Corporations Act.
Amendment	The constitution can be changed or replaced by Unitholders passing a special resolution. The constitution can also be changed or replaced by the responsible entity (without Unitholders' approval) if the responsible entity

	believes the change will not adversely affect Unitholders' rights.
Further Issue of Units	Subject to the Corporations Act, the responsible entity may determine to create and issue further Units of the same class or of a different class to those already on issue. The responsible entity may make the issue of further Units in different classes subject to rights, obligations and restrictions the responsible entity determines. The constitution sets out the calculation price of new Units.

Annexure A – Taxation Implications of the Transaction

1. Introduction

This section provides a summary of the Australian tax implications of the Stapling Proposal for WOTSO Shareholders and the subsequent holding and disposal of Stapled Securities as securityholders (**Securityholders**). The information contained in this section is general in nature and should not be relied on as tax advice. This section is not intended to be a complete statement of the taxation law applicable to the particular circumstances of each WOTSO shareholder or Securityholder. WOTSO Shareholders / Securityholders should obtain their own professional advice on the taxation consequences of participating in the Stapling Proposal and the subsequent holding and disposal of Stapled Securities.

This taxation summary assumes the relevant WOTSO Shareholder / Securityholder:

- is an Australian tax resident; and
- holds its shares in WOTSO / Stapled Securities on capital account (i.e. for investment purposes) and the Australian capital gains tax (CGT) rules apply.

WOTSO Shareholders / Securityholders who are tax residents in a country other than Australia should also take into account the tax consequences of the Stapling Proposal under the tax laws of their country of residence.

The information contained in this section is based on the Australian taxation law in force at the date of this Scheme Booklet. The taxation consequences outlined in this section are subject to changes in the taxation law after the date of this Scheme Booklet.

2. Stapling Proposal

Consolidation of WOTSO Shares

WOTSO Shareholders should have a tax cost base in their pre-existing WOTSO Shares. The tax cost base of those shareholders should be spread across the consolidated WOTSO Shares on a reasonable basis.

Consolidated WOTSO Shares are taken to have been acquired on same date as original shares (for CGT discount purposes). If the original WOTSO Shares had different acquisition dates, then a proportional basis is used (i.e. if 10% of original shares were acquired on an earlier date, 10% of consolidated shares are taken to have been acquired on that date).

Issue of securities in BWR Trust and Planloc to WOTSO Shareholders

Any pre-stapling WOTSO Shareholder will have a nil cost base in the BWR Units and Planloc Shares they receive as part of the Stapling Proposal.

Stapling of securities in BWR Trust, Planloc and WOTSO

Upon stapling of the securities in BWR Trust, Planloc and WOTSO, Securityholders who hold the Stapled Securities will have an interest in each of the individual securities (i.e. BWR Units, Planloc Shares and WOTSO Shares).

Although each Stapled Security cannot be traded separately, each BWR Unit, Planloc Share and WOTSO Share is treated as a separate asset for investors.

3. Holding Stapled Securities

The taxation of distributions will depend upon which entity within the stapled structure is paying it:

- If WOTSO – the distribution will be a dividend, and will be taxed in the same way as any corporate dividend.
- If Planloc - the distribution will be a dividend, and will be taxed in the same way as any corporate dividend.
- If BWR – the distribution is taxed in the same way as a distribution from an attribution managed investment trust (**AMIT**), such that a Securityholder will be taxed on the amount of BWR's taxable income that is attributed to that Securityholder as noted in the attribution managed investment trust member annual statement.

It should be noted that, if the distribution is more than the amount of BWR's taxable income attributed to that Securityholder, the Securityholder will have an AMIT cost base net excess amount on which that Securityholder will be immediately taxable.

4. Disposing of Stapled Securities

Where a Stapled Security is disposed of, the Securityholder is treated as disposing of three separate assets (a share in Planloc, a share in WOTSO and a unit in BWR Trust).

The proceeds a Securityholder receives on disposal of a Stapled Security will need to be apportioned across the three assets on a reasonable basis – a percentage apportionment based on relative net assets will be provided to Securityholders at 6-monthly intervals.

A capital gain should arise to the extent the disposal proceeds exceed the tax cost base. A Securityholder will need to work out their capital gain or loss on each separate component of the Stapled Securities sold by subtracting their tax cost base in each component from the apportioned proceeds.

A Securityholder may be eligible for a CGT discount for CGT assets held over 12 months. The discount percentage is 50% for individuals and trusts, and 33.33% for complying super funds and eligible life insurance companies. In working out whether the CGT discount applies, a Securityholder is treated as having acquired each security on the actual day of acquisition.

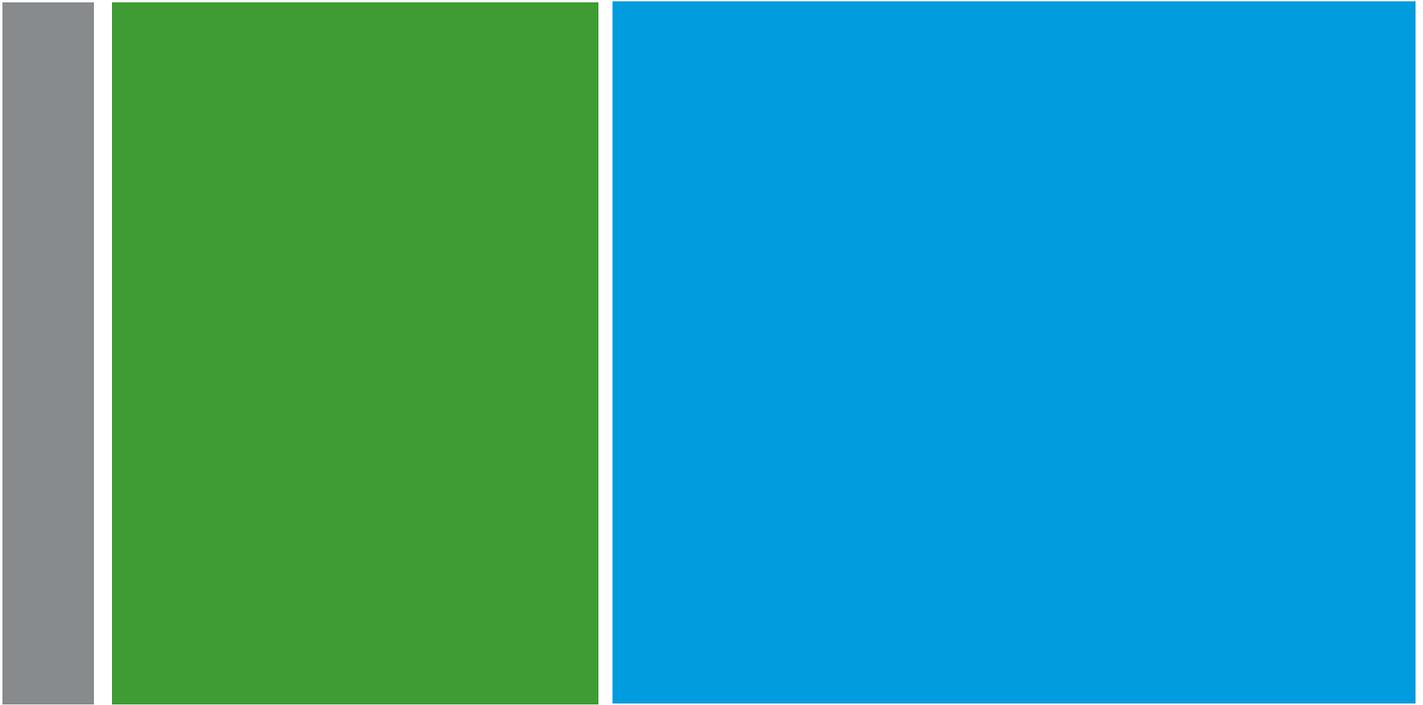

For pre-existing WOTSO Shareholders, they will retain the acquisition date of their WOTSO Shares, but will be treated as having acquired their BWR Units and Planloc Shares on the Implementation Date. To the extent a Securityholder makes any CGT gain on the disposal of a Stapled Security within 12 months of the Implementation Date, the CGT discount will not be available to capital gains made on a BWR Unit or Planloc Share but may be available to the extent any gain is made on a WOTSO Share provided the WOTSO Share has been held for 12 months.

5. GST

No GST liability should arise for any WOTSO Shareholder / Securityholder under the proposed transaction steps. GST is not payable on the acquisition, holding or disposal of securities as such supplies should be input taxed, GST-free or outside the scope of GST.

To the extent that a WOTSO Shareholder / Securityholder incurs any GST on costs relating to the receiving, holding or disposing of Securities (such as advisor fees) they may be entitled to input tax credits or reduced input tax credits for such GST, but should seek independent advice in relation to their individual circumstances.

Dear Shareholders

INDEPENDENT EXPERT'S REPORT ("REPORT")

1. Introduction

- 1.1 On 24 July 2020, BlackWall Property Trust ("BWR" or "the Trust") announced that its Directors had resolved to proceed with a transaction comprising the acquisition of WOTSO Limited ("WOTSO") and certain real estate assets currently held by Pelorus Private Equity Limited ("Pelorus"), along with the restructuring of BWR with the intention of forming a stapled security structure. Under the proposed transaction, BWR units would be stapled to shares in WOTSO and the Pelorus real estate assets. The acquisition of WOTSO is to be effected via a scheme of arrangement ("the Scheme").
- 1.2 The parties to the Scheme comprise WOTSO, BlackWall Fund Services Limited as responsible entity of BWR ("BFSL") and Planloc Pty Ltd ("Planloc"), a wholly owned subsidiary of Pelorus. Under the terms of the Scheme Implementation Agreement ("SIA"), WOTSO has entered into the SIA with BWR and Planloc in relation to a proposal to merge with BWR via the Scheme under Section 411 of the *Corporations Act 2001* ("the Act" or "the Corporations Act"). The parties have executed the SIA to give effect to the Scheme if all conditions precedent are satisfied.
- 1.3 Under the terms of the Scheme, WOTSO, BWR and Planloc will undertake a capital reorganisation, resulting in the same number of WOTSO shares, BWR units and Planloc shares on issue at the Scheme implementation date, with all shares and units stapled together to form one stapled group ("Stapled Group" or "WOTSO Property"), with the effect that the Stapled Group will operate as a single economic entity. If the Scheme is implemented, BWR will no longer trade on the ASX as a standalone entity, but will instead trade together with WOTSO and Planloc as WOTSO Property.
- 1.4 The implementation of the Scheme will result in BWR unitholders holding an 87% equity interest in WOTSO and Planloc, and existing WOTSO shareholders ("Shareholders") holding a 13% interest in BWR and Planloc.

-
- 1.5 The Scheme is subject to the Court convening a meeting of Shareholders where they will consider a resolution seeking approval of the Scheme (“Scheme Meeting”). The Scheme Meeting is to be held on or about 22 January 2021 and, under the Act, it will be approved by Shareholders if the resolution is passed by a majority of Shareholders present (in person or by proxy) and voting at the Scheme Meeting, and by at least 75% of the votes cast on the resolution. If this occurs, a second Court hearing will be held to approve the Scheme which, if approved, will become binding on all WOTSO Shareholders who hold WOTSO shares as at the Scheme record date, irrespective of whether or not they voted for the Scheme.
 - 1.6 The Directors of WOTSO have requested RSM Corporate Australia Pty Ltd (“RSM”), being independent and qualified for the purpose, to express an opinion as to whether the Scheme is in the best interests of Shareholders.
 - 1.7 Accordingly, we have prepared this Report for the purpose of stating, in our opinion whether or not the Scheme, and as such the offer under the Scheme, is in the best interests of Shareholders and to set out the reasons for that opinion. Our Report is to be included in the Scheme Booklet and Notice of Meeting to be sent to Shareholders in respect of the Scheme Meeting.
 - 1.8 This Report represents general financial product advice only and has been prepared without taking into consideration the individual circumstances of Shareholders. The ultimate decision whether to approve the Scheme should be based on each Shareholder’s assessment of their circumstances, including their risk profile, liquidity preference, tax position and expectations as to value and future market conditions. Shareholders should read and have regard to the contents of the Scheme Booklet and Notice of Meeting which have been prepared by the Directors and Management of WOTSO. Shareholders who are in doubt as to the action they should take with regard to the Scheme and the matters dealt with in this Report, should seek independent professional advice.

2. Summary and Conclusion

Opinion

- 2.1 In the absence of any other relevant information and/or a superior proposal, RSM considers the Scheme to be **not fair but reasonable** to Shareholders. Whilst the Scheme Consideration (on a non-controlling basis) is less than the Fair Value of a WOTSO share prior to the Scheme (on a controlling basis), we consider that there are sufficient reasons for security holders to vote in favour of the Scheme in the absence of a higher offer and, as such, that the Scheme is **in the best interests of Shareholders**. A summary of our reasons and the approach we have taken in assessing our opinion is set out in this Section of our Report.

Approach

- 2.2 In assessing whether the Scheme is “in the best interests” of Shareholders, we have considered Australian Securities and Investments Commission (“ASIC”) Regulatory Guide 111 – Content of expert reports (“RG 111”), which provides specific guidance as to how an expert is to appraise a scheme of arrangement.
- 2.3 Schemes of arrangement can be used as an alternative to a takeover bid under Chapter 6 of the Act to achieve substantially the same outcome. In these circumstances, RG 111 suggests that the form of analysis to be undertaken by the expert should be substantially the same as for a takeover bid.

2.4 In effect, the Scheme represents a takeover offer for WOTSO via the acquisition of an 87% interest in the Company by BWR. Therefore, consistent with the guidance set out in RG 111, in assessing whether or not we consider the Scheme to be “in the best interests” of Shareholders, we have considered whether the Scheme is “fair” to Shareholders by assessing and comparing:

- the Fair Value of a share in WOTSO on a controlling basis prior to the Scheme; with
- the Fair Value of the consideration offered per WOTSO share on a non-controlling basis immediately after the Scheme; and

considered whether the Scheme is “reasonable” to Shareholders by undertaking an analysis of the other factors relating to the Scheme which are likely to be relevant to Shareholders, in their decision of whether or not, to approve the Scheme.

2.5 Further information of the approach we have employed in assessing whether the Scheme is in “the best interests” of Shareholders is set out at Section 3 of this Report.

Is the Scheme Fair to Shareholders?

2.6 In assessing whether we consider the Scheme to be fair to Shareholders, we have valued a share in WOTSO on a controlling basis prior to the implementation of the Scheme, and compared it to the value of the consideration offered under the Scheme, being shares and units in the Stapled Group, on a non-controlling basis to determine whether a Shareholder would be better or worse off should the Scheme be approved.

2.7 As set out in paragraph 4.1, under the terms of the Scheme, WOTSO will undertake a share consolidation of approximately 1 share for every 4 currently on issue (rounded), resulting in 20,691,412 shares on issue immediately after the share consolidation. For consistency, our analysis of whether we consider the Scheme to be fair to Shareholders has valued the Fair Value per share prior to the Scheme on a controlling basis after taking into account the impact of the share consolidation.

2.8 The table below sets out our assessment of the Fair Value of a WOTSO share prior to the Scheme on a controlling basis, adjusted for this consolidation ratio compared to the Fair Value of the Scheme Consideration on a non-controlling basis.

	Ref	Low	High	Preferred
Fair Value per share prior to the Scheme (controlling basis) (post consolidation)	Table 21	\$1.31	\$1.38	\$1.35
Fair Value of Scheme Consideration (non-controlling basis)	Table 20	\$1.23	\$1.25	\$1.24

Source: RSM analysis

Table 1: Assessed Fair Value of a WOTSO share prior to the Scheme and the Scheme Consideration

2.9 The above comparison is depicted graphically in the chart below.

Chart 1: Assessed Fair Value of a WOTSO share prior to the Scheme and the Scheme Consideration

2.10 As the Fair Value of the Scheme Consideration (on a non-controlling basis) is less than the Fair Value of a WOTSO share prior to the Scheme (on a controlling basis and post consolidation), and in the absence of any other relevant information, in our opinion, the Scheme is **not fair** to Shareholders.

Is the Scheme Reasonable to Shareholders?

Consideration of other factors relating to Scheme

2.11 RG 111 establishes that an offer is reasonable if it is fair. It might also be reasonable if, despite not being fair, there are sufficient reasons for security holders to accept the offer in the absence of a higher bid. Section 14 of this Report sets out our consideration of other factors relating to the implementation of the Scheme which are likely to be relevant to the decision of Shareholders as to whether or not to approve the Scheme. We set out a summary of these factors below.

Future Prospects of WOTSO if the Scheme is not approved

2.12 If the Scheme is not approved by Shareholders, WOTSO will continue in its existing operations. The Directors consider that WOTSO will need to find alternative sources of capital to fund its growth strategy. There is a risk that finding alternative sources of capital could limit the Company's growth potential in the short to medium term, and reduce the chance of dividends being paid in order to retain capital to reinvest in the business.

Advantages of approving the Scheme

2.13 The key advantages of the Scheme are:

- WOTSO Shareholders will hold BWR units and Planloc shares and this will have exposure to the benefits of investing in those entities;
- the Directors of WOTSO consider that the Stapled Group will facilitate WOTSO's growth strategy by providing operational efficiencies and alignment of interests with WOTSO's largest landlord, BWR;
- if the Scheme is approved, the Stapled Securities will be traded on the ASX, providing increased liquidity to Shareholders and hence a more efficient market for Shareholders to dispose of their shareholdings;
- WOTSO will have access to listed capital markets for future funding requirements as part of the Stapled Securities traded on the ASX;
- the Scheme will cement WOTSO's relationship with the Company's largest landlord (8 of WOTSO's 17 sites are operated from BWR owned properties); and
- whilst we have assessed the Scheme as a control transaction, we note that the preferred value of the Scheme Consideration on a control basis is \$1.44. Further, whilst entities associated with Joseph Glew will hold a circa 37% relevant interest in the Stapled Group, this may not preclude Shareholders from the opportunity to access a control premium in the future.

Disadvantages of approving the Scheme

2.14 The key disadvantages of the Scheme are:

- the Scheme is not fair;
- the dilution of existing WOTSO Shareholders' interests in the Company from 100% to 13%;
- the dilution of Shareholders' interests reduces the ability of existing shareholders to influence the strategic direction of WOTSO, including the acceptance or rejection of other takeover or merger proposals;
- upon completion of the Scheme, entities associated with Joseph Glew (which in total currently hold a 17.71% relevant interest in WOTSO), will hold a circa 37.5% relevant interest in the Stapled Group. Consequently, Joseph Glew will have a significant influence on the Stapled Group with the ability to block compulsory acquisitions and special resolutions;

-
- the change in the nature and scale of activities of the Stapled Group may not fit the risk or investment profile of Shareholders; and
 - Shareholders may consider that WOTSO will become less attractive to potential buyers due to the stapled nature of WOTSO shares requiring a potential acquirer to also acquire BWR units and Planloc shares.

Alternative proposals and likelihood of an alternative takeover offer

- 2.15 WOTSO has advised us that no formal alternative offers or approaches by potential acquirers have been received prior to the announcement of the Scheme on 24 July 2020.
- 2.16 The alternative to the Scheme is for Shareholders to vote against the Scheme in the hope that they can realise greater value from their investment in WOTSO either through maintaining WOTSO as an independent company or through the emergence of a superior proposal to the Scheme. Whilst there is no evidence to suggest that Shareholders would be better off under this alternative, it is possible that an alternative offer may emerge prior to the Scheme Meeting. However, since the announcement of the Scheme on 24 July 2020, we have been advised that no superior offers have been put forward at the date of this Report.

Conclusion

- 2.17 In the absence of any other relevant information and/or a superior proposal, RSM considers the Scheme to be **reasonable** to Shareholders. Whilst the Scheme Consideration (on a non-controlling basis) is less than the Fair Value of a WOTSO share prior to the Scheme (on a controlling basis), we consider that there are sufficient reasons for security holders to vote in favour of the Scheme in the absence of a higher offer and, as such, that the Scheme is **in the best interests of Shareholders**.
- 2.18 An individual shareholder's opinion in relation to the Scheme may be influenced by his or her individual circumstances. If in doubt, Shareholders should consult an independent advisor.

3. Scope of the Report

Purpose of this Report

- 3.1 The Directors of WOTSO have requested RSM, being independent and qualified for the purpose, to express an opinion as to whether the Scheme is in the best interests of Shareholders.

Regulatory guidance

- 3.2 It is relevant to note that the expression “in the best interests” is not defined within either the Act or the Regulations. Therefore, in determining whether the Scheme is in the best interests of Shareholders, we have had regard to the views expressed by the ASIC in RG 111. This regulatory guide provides guidance as to what matters an independent expert should consider to assist security holders to make informed decisions about transactions.
- 3.3 RG 111 prescribes that a key matter that an expert needs to consider when determining the appropriate form of analysis is whether or not the effect of the transactions is comparable to a takeover bid and is therefore representative of a change of control transaction. Where a Scheme would achieve substantially the same outcome as a takeover bid, RG 111 aligns “in the best interests” with the “fair and reasonable” test. While RG 111 does not define “fair and reasonable” it does provide some guidance as to how the terms should be interpreted in a range of circumstances. With respect to a takeover bid RG 111 applies the “fair and reasonable” test as two distinct criteria, stating:
- a takeover offer is considered “fair” if the value of the offer price or consideration is equal to or greater than the value of the securities that are the subject of the offer; and
 - a takeover offer is considered “reasonable” if it is fair or, where the offer is “not fair”, it may still be “reasonable” if the expert believes that there are sufficient reasons for security holders to accept the offer in the absence of any higher bid before the close of the offer.
- 3.4 RG 111 contends that if an expert was to conclude that a Scheme is “fair and reasonable” if it was in the form of a takeover bid, it will also be able to conclude that the scheme is in the best interests of the members of the company.

Adopted basis of evaluation

- 3.5 In effect, the Scheme represents a takeover offer for WOTSO via the acquisition of an 87% interest in the Company by BWR. Therefore, consistent with the guidance set out in RG 111, in assessing whether or not we consider the Scheme to be “in the best interests” of Shareholders, we have considered whether the Scheme is “fair” to Shareholders by assessing and comparing:
- the Fair Value of a share in WOTSO on a controlling basis prior to the Scheme; with
 - the Fair Value of the consideration offered per WOTSO share on a non-controlling basis immediately after the Scheme.
- 3.6 On this basis, if the Fair Value of the consideration offered per WOTSO share immediately after the Scheme is equal to or greater than the Fair Value of a WOTSO share prior to the Scheme, in our opinion, the Scheme would be “fair” and, as such, in the best interests of Shareholders.
- 3.7 Our assessment of the Fair Value of a share in WOTSO has been prepared on a basis which is consistent with the following definition of Fair Value:

“the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction”

3.8 In assessing whether the Scheme is in the “best interests” of Shareholders, in addition to considering whether or not the Scheme is “fair” to Shareholders, we have also considered whether the Scheme is “reasonable” by undertaking an analysis of the following factors:

- the likelihood of an alternative takeover offer emerging;
- the future prospects of WOTSO if the Scheme is not implemented;
- qualitative factors, advantages and disadvantages of the Scheme to Shareholders; and
- the liquidity the Scheme provides.

3.9 Our assessment of the proposed Scheme is based on economic, market and other conditions prevailing at the date of this Report.

4. Summary of the Scheme

Overview

4.1 Under the terms of the Scheme, the ownership structure of the Stapled Group will be effected via a capital reorganisation as follows:

- at the date of this Report, WOTSO has 81,068,581 shares on issue and will undertake a share consolidation of approximately 1 share for every 4 currently on issue (rounded), resulting in 20,691,412 shares on issue immediately after the share consolidation. The share consolidation will be followed by the issue of 142,150,000 new ordinary shares to BWR unitholders, resulting in BWR unitholders holding an 87% interest in WOTSO, and WOTSO having a total of 162,841,412 shares on issue upon implementation of the Scheme;
- BWR currently has 142,150,000 units on issue and will issue an additional 20,691,412 new units to WOTSO Shareholders, resulting in Shareholders holding a 13% interest in BWR, and BWR having 162,841,412 units on issue upon implementation of the Scheme;
- Planloc currently has 4 shares on issue, all of which are held by Pelorus. Planloc will undertake a share split resulting in 142,150,000 shares on issue immediately after the share split, and will issue an additional 20,691,412 shares to WOTSO Shareholders. Consistent with WOTSO and BWR, Planloc will have 162,841,412 shares on issue upon implementation of the Scheme; and
- as part of the Scheme, Pelorus will transfer 142,150,000 Planloc shares to BFSL, which will in turn, transfer the Planloc shares to each BWR unitholder, such that for every BWR unit held by a unitholder, an existing Planloc share will be transferred to them.

4.2 The effect of the above capital reorganisation will result in the same number of WOTSO shares, BWR units and Planloc shares on issue upon implementation of the Scheme (being 162,841,412 shares/units), with all shares and units stapled together to form the Stapled Group.

4.3 Upon the implementation of the Scheme, BWR unitholders will hold an 87% interest in WOTSO and Planloc and existing WOTSO Shareholders will hold a 13% interest in BWR and Planloc.

4.4 The Scheme has been structured based on an expected net tangible asset position of BWR at 28 February 2020 of \$206.1m which is based upon assumptions in relation to expected half year distributions and income and expenditure to February 2021.

Table 3: WOTSO historical financial performance

5.8 We make the following comments in relation to the changes in WOTSO’s operations that have impacted the presentation of the historical financial performance for PE21, FY20 and FY19 as set out in Table 3 above:

5.8.1 during the second half of FY20, WOTSO changed its operational structure from operating five BWR leases under a franchise agreement (with net franchise fees received) to operating the majority of its sites under lease agreements; and

5.8.2 the Company adopted AASB 16 Leases (“AASB 16”) during FY20 with the impact to the presentation of the financial performance discussed in further detail at paragraphs 5.15 to 5.16.

-
- 5.9 WOTSO recognised income in relation to the Federal Government’s COVID-19 economic stimulus totalling \$408k in FY20 comprising JobKeeper wage subsidy and Cash Flow Boost income of \$345k and \$63k, respectively. Subsequent to 30 June 2020, WOTSO was deemed ineligible for the cash flow boost by the Australian Taxation Office, and the \$63k income and receivables related to this amount has been reversed in the period post 30 June 2020. WOTSO recognised further JobKeeper wage subsidies in PE21.
- 5.10 The Company also recognised capital works incentive income of \$183k for FY20 relating to its North Strathfield lease (comprising separate Coworking, Office and Expansion leases). WOTSO is currently in negotiations with its North Strathfield landlord, Yuhu Group (“Yuhu”), to reduce the three leases. WOTSO is retaining the Coworking and Expansion leases, with WOTSO office members commencing the move to the Expansion lease area in September 2020. During FY20, WOTSO and Kirela Development Unit Trust (“Kirela”) (formerly a wholly-owned subsidiary of BWF and acquired by WOTSO on 30 June 2020), completed works required to receive a \$5m incentive from Yuhu. Kirela was the long-term holder of the property precinct known as the Bakehouse Quarter at North Strathfield before it was sold to the Yuhu Group in April 2019.
- 5.11 This \$5m incentive included a set-off clause, meaning this payment could be set-off against future lease payments and other amounts due to Yuhu instead of being received as a cash lump-sum. WOTSO expects to use the remaining incentive available against future Expansion lease payments to cover the rent up until December 2021.
- 5.12 As at 30 June 2020, WOTSO disposed of the Office lease and remeasured the Expansion lease to reflect the additional rent holiday of which \$183k was recognised as the capital works incentive income above.
- 5.13 The carrying value of the fit-out allocated to the lease area being terminated of \$2.9m was written off, and in accordance with AASB 16 *Leases* (“AASB 16”), the Office lease termination was accounted for by removing the relevant right of use asset and liability, with the difference of \$661k being recognised as a gain through the profit or loss.
- 5.14 Management fee income of \$706k recognised in FY19 relates to income for management of a BWR site.
- 5.15 WOTSO adopted AASB 16 from 1 July 2019 using the modified retrospective approach and accordingly, the comparative financial performance for FY19 has not been restated. On adoption of AASB 16, WOTSO recognised lease liabilities in relation to leases which had previously been classified as “operating leases” under the principles of AASB 117 *Leases*. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate at 1 July 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities at 1 July 2019 was 3.75%. Right of use assets for property leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised on the balance sheet at 30 June 2019.
- 5.16 As a result of the adoption of AASB 16, the Company recognised depreciation on right of use assets and interest and interest on right of use liabilities of \$8.6m and \$2.1m, respectively, and \$nil rent expenses under operating expenses for FY20.
- 5.17 WOTSO operates a 50% joint venture with UEM Sunrise WOTSO Malaysia Sdn Bhd (“UEM Joint Venture”) in relation to the Company’s co-workspace operations located in Kuala Lumpur, Malaysia. The investment is accounted for using the equity method in accordance with AASB 128 *Investments in Associates and Joint Ventures* (“AASB 128”). During FY20, WOTSO assessed the recoverability of its loan of \$338k to the UEM Joint Venture as being at risk, resulting in the impairment of the full amount. The Company also recognised its share of losses from the UEM Joint Venture of \$66k during FY19 limited to WOTSO’s capital contribution made.
- 5.18 On 1 July 2019, WOTSO took over control of WOTSO Bondi Junction Pty Ltd (“WOTSO Bondi”), which was previously operated under a management agreement. Under this agreement, WOTSO managed the property on behalf of the lessee and took a share of revenue as management fees. However, on 1 July 2019, WOTSO took over this lease and the management agreement ceased. This was treated as a business combination under AASB 3 *Business Combinations* (“AASB 3”) and 100% of WOTSO Bondi was consolidated in the Company’s financial statements from 1 July 2019. WOTSO Bondi was in a net liability position at acquisition date and was purchased for \$nil consideration, with net liabilities of \$162k written off in FY20 and disclosed as an impairment of goodwill expense.

5.19 WOTSO disclosed losses for the year of \$10.9m for FY20 compared to profits of \$366k for FY19. The losses for FY20 compared to FY19 have primarily been attributed to COVID-19 related occupancy reductions in March to July 2020, as well as to operating losses incurred from the commencement of three new sites during FY20 (due to the nature of losses being incurred during the start-up phase of new sites until occupancy matures). Further, the application of AASB 16 resulted in higher total expenses being recognised, totalling \$9.4m and comprising depreciation on right of use assets, interest on right of use liabilities and gains recognised on lease modifications, than would have been recognised as a rental expense under the previous accounting standard of AASB 117 which would have totalled \$5.6m. Accordingly, the application of AASB 16 resulted in an additional \$3.8m loss disclosed for FY20.

Historical growth rates

5.20 The Company's operating income is driven by the occupancy rates of each site which are analysed below.

Historical occupancy rates

5.21 The charts below set out the portfolio and individual historical occupancy rates of each of the 16 sites operating in Australia. The Malaysian site is currently run under the UEM Joint Venture and is accounted for using the equity method. - 5.23 As set out in the chart above, revenue for the LTM to 30 September 2020, comprising revenue attributable to each of the 16 Australian leases, totalled \$12.9m.
- 5.24 Monthly revenue had increased from circa \$1.01m for July 2018 to \$1.34m for February 2020, resulting in implied annualised turnover of \$12.1m and \$16.1m, respectively.
- 5.25 Monthly turnover declined to \$493k and \$537k for April and May 2020, respectively due to the negative impact of the COVID-19 pandemic on occupancy rates. Thereafter, monthly revenue has slowly increased and totalled \$1.2m for September 2020. This resulted in annualised total revenue based on September 2020 revenue of \$14.8m.

Table 4: WOTSO historical financial position

5.27 At 30 June 2020, the Company disclosed net assets of \$5.0m compared to \$4.4m at 30 June 2019. The increase of \$651k in net assets was due to the following:

- the demerger from BWF in January 2020 resulting in an increase in share capital of \$8.0m comprising the conversion of \$5.0m of loans from BWF that were converted to equity at demerger and a further capital raise of \$3.0m;
- private placements to raise a further \$3.5m post-demerger; and
- offset by losses disclosed for FY20 of \$10.9m.

-
- 5.28 As at 31 October 2020, the Company disclosed net assets of \$3.9m, with the reduction in assets compared to 30 June 2020, primarily as a result of the losses disclosed for PE21.
- 5.29 At 30 June 2020 and 31 October 2020, trade and other receivables primarily comprised amounts due from WOTSO members, GST receivable and JobKeeper wage subsidy amounts receivable. A receivable of \$63k relating to the Cash Flow Boost from the Federal Government's COVID economic stimulus was also included in trade and other receivables (refer paragraph 5.9).
- 5.30 Lease incentive receivables, provision for lease incentive payable by Yuhu and rent payable due to Yuhu in relation to the North Strathfield lease relate to the lease modifications and incentive receivable from Yuhu adjusted for the set-off clauses as set out in paragraphs 5.10 to 5.13.
- 5.31 Capitalised costs in relation to internal software development relate to costs incurred to develop WOTSO's internal software used in operation of all WOTSO sites. The software functionality covers billing, meeting room bookings, interaction with members and customer relationship management (CRM) functionality.
- 5.32 Property, plant and equipment comprises of office fit-out and office equipment. The increase at 30 June 2020 compared to 30 June 2019 was due primarily to additions of \$11.7m recognised during FY20, offset by depreciation expense, disposals and asset write-offs totalling \$6.7m. The additions primarily related to the opening of three new sites in FY20 comprising Manly and Zetland in NSW and Woden in ACT, and the expansion and refurbishment of a number of existing sites including Dickson and Symonston (ACT), and Fortitude Valley (QLD).
- 5.33 Right of use assets and liabilities were recognised in accordance with the Company's adoption of AASB 16 as set out in paragraph 5.15.

The increase in trade and other payables at 30 June 2020 and 31 October 2020 was attributed primarily to an overall increase in workspace sites during FY20 and PE21.
- 5.35 Related party loans of \$2.0m and \$2.4m at 30 June 2020 and 31 October 2020, respectively (2019: \$1.2m) comprise of amounts due to BWF.

Deferred lease payments relate to rent deferrals received by WOTSO and are recognised as a deferred rent liability.

Table 7: BWR historical financial performance

- 6.18 Property income decreased 4% from \$25.1m in FY19 to \$24.0m for FY20. The decrease was primarily attributed to the negative impact of the COVID-19 pandemic during FY20. Property income for the 4 months to 31 October 2021 continued to be negatively impacted by the COVID-19 pandemic and amounted to \$7.3m (\$22.0m annualised).
- 6.19 The Government issued a mandatory code of conduct between landlords and qualifying tenants for commercial properties requiring rent relief to be provided to tenants in proportion to their turnover decline with at least half of this relief to be given in the form of a rent waiver and the remainder as a deferral of rent. As a result, BWR waived \$713k of rent from March to June 2020, which represented a reduction of 15% in rent for that period. Deferred rent receivable of \$513k was recorded as a receivable on the balance sheet at 30 June 2020 and 31 October 2020 and is expected to be recovered over the term of the lease or 2 years, whichever is greater.
- 6.20 Net gain on assets primarily reflected the net gain on the fair value of BWR's property investment portfolio based on independent valuations performed at each reporting period. The financial statements noted that there was a level of uncertainty regarding the ultimate impact of the COVID-19 pandemic on BWR's property valuations. The effects of the pandemic were reflected by various assumptions used by the independent valuers at 30 June 2020 including yield, discount rates and market rent. However, based on the independent property valuations, BWR recognised a net gain on the fair value of its property investment portfolio of \$19.0m, together with a net gain on the fair value of interest rate hedges of \$282k for FY20.
- 6.21 The net gain in relation to BWR's property investment portfolio of \$19.0m for FY20 was primarily attributable to a \$22.7m net gain on the assessed fair value of the Pymont property in NSW. BWR recognised net losses in relation to the Hobart, Adelaide, Toowoomba, Fortitude Valley and Sippy Downs properties for FY20.

6.22 Operating expenses comprised property outgoings and administration expenses. Administration expenses comprised responsible entity fees and compliance expenses such as listing and registry.

6.23 BWR disclosed profits for the year of \$23.0m, \$13.0m, \$23.9m and \$3.7m for FY18, FY19, FY20 and PE21, respectively, with profit attributable to the owners of the Trust of \$18.0m, \$4.4m, \$7.4m and \$2.7m for FY18, FY19, FY20 and PE21, respectively, noting that depreciation has not been charged for PE21.

Table 8: BWR historical financial position

6.25 As at 30 June 2020, BWR disclosed net assets of \$257.2m compared to \$254.4m and \$151.4m as at 30 June 2019 and 30 June 2018, respectively. The increase in net assets at 30 June 2020 compared to 30 June 2019 was due to total comprehensive income for FY20 of \$23.9m, offset by distributions paid, on market buy-back of BWR units, transaction costs and purchase of additional non-controlling interest shares of \$11.2m, \$8.0m, \$124k and \$1.8m, respectively. As at 31 October 2020, BWR disclosed net assets of \$255.8m a marginal decrease compared to 30 June 2020 as a result of the profit for the 4 months, offset by distributions paid.

6.26 The increase in net assets at 30 June 2019 of \$254.4m compared to \$151.4m at 30 June 2018 was due to total comprehensive income for FY19 of \$13.0m, the issue of units and an increase in non-controlling interests in

relation to the Villawood property of \$121.2m and \$5.2m, respectively, offset by distributions paid, transaction costs related to the issue of units and the purchase of additional Pymont property units of \$8.7m, \$2.5m and \$25.1m, respectively.

- 6.27 As at 30 June 2020, trade and other receivables totalling \$921k comprised \$627k of trade receivables and \$294k of receivables from related parties. Trade and other receivables at 31 October 2020 were relatively consistent at \$1.05m.
- 6.28 As set out in paragraph 6.19, BWR recognised \$531k and \$740k in deferred rent receivable at 30 June 2020 and 31 October 2020, respectively, in relation to deferred rent provided to tenants under the mandatory code of conduct between tenants and landlords under the COVID legislation.
- 6.29 The financial asset of \$6.0m is a retention amount relating to the sale of the Bakehouse Quarter, formerly held by Kirela and sold to Yuhu in April 2019. An amount of \$2m will be released each financial year provided WOTSO North Strathfield Pty Ltd (a wholly owned subsidiary of WOTSO), meets its rental obligations. The amount is held in a solicitor's Trust account and receives interest. It is expected that the first \$2m will be released before December 2020.
- 6.30 The property investment portfolio of \$298.1m at 30 June 2020 comprised the assessed fair value of each property discussed in paragraphs 6.5 to 6.15 based on independent valuations undertaken at 30 June 2020, with the exception of the Villawood property that was valued in February 2020. The property investment portfolio valuation increased marginally to \$298.9m at 31 October 2020 as a result of capitalised property costs.
- 6.31 At 30 June 2020 and 31 October 2020, BWR disclosed total borrowings of \$87.0m comprising current and non-current borrowings of \$47.0m and \$40.0m, respectively. Total borrowings comprised three debt facilities with National Australia Bank (NAB) with current borrowings relating to the Villawood property (\$7.0m) and various other properties (\$47.0m), and non-current borrowings of \$40.0m relating to the Pymont property.

Share price performance

6.33 The figure below sets out a summary of BWR's daily closing price and traded volumes on the ASX over the period 1 July 2019 to 13 November 2020.

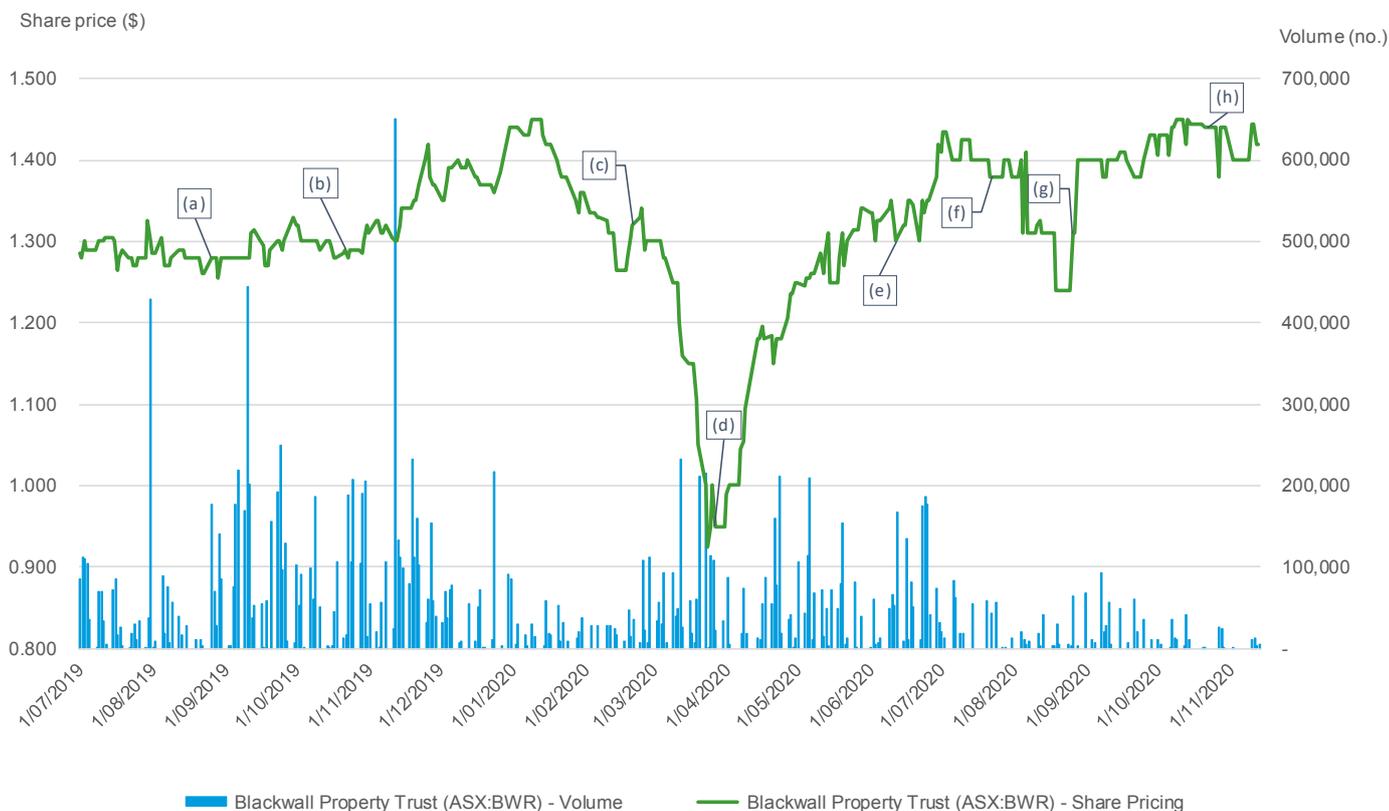

Chart 4: BWR recent unit prices and volumes traded (Source: Capital IQ and RSM analysis)

6.34 Over the period 1 July 2019 to 13 November 2020 BWR's shares have traded from a high of \$1.45 (first reached on 9 January 2020) to a low of \$0.925 (on 24 March 2020).

6.35 We make the following comments with regard to BWR's recent share price performance:

- (a) On 26 August 2019, BWR released its annual report to unitholders for FY19 and announced that the Trust had \$317m in assets and gearing of 18%, with its current portfolio consisting of 11 properties. In addition, BWR announced that it would pay a final distribution of 3.5 cents per unit (100% tax deferred) on 8 October 2019.
- (b) On 23 October 2019, BWR announced that the Trust would conduct an on-market buy-back of up to 10% of units on issue over the next 12 months (expiring 23 October 2020), totalling a maximum of 14,851,605 units.
- (c) On 20 February 2020, BWR released results for the half-year ended 31 December 2019 ("HY20"). BWR disclosed \$354 million in assets and gearing of 20%. BWR also reported that net tangible assets per unit had grown to \$1.56 (30 June 19: \$1.48). In addition, BWR announced that it would pay a distribution of 3.5 cents per unit on 13 March 2020.
- (d) On 30 March 2020, BWR released a COVID-19 impact update. The Trust announced that it would provide rent abatements for all small businesses where economic survival was at risk and offer rent deferrals to those tenants needing cash flow support. Accordingly, BWR advised the 10 coffee shops and restaurants in their portfolio that no rent would be payable for April. In addition, BWR announced that the Trust had arranged and drawn an additional debt facility for the BWR group which would result in \$22m cash on

hand and would continue to retain significant capacity to expand with gearing at 24% (up from 20% at 31 December 2019).

- (e) On 12 June 2020, the S&P Dow Jones Indices announced the changes in the S&P/ASX indices, effective at the open of trading on 22 June 2020. BWR was included as an addition to the All Ordinaries Index.
- (f) On 24 July 2020, BWR announced the proposed acquisition of the WOTSO WorkSpace business and certain real estate assets held by Pelorus in relation to the proposed Scheme.
- (g) On 26 August 2020, BWR released its results for FY20 and also announced that despite the negative impact of the COVID-19 pandemic, BWR would maintain its final distribution at 3.5 cents per unit. BWR disclosed gross assets of \$346 million and \$1.47 of net tangible assets per unit.
- (h) On 20 October 2020, BWR announced a change to the on-market buy-back announced on 23 October 2019, extending the expiry date of the on-market buy-back to 23 October 2021 to maintain flexibility in relation to capital management options. No changes were made to the terms of the on-market buy-back other than the extension of the expiry date. As set out in section 3.3(d)(ii) of the Scheme Booklet, BWR has so far bought back 6,366,055 units. Although the buy-back is due to expire on 23 October 2021, the buy-back has been paused to facilitate the Scheme. The buy-back will lapse if the Scheme is implemented. At the date of this Report, the Stapled Group does not intend to conduct a buy-back in relation to Stapled Securities. The Stapled Group will revisit the appropriateness of any buy-back of Stapled Securities if the Stapled Group becomes operational.

7. Profile of Planloc Limited

Overview

- 7.1 Planloc is a wholly owned subsidiary of Pelorus. Pelorus is an unlisted public company that, in addition to its investment in Planloc, holds a significant investment in BWR and periodically invests in small start-up businesses. At the date of this Report, Pelorus also holds an 8% interest in WOTSO.
- 7.2 Planloc has two primary assets as set out in further detail below.

Penrith, NSW (100% interest)

- 7.3 This retail mixed use property is located at 120 Mulgoa Road. Tenants include Barbeques Galore, Boating Camping Fishing, Rashay's Restaurant and a Bliss Early Learning Centre. Tru Ninja and Factory Plus have recently taken the majority of the space previously occupied by Toys R Us leaving a small 300m² vacancy.

Villawood, NSW (49% interest)

- 7.4 This property located at 850 Woodville Road is an entertainment precinct in Sydney's west covering net lettable area of 9,400m². The property is occupied by eight tenants including Zone Bowling, Flip Out and Sydney Indoor Climbing Gym. At the date of this Report, BWR and Planloc hold a 46% and 49% interest in the Villawood property, respectively.

Operations

- 7.5 Planloc holds and operates the two assets at Penrith and Villawood discussed above. Planloc does not have any operations outside of these assets.
- 7.6 Planloc has a \$10m debt facility with Commonwealth Bank (CBA) secured against the Penrith property. The facility expires in December 2022. The remainder of its debt is held by BWR.

8. Valuation Approach

Valuation methodologies

- 8.1 In assessing the Fair Value of an ordinary WOTSO share on a control basis, we have considered a range of valuation methodologies. RG 111 proposes that it is generally appropriate for an expert to consider using the following methodologies:
- the discounted cash flow (“DCF”) method and the estimated realisable value of any surplus assets;
 - the application of earnings multiples to the estimated future maintainable earnings or cash flows added to the estimated realisable value of any surplus assets;
 - the amount which would be available for distribution on an orderly realisation of assets;
 - the quoted price for listed securities; and
 - any recent genuine offers received.
- 8.2 We consider that the valuation methodologies proposed by RG 111 can be split into three valuation methodology categories, as follows.

Market Based Methods

- 8.3 Market based methods estimate Fair Value by considering the market value of a company’s securities or the market value of comparable companies. Market based methods include:
- the quoted price for listed securities; and
 - industry specific methods.
- 8.4 The recent quoted price for listed securities method provides evidence of the Fair Value of a company’s securities where they are publicly traded in an informed and liquid market.
- 8.5 Industry specific methods usually involve the use of industry rules of thumb to estimate the Fair Value of a company and its securities. Generally, rules of thumb provide less persuasive evidence of the Fair Value of a company than other market based valuation methods because they may not account for company specific risks and factors.

Income Based Methods

- 8.6 Income based methods estimate value by calculating the present value of a company’s estimated future stream of earnings or cash flows. Income based methods include:
- discounted cash flow methods; and
 - capitalisation of future maintainable earnings.
- 8.7 The DCF technique has a strong theoretical basis, valuing a business on the net present value of its future cash flows. It requires an analysis of future cash flows, the capital structure and costs of capital and an assessment of the residual value or the terminal value of the company’s cash flows at the end of the forecast period. This method of valuation is appropriate when valuing companies where future cash flow projections can be made with a reasonable degree of confidence.

-
- 8.8 The capitalisation of maintainable earnings methodology estimates the Fair Value of a business as being the product of a company's Future Maintainable Earnings ("FME") multiplied by an appropriate earnings multiple. The methodology is commonly applied where earnings are stable and a FME stream can be established with a degree of confidence. Capitalisation multiples can be applied to either estimates of future maintainable operating cash flows, EBITDA, EBIT or net profit after tax. The earnings from any non-trading surplus assets are excluded from the estimate of FME and the value of such assets is separately added to the value of the business in order to derive the total value of the company. The appropriate multiple to be applied is usually derived from an analysis of stock market trading multiples of comparable companies (which do not include a control premium) and the implied multiples paid in comparable transactions (which include a control premium).

Asset Based methods

- 8.9 Asset based methodologies estimate the Fair Value of a company's securities based on the realisable value of its identifiable net assets. Asset based methods include:
- orderly realisation of assets method;
 - liquidation of assets method; and
 - net assets on a going concern basis.
- 8.10 The value achievable in an orderly realisation of assets is estimated by determining the net realisable value of the assets of a company which would be distributed to security holders after payment of all liabilities, including realisation costs and taxation charges that arise, assuming the company is wound up in an orderly manner. This technique is particularly appropriate for businesses with relatively high asset values compared to earnings and cash flows.
- 8.11 The liquidation of assets method is similar to the orderly realisation of assets method except the liquidation method assumes that the assets are sold in a shorter time frame, reflecting a distressed liquidation value. The liquidation of assets method will result in a value that is lower than the orderly realisation of assets method, and is appropriate for companies in financial distress or when a company is not valued on a going concern basis.
- 8.12 The net assets on a going concern method estimates the market values of the net assets of a company but unlike the orderly realisation of assets method it does not take into account realisation costs. Asset based methods are appropriate when companies are not profitable, a significant proportion of the company's assets are liquid, or for asset holding companies.

Selection of Valuation Methodologies

Valuation of a WOTSO Share prior to the Scheme

Discounted cash flow methodology

- 8.13 In valuing a share in WOTSO prior to the Scheme we have utilised the DCF methodology as our primary valuation methodology.
- 8.14 WOTSO currently operates 16 flexible workspaces across Australia, and 1 in Malaysia (under the UEM Joint Venture). The workspaces have reached varying rates of occupancy levels due to the combination of the adverse impact of the COVID-19 pandemic on operations and the opening of three new workspaces during FY20.
- 8.15 Consequently, to take into account the impact of COVID-19, the opening of the new sites at Manly (NSW), Zetland (NSW) and Woden (ACT) and expansion plans for a number of other workspaces, we have utilised the DCF methodology to value WOTSO.
- 8.16 WOTSO has prepared financial projections for each of the workspaces in Australia for the five years ending 31 December 2025 (comprising the calendar years ("CY") CY21, CY22, CY23, CY24 and CY25).

-
- 8.17 As a cross-check to our primary valuation methodology, we have considered using the Capitalisation of FME methodology. The capitalisation of FME is an appropriate method if the earnings of the business are regular, maintainable, and sufficient to justify a value exceeding the value of the underlying assets.
- 8.18 We do not consider the Capitalisation of FME method to be appropriate in valuing WOTSO for the following reasons:
- WOTSO has recently undergone a change in its business operations, moving away from operating coworking spaces under franchise agreements to having separate lease agreements with lessors;
 - WOTSO is currently in an expansion phase of its operations, having commenced the operations of three new sites during FY20 as well as the majority of its sites have yet to reach mature occupancy levels; and
 - the impact of the COVID-19 pandemic resulted in abnormally low occupancy rates, resulting in operating losses disclosed for FY20 and to the date of this Report.

Valuation of the Consideration offered per WOTSO Share immediately after the Scheme

Valuation of the Stapled Group

- 8.19 To assess the fairness of the Scheme, we have estimated the value of a share of the Stapled Group immediately after the implementation of the Scheme. The value of the Stapled Group is based on the combined Fair Values of WOTSO, BWR and Planloc immediately following the Scheme, and adjusted for a minority interest (non-controlling interest) discount to reflect the fact that approval of the Scheme will result in the unitholders of BWR acquiring an 87% interest in WOTSO.

Valuation of BWR and Planloc

- 8.20 In order to assess the Fair Value of the Stapled Group immediately following the Scheme, it is necessary to assess the Fair Value of a 100% equity interest in BWR and Planloc.
- 8.21 m3property Pty Ltd (“m3property”) has prepared independent property valuation reports of properties held by BWR and Planloc. For the purposes of this Report, we have relied upon the Market Value of the properties provided by m3property in our assessment of the Fair Value of BWR and Planloc. Copies of m3property’s reports are set out in Appendix H.
- 8.22 We have selected the net assets on a going concern basis in our valuation of BWR and have based our assessment on the carrying value of assets and liabilities as set out in BWR’s audited consolidated statement of financial position as at 30 June 2020, and the Market Values of the property investment portfolio held by BWR as set out in Appendix H. Based on our review, we consider the other assets and liabilities disclosed on BWR’s consolidated statement of financial position at 30 June 2020 (with the exception of the property investment portfolio), to be reflective of Fair Value
- 8.23 Prices at which a company’s shares have been traded on the ASX can, in the absence of low liquidity or unusual circumstances, provide an objective measure of the value of the company, excluding a premium for control.
- 8.24 As a cross-check, we have also had regard to the quoted market price of BWR’s units prior to the announcement of the Scheme.
- 8.25 We have selected the net assets on a going concern basis in our valuation of Planloc and have based our assessment on the pro forma carrying value of assets and liabilities disclosed on the pro forma statement of financial position of Planloc provided by Planloc management, and the Market Values of the properties held by Planloc assessed by m3property, as set out in Appendix H. Based on our review, we consider the other assets and liabilities disclosed on Planloc’s pro forma statement of financial position (with the exception of the property investments), to be reflective of Fair Value.

9. Valuation of WOTSO

9.1 As set out in Section 8, we have assessed the value of WOTSO prior to the Scheme using the DCF methodology as our primary methodology.

Primary valuation methodology – Discounted Cash Flow

9.2 We have assessed the value of a 100% equity interest in WOTSO, prior to the Scheme, on a control basis to be in the range of \$27.2m to \$28.5m, with a preferred value of \$27.85m, utilising the DCF methodology, as summarised in the table below.

WOTSO Limited	Low \$'000	High \$'000	Preferred \$'000
Enterprise Value - NPV of future cash flows	31,900	33,200	32,550
Less: Net Debt (rounded)	(4,700)	(4,700)	(4,700)
Equity Value (100% interest)	27,200	28,500	27,850

Source: RSM analysis

Table 10: Assessed Fair Value of a 100% Equity Interest in WOTSO

Discounted cash flow analysis

- 9.3 The DCF analysis has been based on a 5-year forecast cash flow projection, utilising Management's 5-year forecast financial performance as a base. The DCF analysis projects nominal after tax cash flows to 31 December 2025, when the lease sites are all expected to have reached consistent and mature levels of occupancy. A terminal value is then applied, calculated by capitalising net after tax cash flows based on the Gordon Growth formula and an assumed terminal growth rate of 2.0% to represent the value of cash flows into perpetuity.
- 9.4 Consistent with Management's 5-year forecast, the DCF analysis has been prepared without factoring in the impact of the adoption of AASB 16 by WOTSO, with effect from 1 July 2019 and, as a consequence:
- operating lease payments have been treated as operating cash flows (under AASB 16 these payments are treated as financing cash flows being the repayment of lease liabilities and associated interest);
 - right of use lease liabilities as disclosed in Table 4 have not been included within our calculation of net debt; and
 - our weighted average cost of capital ("WACC") assessment has not factored in the right of use lease liabilities in either our assessment of the cost of debt or the optimal debt gearing ratio.
- 9.5 Had our DCF analysis been prepared factoring in the impact of AASB 16, we would have assessed the 100% Equity Value of WOTSO at the same valuation range, however:
- the assessed net debt would have been higher as it would have included right of use lease liabilities as disclosed in Table 4 and there would have been an offsetting increase in the assessed Enterprise Value; and
 - the assessed WACC of WOTSO would have been lower to incorporate the higher proportion of debt related to the right of use lease liabilities and the lower cost of that debt, compared to the required return on equity.
- 9.6 Ungearing, after tax cash flows are discounted by a WACC in the range of 18.0% to 20.0% (refer to Appendix G).
- 9.7 A corporate tax rate of 26% (FY21) and 25%, thereafter has been utilised based on the for the legislated corporate tax rates for companies with an aggregated turnover of less than \$50m. Corporate tax cash outflows take into account estimated tax losses of \$6.5m as at the date of this Report.

9.8 The DCF analysis incorporates the following key assumptions:

Revenue per desk

9.9 Revenue per desk has been forecast based on the following key assumptions:

- Revenue per desk rate has been forecast based on current desk rates, having regard to each site's desk rates in February 2020 (pre COVID-19 conditions) and as at September 2020 (reflecting the gradual recovery as movement restrictions have eased);
- Initial occupancy levels have been forecast based on each site's expectation to gradually return to February 2020 occupancy levels on a site by site basis;
- Thereafter, occupancy rates are forecast to reach maturity occupancy rates of 85% based on site historical trends and Management's expectations on a specific site by site basis;
- Office expansion plans to increase the number of desks available in a number of sites have been assessed on a site specific basis. This expansion is expected to be funded from forecast operating cash flows, with expansion expenditure estimated at \$800 per sqm based on existing average costs; and
- Services revenue is expected to remain flat at \$60/desk per month based on current revenue levels.

Expenses

- 9.10 Staffing costs have been forecast based on existing staffing levels, increasing in line with forecast increases in occupancy levels and/or increase in the number of available desks.
- 9.11 Occupancy costs have been forecast based on the applicable lease terms for each site and any agreed COVID-19 rent abatement arrangements in place. Leases are expected to be renewed for each site, as required.
- 9.12 Direct costs and general overheads are relatively fixed costs and have been forecast based on current levels of expenditure incurred.

Adjustments for working capital

- 9.13 WOTSO disclosed negative working capital levels at 30 June 2020 due primarily to high levels of current trade and other payables totalling \$1.6m at 30 June 2020 which was attributed to higher levels of fit out costs incurred during FY20. Adjustments for additional working capital have been made over the 8 months ending 31 August 2021 to adjust for higher levels of working capital required. Thereafter, the Company is assumed to be working capital neutral over the remainder of the forecast period.
- 9.14 Lease incentive offset assets recognised have been factored into the DCF calculation.

NPV Conclusion

- 9.15 Based on the above DCF analysis the NPV of the forecast cash flows have been assessed at \$31.9m to \$33.2m, with a preferred value of \$32.6m.

Net debt adjustment

- 9.16 At 31 October 2020, the Company disclosed net debt of \$4.7m (rounded), calculated as cash and cash equivalents of \$184k, less related party borrowings of \$2.4m, COVID-19 deferred lease payments of \$830k, COVID-19 related deferred revenue of \$243k and make good provisions of \$1.4m.
- 9.17 Accordingly, we have deducted net debt from the Enterprise Value of WOTSO in our assessment of the Fair Value of a 100% equity interest in WOTSO.

Surplus assets

9.18 Based on our review of the audited financial statements of WOTSO, we consider that there were no assets surplus to the Company's operations.

Valuation summary and conclusion

9.19 A summary of our assessed Fair Value of a WOTSO share on a control basis prior to the Scheme is set out in the table below.

Table 11: Assessed Fair Value of a WOTSO share prior to the Scheme (control basis)

9.20 We consider the Fair Value of a WOTSO share on a controlling basis is in the range of \$0.34 to \$0.35, with a preferred Fair Value of \$0.34, which has been derived using the DCF methodology. This valuation is an assessment of the Fair Value of a WOTSO share prior to the share consolidation under the terms of the Scheme, which has been considered in our assessment of fairness in paragraphs 13.3 to 13.4.

10. Valuation of BWR

10.1 As set out in Section 8, we have assessed the Fair Value of BWR on the basis of the Fair Value of its underlying assets and have also considered the recent quoted price of its listed securities as a secondary methodology.

Net assets on a going concern basis

10.2 In order to determine the Fair Value of BWR, we have utilised the net assets on a going concern methodology based on our assessment on the carrying value of the assets and liabilities set out in BWR's audited consolidated statement of financial position at 30 June 2020. We have adjusted the statement of financial position for the Market Values of its property investment portfolio as valued by m3property as set out below.

10.3 As set out above, the assessment of the Fair Value of BWR is based on the audited statement of financial position of BWR as at 30 June 2020. Based on our review, we consider the other assets and liabilities (other than the property investments) to be reflective of Fair Value.

10.4 The table below sets out a summary of the adjustments made in relation to the Market Value of BWR's property investment portfolio.

Table 13: Adjustments made for the Market Value of BWR's property investment portfolio

- 10.5 M3property has assessed the Market Value of each of the properties set out above. Executive summaries from each of these independent valuations are included in Appendix H. In accordance with RG 111.102, to avoid the inclusion of extraneous information, and to ensure that our report is clear and concise, we have not included full copies of each of these independent valuations in the Report. However, should Shareholders require a full copy of m3property's independent valuations, these can be obtained from the Company on request, free of charge.
- 10.6 The Scheme has been structured based on an expected net tangible asset position of BWR at 28 February 2020 of \$206.1m which is based upon assumptions in relation to expected half year distributions and income and expenditure to February 2021. Based on the net tangible asset position of BWR at 31 October 2020, we have included the payment of a pro forma distribution of \$2.7m such that, all things being equal, the net tangible asset position of BWR is reduced to the target net tangible asset position of \$206.1m.
- 10.7 Based on the above and as set out in Table 12, we have assessed the Fair Value of BWR to be \$206.1m and the Fair Value of a BWR unit prior to the Scheme to be \$1.45.
- 10.8 The net assets on a going concern basis represents the value of a controlling shareholding. Accordingly, we consider the value generated under the net assets on a going concern basis to incorporate a premium for control and no further premium is considered necessary to assess the value of BWR prior to the Scheme.

Quoted Price of Listed Securities

- 10.9 In order to provide a cross-check to the valuation of a BWR unit under the net assets on a going concern basis, we have also assessed the Fair Value based on the quoted market price.
- 10.10 The assessment only reflects trading prior to the announcement of the Scheme in order to avoid the influence of any movement in price that occurred as a result of the announcement.

Analysis of recent trading in BWR units

10.11 We have considered the volume weighted average price (VWAP) over the number of number of trading day periods prior to 24 July 2020. An analysis of the volume in trading in BWR units for the 5, 10, 30, 60, 90, 120 and 180-day trading periods is set out in the table below.

Calendar days	Unit price Low \$	Unit price High \$	No. of days traded	Volume traded	Value traded \$	VWAP \$	Percentage of issued capital %

Table 14: VWAP and traded volume of BWR units prior to 24 July 2020

10.12 As set out in the table above, the VWAP of BWR's units ranged from \$1.242 to \$1.394 over the 180 calendar days prior to 24 July 2020.

10.13 RG 111.69 indicates that for the quoted market share price methodology to represent a reliable indicator of Market Value, there needs to be an active and liquid market for the securities. The following characteristics may be considered to be representative of a liquid and active market:

- regular trading in the company's securities;
- approximately 1% of a company's securities traded on a weekly basis;
- the bid/ask spread of a company's traded securities must not be so great that a single majority trade can significantly affect the market capitalisation of the company; and
- there are no significant but unexplained movements in the share price.

10.14 Units were traded for 106 days over the 180 calendar day period and comprised 4.2% of the weighted units outstanding over the period.

10.15 Notwithstanding the low liquidity of BWR's units traded, the Trust complies with the full disclosure regime required by the ASX. As a result, the market is fully informed about the performance of BWR.

10.16 Based on the analysis of recent trading, we have assessed the value of a BWR unit on a minority interest basis, to be \$1.30 to \$1.35, being relatively consistent with the 60 to 90-day VWAP of a unit in BWR prior to the announcement of the proposed Scheme.

10.17 The value above is indicative of the value of a marketable parcel of securities assuming a holder does not have control of BWR. To provide a consistent comparison of our assessment of the Fair Value of a BWR unit using the net assets on a going concern methodology, we should include a premium for control.

Premium for control

10.18 Obtaining control of an entity usually provides the acquirer with a number of advantages including the following:

- access to potential synergies;
- control over decision making and strategic direction;
- access to underlying cash flows; and
- control over dividend policies.

10.19 In the case of publicly traded securities, given the advantages control of an entity provides an acquirer, they are usually expected to pay a premium to the quoted market price to achieve control, which is often referred to as a control premium. A control premium is the amount or a percentage by which the pro rata value of a controlling interest exceeds the pro rata value of a non-controlling interest in a business enterprise, to reflect the premium a buyer will pay to acquire control in a business enterprise. Consequently, earnings multiples for listed companies do not reflect the market value of a controlling interest in the company as they are derived from market prices which usually represent the buying and selling of non-controlling portfolio holdings (small parcels of shares/securities).

10.20 RSM has undertaken a survey of control premiums paid over a 5-year period to 30 June 2016 in 463 successful takeovers and schemes of arrangements of companies listed on the ASX ("RSM Control Premium Study 2017"). The findings are summarised in the table below, showing the average control premiums paid 20, 5 and 2 days prior to announcement of a transaction, which are applied at the equity level.

	Number of transactions	20 days pre	5 days pre	2 days pre
Average control premium - all industries	463	34.5%	28.3%	26.4%
Average control premium - Real Estate	30	16.9%	15.6%	14.2%

Source: RSM Control Premium Study 2017

Table 15: RSM Control premium study

10.21 Based on the above, we consider that a control premium of 15% to 16% is appropriate in assessing the value of a BWR unit on a controlling basis.

Pro Forma distribution

10.22 As set out in paragraph 10.6, the Scheme has been structured based on an expected net tangible asset position of BWR at 28 February 2020 of \$206.1m which is based upon assumptions in relation to expected half year distributions and income and expenditure to February 2021. Based on the net tangible asset position of BWR at 31 October 2020, a pro forma distribution of \$2.7m would be required to reduce the net tangible asset position of BWR to the target net tangible asset position of \$206.1m. This equates to a distribution of \$0.02 per unit that we have, therefore, factored into our quoted market price analysis.

10.23 The table below sets out our assessment of the value of a BWR unit on a controlling basis and non-controlling basis utilising the quoted price of listed securities methodology.

Table 17: Assessed Fair Value of a BWR unit prior to the Scheme (control basis)

10.25 We note the following with regards to BWR's recent trading history:

- as set out in Table 14 above, only 4.2% of the weighted average outstanding units issued were traded in the 180 days prior to the announcement of the Scheme;
- the bid/ask spread is often used to measure efficiency. For the 180-day period prior to 24 July 2020, the closing bid/ask spread of BWR averaged 3.0% of the midpoint price. On the basis that, over a comparable time period, all stocks trading on the ASX had an average bid/ask spread of 0.250%¹, we consider the bid/ask spread of BWR to be relatively large; and
- BWR commenced an on-market buy-back in October 2019 for capital management purposes. The ongoing buy-back may be distorting the Trust's traded price.

10.26 Based on the above, we have relied upon the net assets on a going concern methodology as we consider that that the trading market for BWR's units is not sufficiently liquid and therefore, its price may not be a reliable indicator of value as the market for the units may not be fully efficient.

10.27 We have, therefore, assessed the Fair Value of a BWR unit on a control basis prior to the Scheme utilising the net assets on a going concern basis, to be \$1.45.

10.28 Notwithstanding the low liquidity of BWR's units traded, we consider the value obtained under the quoted price of listed securities to be supportive of our primary methodology.

11. Valuation of Planloc

- 11.1 As set out in Section 8, we have also selected the net assets on a going concern basis in our valuation of Planloc and based our assessment on the pro forma carrying value of assets and liabilities provided by Planloc management in its statement of financial position, and the Market Values of the properties held by Planloc as set out in Appendix H. Based on our review, we consider the other assets and liabilities disclosed on Planloc's pro forma statement of financial position (with the exception of the property investments), to be reflective of Fair Value.
- 11.2 As set out in Section 7, Planloc holds and operates the two assets at Penrith (100% interest) and Villawood (49% interest).
- 11.3 Planloc has a \$10m debt facility with Commonwealth Bank (CBA) secured against the Penrith property. The facility expires in December 2022. The remainder of its debt is held by BWR.
- 11.4 Planloc owns approximately 49% of the WRV Unit Trust, which owns the Villawood property. BWR is the other substantial holder in the WRV Unit Trust, holding a 46% interest. The remaining 5% interest is held by six third-party investors who are unrelated to Planloc, BWR or WOTSO.
- 11.5 The table below sets out our assessment of the Fair Value of Planloc prior to the Scheme (on a control basis).

Table 18: Assessed Fair Value of Planloc prior to the Scheme (control basis)

- 11.6 The assessment of the Fair Value of Planloc prior to the Scheme is based on the unaudited pro-forma statement of financial position of Planloc prepared by Planloc management which represents the expected statement of financial position based on actual balances, adjusted for the Market Value of the Penrith property of \$21.5m assessed by m3property (refer Appendix H), and the expected movements in cash and borrowings at the date of this Report.

11.7 The carrying value of Planloc's investment in the WRV Unit Trust (Villawood property) of \$4.0m is disclosed at Planloc's equity interest at the date of this Report, based on the audited statement of financial position at 30 June 2020, adjusted for the Market Value of the Villawood property of \$22.0m assessed by m3Property (refer Appendix H), and other non-material adjustments the audited statement of financial position of the WRV Unit Trust as at 30 June 2020 to the date of this Report.

11.8 Based on the above, our assessed Fair Value of Planloc prior to the Scheme is \$nil.

12. Valuation of the Stapled Group

Valuation of the Scheme Consideration (control basis)

12.1 As required by RG 111, in order to provide an indication of the value to WOTSO Shareholders immediately after the Scheme, we have calculated the theoretical value of WOTSO, BWR and Planloc immediately after the implementation of the Scheme (the Stapled Group).

12.2 To assess the fairness of the Scheme, we have estimated the value of a share of the Stapled Group immediately after the implementation of the Scheme. The value of the Stapled Group is based on the combined Fair Values of WOTSO, BWR and Planloc immediately following the Scheme, and adjusted for a minority interest (non-controlling interest) discount to reflect the fact that approval of the Scheme will result in the unitholders of BWR acquiring an 87% interest in WOTSO.

12.3 The table below sets out our assessment of the value per share of the Stapled Group (on a control basis).

12.4 We consider the value of a Stapled Security (on a control basis), immediately after the Scheme to be in the range of \$1.43 to \$1.44, with a preferred value of \$1.44.

Valuation of the Scheme Consideration (minority interest basis)

12.5 The table below sets out our assessment of the Fair Value of a Stapled Security immediately after the Scheme on a minority interest basis (non-controlling basis), representing the value of the Scheme Consideration.

Source: RSM analysis

Table 20: Assessed Fair Value per Stapled Security immediately after the Scheme (non-controlling basis)

- 12.6 A discount to reflect a minority interest in an entity is the inverse of a control premium. As set out in paragraph 10.21, we assessed a suitable control premium for BWR to be in the range of 15% to 16%. Having regard to the value contribution of BWR to the Stapled Group, we have determined a control premium in the range of 15% to 16% to be appropriate, the inverse being in the range of 13.0% to 13.8% as presented in Table 20 above.
- 12.7 Based on the above, our assessed Fair Value of the Scheme Consideration offered per WOTSO share immediately after the Scheme (on a non-controlling basis) is in the range of \$1.23 to \$1.25, with a preferred value of \$1.24.

13. Is the Scheme Fair to Shareholders

- 13.1 ASIC RG 111 defines a takeover offer as being fair if the value of the consideration offered under the takeover offer or in this case, the Scheme, is equal to or greater than the value of the securities being the subject of the offer.
- 13.2 In assessing whether we consider the Scheme to be fair to Shareholders, we have valued a share in WOTSO prior the implementation of the Scheme, and compared it to the value of the consideration offered per WOTSO share immediately after the Scheme, to determine whether a Shareholder would be better or worse off should the Scheme be approved.
- 13.3 As set out in paragraph 4.1, under the terms of the Scheme, WOTSO will undertake a share consolidation of approximately 1 share for every 4 currently on issue (rounded), resulting in 20,691,412 shares on issue immediately after the share consolidation. The table below sets out our assessment of the Fair Value of a WOTSO share prior to the Scheme, adjusted for this consolidation ratio.

- 13.4 Based on the above, we have assessed the Fair Value of a WOTSO share prior to the Scheme (on a control and post consolidation basis), to be in the range of \$1.31 to \$1.38, with a preferred value of \$1.35.
- 13.5 Our assessment of fairness is summarised below.

Table 22: Assessed Fair Value of a WOTSO share prior to the Scheme and the Scheme Consideration

13.6 The above comparison is depicted graphically in the chart below.

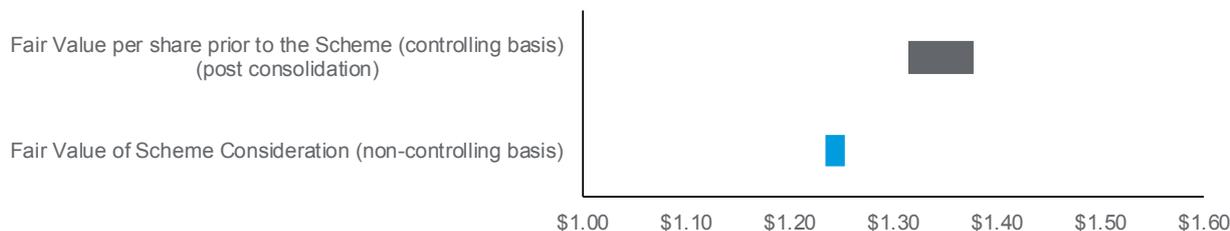

Chart 5: Assessed Fair Value of a WOTSO share prior to the Scheme and the Scheme Consideration

13.7 As the Fair Value of the Scheme Consideration (on a non-controlling basis) is less than the Fair Value of a WOTSO share prior to the Scheme (on a controlling basis), and in the absence of any other relevant information, in our opinion, the Scheme is **not fair** to Shareholders.

14. Consideration of other factors relating to the Scheme

14.1 RG 111 establishes that an offer is reasonable if it is fair. It might also be reasonable if, despite not being fair, there are sufficient reasons for security holders to accept the offer in the absence of a higher bid. We consider and outline in this Section of the Report an analysis of other factors which are likely to be relevant to Shareholders in their assessment of the Scheme.

Future Prospects of WOTSO if the Scheme is not approved

14.2 If the Scheme is not approved by Shareholders, WOTSO will continue in its existing operations. The Directors consider that WOTSO will need to find alternative sources of capital to fund its growth strategy. There is a risk that finding alternative sources of capital could limit the Company's growth potential in the short to medium term, and reduce the chance of dividends being paid in order to retain capital to reinvest in the business.

Advantages of approving the Scheme

14.3 The key advantages of the Scheme are:

- WOTSO Shareholders will hold BWR units and Planloc shares and this will have exposure to the benefits of investing in those entities;
- the Directors of WOTSO consider that the Stapled Group will facilitate WOTSO's growth strategy by providing operational efficiencies and alignment of interests with WOTSO's largest landlord, BWR;
- if the Scheme is approved, the Stapled Securities will be traded on the ASC, providing increased liquidity to Shareholders and hence a more efficient market for Shareholders to dispose of their shareholdings;
- WOTSO will have access to listed capital markets for future funding requirements as part of the Stapled Securities traded on the ASX;
- the Scheme will cement WOTSO's relationship with the Company's largest landlord (8 of WOTSO's 17 sites are operated from BWR owned properties); and
- whilst we have assessed the Scheme as a control transaction, we note that the preferred value of the Scheme Consideration on a control basis is \$1.44. Further, whilst entities associated with Joseph Glew will hold a circa 37% relevant interest in the Stapled Group, this may not preclude Shareholders from the opportunity to access a control premium in the future.

Disadvantages of approving the Scheme

14.4 The key disadvantages of the Scheme are:

- the Scheme is not fair;
- the dilution of existing WOTSO Shareholders' interests in the Company from 100% to 13%;
- the dilution of Shareholders' interests reduces the ability of existing shareholders to influence the strategic direction of WOTSO, including the acceptance or rejection of other takeover or merger proposals;
- upon completion of the Scheme, entities associated with Joseph Glew (which in total currently hold a 17.71% relevant interest in WOTSO), will hold a circa 37.5% relevant interest in the Stapled Group. Consequently, Joseph Glew will have a significant influence on the Stapled Group, and the ability to block compulsory acquisitions and special resolutions of the Stapled Group;
- the change in the nature and scale of activities of the Stapled Group may not fit the risk or investment profile of Shareholders; and
- Shareholders may consider that WOTSO will become less attractive to potential buyers due to the stapled nature of WOTSO shares requiring a potential acquirer to also acquire BWR units and Planloc shares.

Alternative proposals and likelihood of an alternative takeover offer

14.5 WOTSO has advised us that no formal alternative offers or approaches by potential acquirers have been received prior to the announcement of the Scheme on 24 July 2020.

14.6 The alternative to the Scheme is for Shareholders to vote against the Scheme in the hope that they can realise greater value from their investment in WOTSO either through maintaining WOTSO as an independent company or through the emergence of a superior proposal to the Scheme. Whilst there is no evidence to suggest that Shareholders would be better off under this alternative, it is possible that an alternative offer may emerge prior to the Scheme Meeting. However, since the announcement of the Scheme on 24 July 2020, we have been advised that no superior offers have been put forward at the date of this Report.

Conclusion

14.7 In the absence of any other relevant information and/or a superior proposal, RSM considers the Scheme to be **reasonable** to Shareholders. Whilst the Scheme Consideration (on a non-controlling basis) is less than the Fair Value of a WOTSO share prior to the Scheme (on a controlling basis), we consider that there are sufficient reasons for security holders to vote in favour of the Scheme in the absence of a higher offer and, as such, that the Scheme is in the best interests of Shareholders.

14.8 An individual shareholder's opinion in relation to the Scheme may be influenced by his or her individual circumstances. If in doubt, Shareholders should consult an independent advisor.

Yours faithfully

APPENDIX D – BWR INDUSTRY OVERVIEW

BWR primarily invests in industrial, retail and commercial Australian properties. The different trends in each property class are detailed below.

Industrial Property²

Industrial property performance has been strong over the five years to 2019-20, with revenue growing by an annualised 5.5% per annum, to \$16.2 billion. Rapid growth in online shopping has boosted demand for warehousing, transport and logistics facilities over the past five years. Major retail chains have adopted a bricks-and-clicks business model, integrating bricks-and-mortar operations with an online presence. Furthermore, several new retailing firms operate with only a warehouse distribution centre and no physical shopfront. As a result, retailers require increased storage space and distribution capabilities, which has boosted demand for industrial facilities.

Industry revenue is forecast to grow at an annualised 3.6% over the five years through 2024-25, to \$19.4 billion. The COVID-19 outbreak is not expected to significantly affect demand for industrial property. The improving domestic economy is projected to continue driving business investment in industrial property over the next five years as rising import and business inventory volumes boost demand. Furthermore, rental income is anticipated to grow over the period as continued growth in online shopping increases demand for industrial warehouses.

Retail Property³

Weak retail trade conditions have caused the industry to decline over the past five years. Consumer goods retailers have faced mounting competitive pressures from online retailers over the period, constraining demand for floorspace. This trend has decreased rental yields and increased vacancy rates over the period. Additionally, the COVID-19 pandemic is expected to severely limit industry operations over the two years through 2020-21. Industry profit has declined as tenants have either renegotiated rent or terminated lease agreements while trading conditions were limited. As a result, industry revenue has declined at an annualised 2.8% over the five years through 2020-21, to \$28.3 billion.

As COVID-19 restrictions are lifted and retail trade conditions improve, industry operations are forecast to gradually increase over the next five years. However, competitive pressures from online retailers are projected to continue to mount over the period, limiting industry expansion. Overall, industry revenue is forecast to rise at an annualised 3.6% over the five years through 2025-26, to \$33.9 billion.

Office Property⁴

Operating conditions in the industry have been volatile over the past five years. Industry revenue is expected to decline at an annualised 2.8% over the five years through 2020-21, to \$35.8 billion. The COVID-19 pandemic has sharply decreased rental income and demand for office property over the two years through 2020-21. Most office facilities have not been fully operational, causing tenants to either renegotiate rental payments or end lease agreements to save costs. Additionally, tenants have moved from premium-grade offices towards A-grade and B-grade offices due to rising rental costs. Furthermore, the popularity of hot desking and shared office spaces has reduced the amount of floorspace demanded over the period, constraining industry expansion.

As work from home and social distancing measures are lifted, industry revenue is forecast to grow at an annualised 3.2% over the five years through 2025-26, to \$41.9 billion. Rental yields are forecast to rebound to pre-COVID-19 levels over the period, as lease agreements are adjusted once businesses return to offices. However, a shift towards more flexible working arrangements is anticipated to reduce demand for office space.

³ IBISWorld Industry Report L6712b – Retail Property Operators in Australia, September 2020

⁴ IBISWorld Industry Report L6712a – Office Property Operators in Australia, August 2020

APPENDIX E – WOTSO INDUSTRY OVERVIEW

WOTSO is a provider of flexible space solutions for all business types, as well as open plan coworking environments, events, meeting rooms and other additional services. Therefore, WOTSO operates within the Office Property Operators industry.⁵ Refer to the industry's trends discussed at Appendix D.

Shared Office Spaces

Firms that provide shared office spaces have decreased the amount of floorspace required by tenants over past five years, which has constrained industry demand and revenue. The popularity and cost effectiveness of shared office spaces are likely to threaten industry expansion over the five years through 2025-26.

Tenants are aware of the costs and risks associated with leasing office premises. Demand for shorter leases is growing and more tenants are engaging advisers for new lease negotiations, rent reviews, planning accommodation requirements and disputes with landlords. Tenants will likely seek more flexible arrangements from lessors over the next five years. These demands are anticipated to create new types of office operators who provide temporary or shared office space for companies across different Australian cities.

APPENDIX G – WACC CALCULATION

The WACC represents the weighted rate of return required by providers of both debt and equity to compensate for the time value of money and the perceived risk of the associated cash flows. The discount rates required by providers of both debt and equity are weighted in proportion to the optimal proportions of debt and equity.

The WACC is calculated as follows:

$$\text{WACC} = [\text{Re} \times \text{E/V}] + [\text{Rd} \times (1 - \text{tc}) \times \text{D/V}]$$

Where:

WACC = post tax weighted average cost of capital

Re = required rate of return on equity capital

E = market value of equity capital

V = market value of debt and equity capital (D + E)

Rd = required rate of return on debt capital

D = market value of debt capital

tc = corporate tax rate

Required rate of Return on Equity Capital (Re)

The Capital Asset Pricing Model (CAPM) can be used to estimate the cost of equity, being the required rate of return or cost of equity of a business.

The CAPM determines the cost of equity by the following formula:

$$\text{Re} = \text{Rf} + \beta(\text{Rm} - \text{Rf}) + \alpha$$

The components of the formula are as follows:

Re = Required return on equity;

Rf = Risk free rate of return;

Rm = the expected return from a market portfolio;

β = Beta, a measure of the systematic risk of a stock; and

α = specific company risk premium.

Risk Free Rate (Rf)

The risk-free rate of return compensates investors for the time value of money.

The Commonwealth Government bond rate is widely used and is an accepted benchmark for the risk-free return. We have used the 10-year bond rate as this provides the best match against the timeframe of the cash flows being valued.

The 10-year Australian Government bond rate as at 1 November 2020 was 1.00% (Source: Reserve Bank of Australia). However, given the current historically low Government bond rates, we have observed yield on the 10-year Australian Government bond over a longer period.

Based on the average yield for the 5 years to 11 November 2020, we consider it reasonable to adopt a risk-free rate of 2.0% in the calculation of the WACC.

Market rate (R_m)

This represents the additional risk in holding the market portfolio of investments. The term (R_m–R_f) represents the additional return required, above the risk-free rate, to hold the market portfolio of investments. (R_m–R_f) is known as the Equity Market Risk Premium.

There are a number of studies around the Equity Market Risk Premium with, generally, most estimates falling within a range of 4% to 8%.

Using our professional judgement, we have assessed the Equity Market Risk Premium (R_m–R_f) for the Company to be 6.5%.

This is consistent with the standard premium applied by most valuation practitioners when assessing the Market Rate as at the Valuation Date.

Beta (β)

The beta coefficient measures the systematic risk of a company compared to the market as a whole. A beta of 1 indicates that the company's risk is comparable to that of the market. A beta greater than 1 represents higher than market risk and a beta below 1 represents lower than market risk.

In assessing beta, we have considered the betas for comparable companies (Column A). The equity betas are adjusted to remove the effect of company specific debt levels resulting in an ungeared beta (Column B). The ungeared betas are then "regeared" based upon an assessment of the average industry gearing ratio and the assessed optimal capital structure which is discussed in more detail below (Column C).

The table below sets out the equity beta analysis in relation to the comparable companies.

Company Name	Country	Market		Net Debt / Total Equity	(A)	(B)	(C)
		Cap \$m (i)	Notional Tax Rate		Unadjusted Beta (ii)	Ungeared Beta	Regeared Beta
Victory Offices Limited	Australia	31.1	26.0%	6.1%	0.66	0.64	0.79

(iii) Where Net Debt/Equity ratio is negative, the unadjusted beta is taken to equal the ungeared beta

(iv) For consistency with our DCF model, we have excluded lease liabilities related to the adoption of AASB 16 from the net debt of comparable companies

Table 23: Equity beta analysis

The comparable company descriptions are included in Appendix F.

As a result of the COVID-19 pandemic, In March 2020 the Australian equity market experienced a significant downturn in values, with just over 22% of total market value being lost in March 2020, following an 8% decline in February. The comparable companies selected were in a sector that was particularly impacted by this market downturn and, as a result, the 4-year historical beta to June 2020 were significantly skewed upwards. We consider this to be an outlier that is skewing the normal risks of companies within the real estate sector. We have, therefore, utilised comparable beta estimates published by Rozetta Institute Limited (where available) that utilises 4-year monthly estimates to June 2020, excluding the month of March 2020.

For the purposes of this valuation, we have adopted an equity beta (β) of 1.40.

Specific company risk and size premium (α)

In considering an appropriate WACC for WOTSO, we have considered the specific risks of the Company, which are not experienced by the listed comparable companies and are therefore not reflected in the reported betas or implied multiples derived from publicly available market data.

WOTSO is significantly smaller as compared to the comparable listed companies as at the Valuation Date.

We have considered the following specific risks:

- WOTSO's workspace sites have yet to reach mature level of occupancy and there is execution risk inherent in achieving the forecast level of occupancy growth rates; and
- the lower geographical diversification compared to a number of the listed comparable companies.

On the basis of the above, using our professional judgement, we have adopted a specific company risk factor of between 11% to 12% in our assessment of the WACC for WOTSO.

Required rate of return on debt (R_d)

The rate of return required by providers of debt includes a risk premium over and above the risk-free rate that reflects the debt risk that is specific to the business being valued. This risk effectively represents the risk of default on payments.

In assessing an appropriate debt premium, we have considered a number of factors including:

- the cost of debt for Australian companies similar to WOTSO; and
- the gearing levels adopted for the purposes of calculating the WACC.

We have adopted a risk premium of 150 to 200 basis points over the risk-free rate. Based on a risk-free rate of 2.0%, this equates to a pre-tax cost of debt of 3.5% to 4.0%. This is broadly consistent with the indicator lending rates for revolving credit loans as at November 2020.

Capital structure or Gearing Level (D/V)

The capital structure or gearing level adopted for the purposes of undertaking the valuation should generally reflect the level of debt that can be reasonably sustained by any company operating in a particular industry as opposed to the actual capital structure adopted by the business.

The optimal capital structure of a business is driven by two main considerations:

- the tax benefits of debt finance i.e. the deductibility of interest payments for the purposes of assessing corporate tax liabilities; and
- the financial risk to equity holders i.e. the risk of financial distress as a result of over-gearing.

In assessing the optimal capital structure of WOTSO, we have considered the following:

- the gearing levels of comparable companies as set out in Table 23; and
- the level of debt sustainable by the forecast earnings and cash flows of the Company.

For the purposes of this valuation we have assessed the optimal capital structure to be 20% debt and 80%equity.

Corporate tax rate (tc)

We have utilised the long-term Australian base corporate tax rate of 25% based on corporate tax rates of 26% for FY21 and 25%, thereafter based on current legislated corporate tax rates for entities with consolidated turnover below \$50m.

Assessment of WACC

Based on the assumptions set out above, we have assessed the WACC for WOTSO as set out in the table below.

WOTSO Limited Calculation of WACC	Low	High

Property Specific Assumptions

Verifiable Assumptions

- The major tenant, WOTSO Workspace Pty Ltd is a subsidiary of WOTSO Limited, a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are “arm length”. If this is not the case our valuation may be affected and should be returned to us for review.
-

The above property specific assumptions are provided in addition to the Critical Assumptions and Qualifications and Definitions and Disclaimers detailed within this report.

Market

Investment

- The estimated selling period is 4 to 6 months in the current investment environment.
- Likely buyer profile is private investors, investment syndicates, local and off shore listed and wholesale funds.
- Investment demand has moderated since March 2020 at which time the Covid-19 pandemic began to disrupt the Australian economy and property markets. Transaction volumes have reduced significantly with few offerings and prospective purchasers exercising heightened levels of caution. If offered to the market, we believe the property would meet with moderate to good demand. We recommend regular valuation updates are undertaken.

Tenant

- The property is leased to 9 commercial tenants.
- Two large areas on Level 1 are leased to Genius Learning Pty Ltd, as childcare facilities. These tenancies are subject to 20 year leases from January 2016.
- The largest tenant is Verizon, occupying 4,492 m² (31.4% of NLA) on Levels 4 and 5, with this lease expiring 30 November 2023. The tenancy is utilised as offices and a data centre with considerable data centre infrastructure installed.
- The tenancy profile is varied and includes a large child care facility, large areas of co-working space, general offices and a data centre component.
- Gross passing rents vary from \$477 to \$747/m² for the commercial tenancy areas. The average gross passing rent for the commercial tenancies is \$644/m² which is below the assessed average gross market rent (\$765/m²), indicating good prospects for passing income growth and rent reversions.
- The CBD and fringe markets experienced strong rental growth in 2018 and 2019, although demand has been weak since March 2020 when Covid-19 began to materially impact the Australian economy and real estate markets. Demand is likely to continue to be challenged until economic conditions stabilise.

Asset

- The building has been refurbished over recent years and generally presents in good order throughout.
- Floor plates are relatively large, averaging 2,273 m² (Levels 1 to 6).
- Levels 4 and 6 include external terraces.
- With three street frontages, the office floors have good natural light provisions and enjoy attractive views to the north and west across Blackwattle Bay, Anzac Bridge and the neighbouring district.
- Parking provisions are moderate for this location.
- The property is located in the CBD fringe suburb of Pyrmont, a location that has experienced increased occupier demand and commercial investment and development over recent years.
- The location is reasonably well serviced by public transport with regular light rail and bus services in close proximity.
- We have incorporated an annual capital expenditure allowance equivalent to \$15/m² (escalated annually at CPI) plus an average \$100/m² (escalated at CPI) refurbishment allowance at each lease expiry.

- The lease expiry is medium term at 4.13 years (income weighted).

- The adopted building outgoings represent \$150.47/m² which is considered reasonable for an office building of this size and nature.
- W & Co is currently receiving rent relief for business interruption caused by Covid-19, which is reviewed on a monthly basis.

Asset Management

Property Specific Assumptions

Verifiable Assumptions

- The major tenant, WOTSO Workspace Pty Ltd is a subsidiary of WOTSO Limited, a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are “arm length”. If this is not the case our valuation may be affected and should be returned to us for review.
 - The copy of the lease to WOTSO Workspace Pty Ltd provided to us, is a draft only and is not executed. At the date of inspection, WOTSO were in occupation of whole floor levels 3 to 6 and part floor 7 commercial tenancies. For the purpose of this valuation, we have assumed that the lease has been or will become duly executed and registered on title. If this is not the case our valuation may be affected and should be returned to us for review.
-

The above property specific assumptions are provided in addition to the Critical Assumptions and Qualifications and Definitions and Disclaimers detailed within this report.

Market

Investment

- Investment demand has moderated since July 2020 at which time the Covid-19 pandemic began to disrupt the Australian economy and property markets. Transaction volumes have reduced significantly with few offerings and prospective purchasers exercising heightened levels of caution. If offered to the market, we believe the property would meet with moderate to good demand.
- The expected selling period is four to six months under current market conditions.
- The likely buyer profile would include private investors, investment syndicates and boutique investment funds.

Tenant

- The property is 66.4% leased to six tenants with a short-term lease expiry.
- Leasing demand in Canberra generally has been positive, although demand has been weak since March 2020 when Covid-19 began to materially impact the Australian economy and real estate markets. Demand is likely to continue to be challenged until economic conditions stabilise.
- The passing rent is on average, below market.
- Leasing demand in this location is largely driven by Federal and Territory government departments with some accompanying corporate demand.
- We have adopted gross market rents for the office space (ground floor to Level 7) ranging between \$350 to \$410/m², based on assumed gross incentives of 26%.

Asset

- The building provides medium standard office accommodation with very good natural light provisions and good district views.
- The building does not have a NABERS rating.
- Car parking is provided at a ratio of 2.02 spaces per 100m², which is an adequate provision for this market.
- We have been advised by BlackWall that there are minor outstanding capital expenditure works to be completed for F45 Pty Ltd tenancy fit-out totalling \$5,000. We have included this allowance in our valuation as well as refurbishment allowances for the office space equivalent to between \$50 and \$300/m² at the end of each of the existing leases, together with an annual capital expenditure allowance of \$20/m², escalated at CPI. We have made further allowances to refurbish the existing vacant tenancies of between \$300 and \$450/m².

Cash Flow Profile

- The tenancy profile is regarded as medium to good calibre.
- The lease expiry is short term at 1.98 years (income weighted).
- The adopted building outgoings represent \$92.90/m² which is considered reasonable for an office building of this size and nature.
- There are no outstanding lease incentives.

Asset Management

- The property presents well and appears well managed.

Critical Conditions

- In regard to Tenancy 5, we have been provided with email correspondence between both parties on acceptance of a new five-year lease from March 2020, however we have not sighted any signed documentation. Our valuation has been undertaken on the basis that a new lease is fully executed by both parties and is legally binding. We recommend that the reliant party sight a copy of the signed lease and if the details from what has been relied upon, the report should be returned for further comment.
- In regard to Tenancy 7, we note that the lease is due to expire in March 2021 and we have been provided with correspondence from the lessee varying the lease for an extended term of five years. The letter states that there will be no market review on 6 March 2021 and that from 6 March 2022 the annual reviews will be varied to annual CPI reviews. We have been supplied with a copy of the letter dated 13 August 2020 from the tenant exercising their option. We recommend that the reliant party sight a copy of the lease amendment and if the details differ from what has been relied upon, the report should be returned for further comment.
- In regard to Tenancy 8 we have been advised by the owner that the tenant has exercised their option from 2021, however we have been provided with an unsigned amendment of lease document. Our valuation has been undertaken on the basis that the lease amendment is fully executed by both parties and is legally binding. We recommend that the reliant party sight a copy of the signed lease and if the details from what has been relied upon, the report should be returned for further comment.
- We note that the Tenancy 1 is leased to WOTSO Sippy Downs Pty Ltd, is a subsidiary of WOTSO Limited, a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are at arm's length. If this is not the case our valuation may be affected and should be returned to us for review.

Comments

- Due to the current economic conditions as a result of COVID-19, we have reduced the tenant retention factor to 50% for the first three years of the cash flow period. We have also adopted an increased letting up period in Years 1 and 2, reverting back to nine-12 months in Year 3 onwards. We have also adopted a three-year horizon for capital adjustments as part of our capitalisation approach.

Property Specific Assumptions

Verifiable Assumptions

- We were advised at instruction that terms have been agreed for the gym tenancy to expand into the area currently occupied by Parramatta Glass, once the lease is terminated. However, the lease is yet to be signed, and for the purposes of this valuation, we have adopted the current occupancy arrangements only.
 - Various relief has been offered to all of the tenants at the centre at various times since the pandemic began in March 2020, and trading conditions softened. We understand that rent relief arrangements have now concluded and we are not aware of any other outstanding rent relief arrangements. If there are other relief arrangements of which we are not aware, we reserve the right to review and amend this valuation.
-

The above property specific assumptions are provided in addition to the Critical Assumptions and Qualifications and Definitions and Disclaimers detailed within this report.

Market

Investment

- The property should demonstrate reasonable demand if offered to the market at the current time.
- The estimated selling period is three to six months in the current investment environment.
- Likely buyer profile is private investors, investment syndicates and smaller investment funds.
- The market has experienced high levels of market uncertainty during the COVID-19 pandemic. Properties with strong lease profiles and good covenants have largely remained desirable, although retail in general has faced significant challenges.

Tenant

- Leasing demand for large format retail properties in western Sydney and neighbouring markets is currently subdued as a result of the COVID-19 pandemic.
- The property is leased to several tenants with a WALE of 4.74 years (by area).
- The passing rent is considered to be at market levels.
- We were advised at instruction that terms have been agreed for the gym tenancy to expand into the area currently occupied by Parramatta Glass, once the lease is terminated. However, the lease is yet to be signed, and for the purposes of this valuation, we have adopted the current occupancy arrangements only.

Asset

- The building is modern and generally presents in good order.
- The building is a modern style large format retail centre with an entertainment focused tenancy mix. It has been designed and constructed to a reasonable standard, and provides functional large format retail accommodation, commensurate with the requirements of the current tenants.
- On site car parking is provided for approximately 303 vehicles, which is considered to be adequate for the current use.
- We have incorporated an annual capital expenditure allowance equivalent to 2.5% of the base rent each year.

Cash Flow Profile

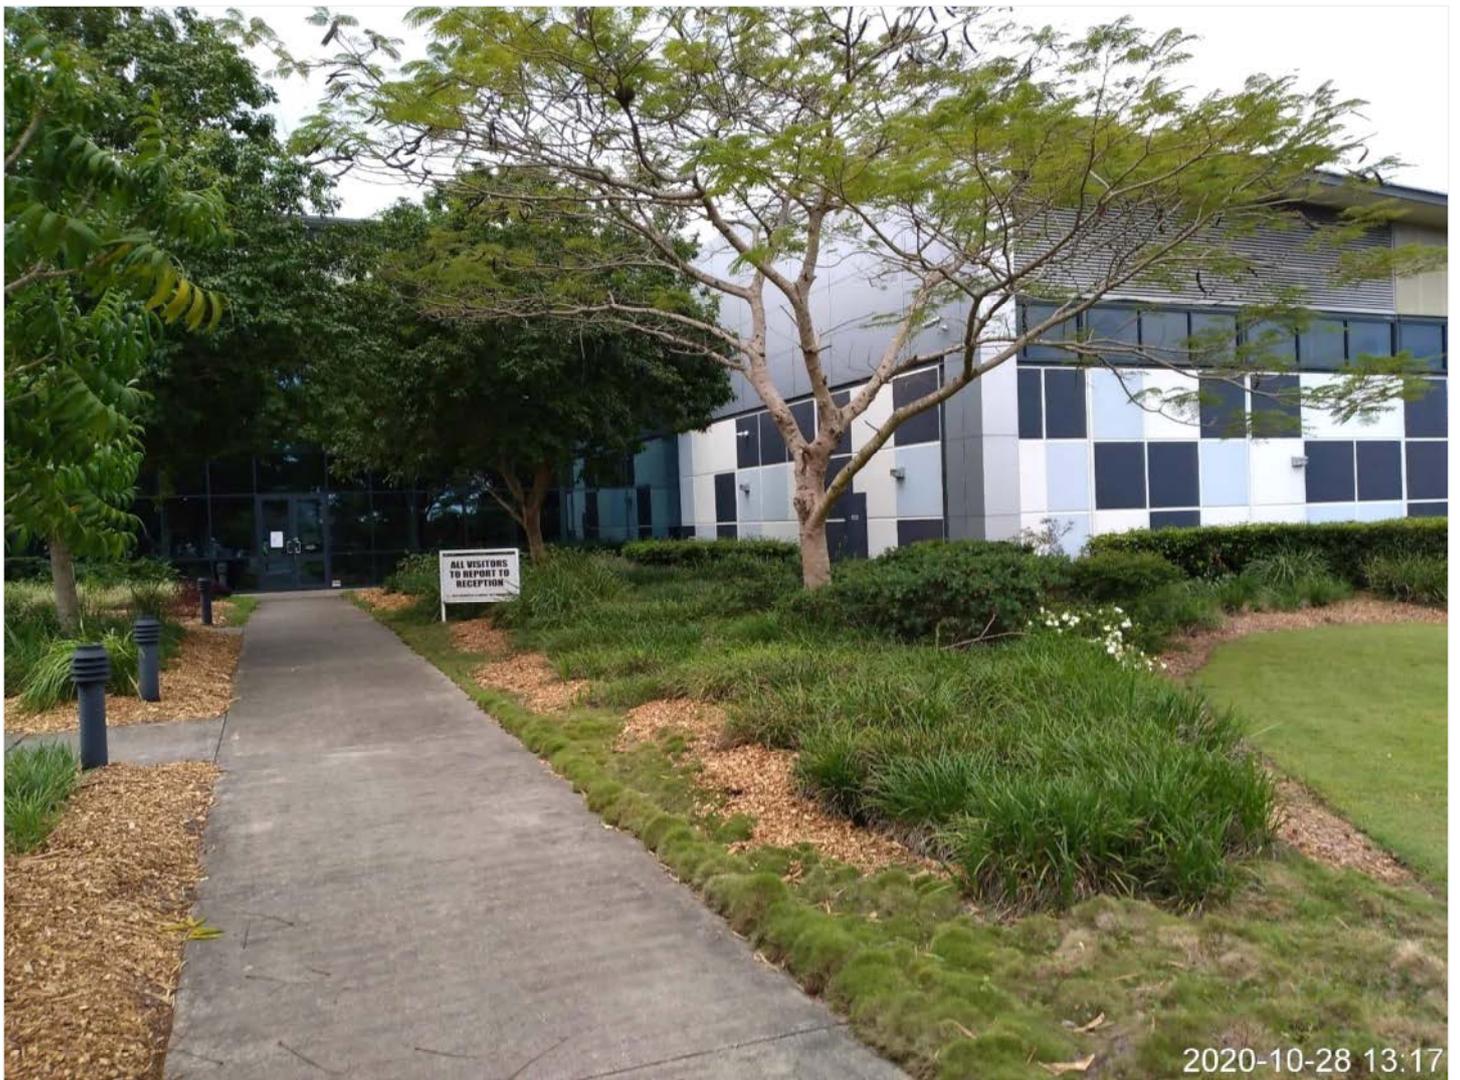

- The tenancy mix is generally considered to be appropriate for this asset, and together, the various tenants are considered to be of a reasonable calibre, and provide adequate cash flow security.
- A small portion of the rental income is paid as a percentage rent from Zone Bowling. This portion of rental income may fluctuate with trading performance. It has been excluded from our valuation calculations.
- The lease expiry profile is good with a WALE of 4.74 years (by area).
- The rent is considered to be at market levels.
- Building outgoings are assessed at approximately \$48 per square metre which is reasonable for a building of this quality.
- We have made no allowances for COVID-19 related rent relief, and we understand that relief arrangements that were in place have now concluded.

Asset Management

- The property caters for several large tenants with relatively straightforward management requirements however due to the size of the asset, professional asset management is recommended.

Valuation Comments

Major Issues

- COVID-19 has caused an unprecedented interruption in economic activity, and agents are reporting mixed sale and leasing strength. However, at the date of this valuation, the transactional sales evidence indicates that the market has not changed in a material way for good quality industrial assets. However, market conditions are still unfolding as transactions come to light during this pandemic period and our adopted valuation has some market uncertainty, particularly with the short-term outlook period.
 - The Code mandates leasing principles that are to apply on a case by case basis. The leasing principles operate as a guide to the negotiations landlords and tenants are encouraged to have to reach agreement on measures and arrangements that suit the particular case. We have been advised by Blackwall Property Trust that no existing tenants have requested rental relief and our valuation has been made on this basis.
 - The valuation includes the present value of this rental overage of \$9,006,775 which is a diminishing interest as the lease get closer to the expiry date.

Market

Investment

- The impact of the COVID-19 pandemic on property markets has evolved since the onset in circa mid-February 2020, however there is still a lack of clarity and a high degree of uncertainty as to the market sentiment outlook. It is evident that the impact is property and sector dependent. There has been a high volume and scale of investment sales transactions in the industrial sector in the last three to four months that has come to light.
- Overall investment demand for industrial property pre-COVID-19 was strong due to the weight of money and low interest rate regime prevailing. Looking past the acute phase of the virus, the fundamentals for investment in industrial property, remain sound. The 'lower for longer' forecast for the official cash rate is likely to encourage investment into real estate going forward (post the COVID-19 pandemic period), however, this will only occur when confidence and certainty returns to the market.
- Should the property be offered for sale in the current market conditions, we consider that the most likely purchaser would be an institutional investor/A-REIT or syndicated investment fund.
- If the property was offered to the market, we would expect an estimated selling period of up to six months if offered for sale as part of an expressions of interest or similar marketing campaign. We do however emphasise that the current uncertainty (as a result of COVID-19) may extend this timeframe, depending on ongoing market conditions.
- The key characteristics that would receive due consideration from a potential purchaser would include:
 - **Positive:** The subject property is considered to be high quality industrial facility with a strong Nasdaq listed company covenant originally secured on a significant 20-year lease with two additional option periods of 10 years each. Should the tenant continue to occupy the premises beyond the initial term there is some strong cash flow for the additional 10-year lease term(s). News Corp has announced the closure of the Murarrie, Brisbane printing press with their operations to shift to the subject property. On inspection, we were also advised of the current consideration of News Corp to build a new printing press in the subject property at an approximate cost of \$30 million, thereby indicating a possibility of longer term commitment to the subject property.
 - **Negative:** Major negative considerations include the lack of a suitable environmental indemnity and remediation clause in the lease document, as well as the looming lease expiry on 5 November 2026 and the industry wide scaling back of print media. The facility is also of a specialist design and layout which may not appeal to the wider industrial market should the incumbent tenant vacate. There is some significant redecoration and repositioning costs on lease expiry in the event that the tenant vacates. Remaining lease term is 6.02 years and this may deter some investors given the downside risk if the tenant vacates.

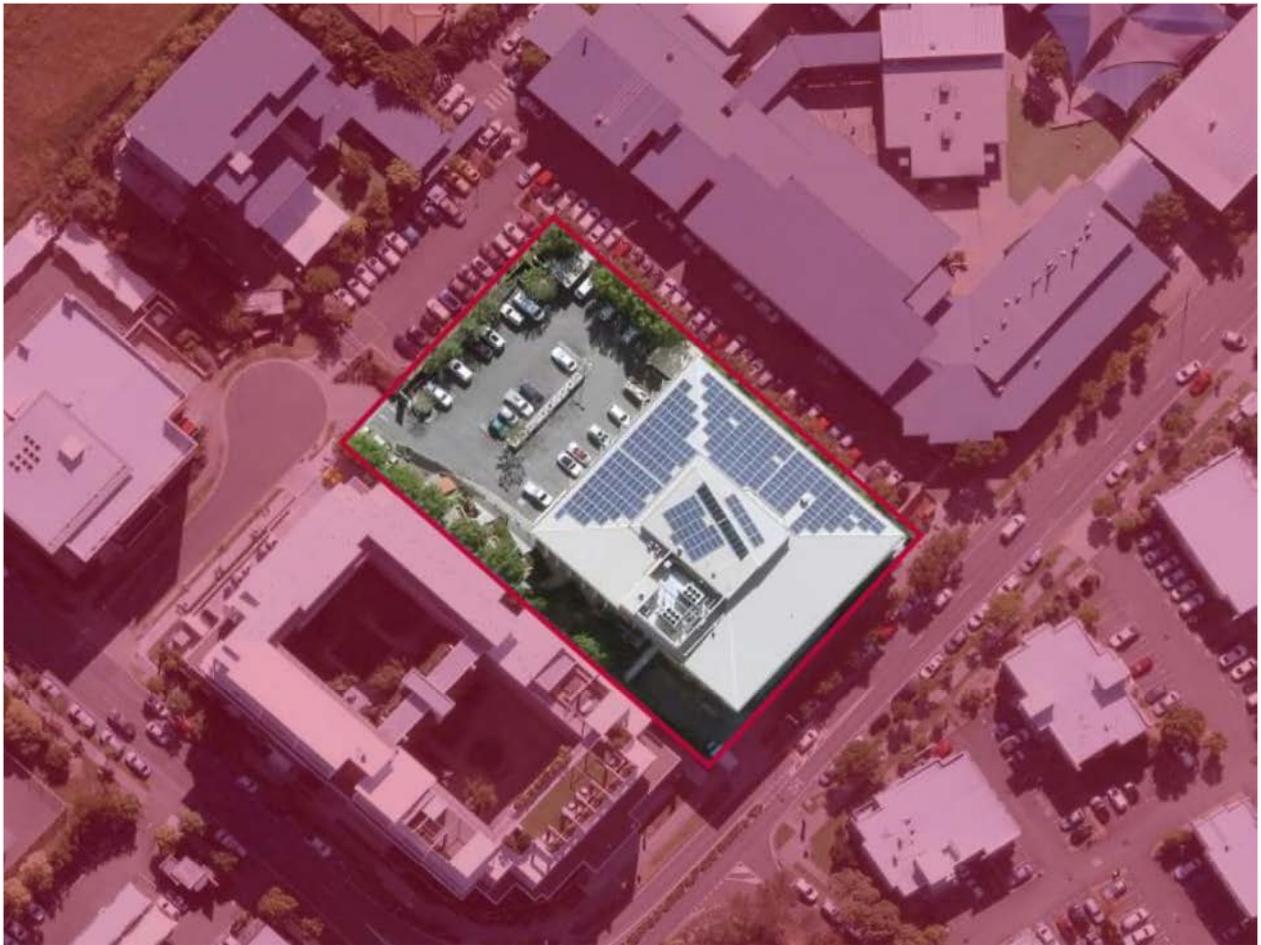

Tenant

- News Corp Australia is part of News Corp (a Nasdaq listed company). It is a global, diversified media and information services company focused on creating and distributing authoritative and engaging content. The company comprises businesses across a range of media, including: news and information services, subscription video services in Australia, book publishing and digital real estate services. Headquartered in New York, News Corp operates primarily in the United States, Australia, and the United Kingdom, and its content is distributed and consumed worldwide.
- News Corp Australia's printing division, including APN Print, manages one of Australia's largest network of printing operations.
- Letting up allowances over the forecast period include 24-month marketing/letting up period 17.5% tenant incentive on a notional 10-year lease with a 50% tenant retention probability and 15% agents letting fee.

Asset	<ul style="list-style-type: none"> The title confers an estate in fee simple, subject to a burdening easement (believed to be a sewer easement to the northern border of the site and not considered to have a material impact on value or the ongoing use on the site). The property has good location attributes, being within an established industrial precinct, close to arterial roads (Bruce Highway). Purpose built production/printing press facility. The highest and best use is considered to be the intended and ongoing industrial use/s.
Environmental	<ul style="list-style-type: none"> The Sunshine Coast Council does identify the property as being susceptible to flooding. As such, the flooding risk of the property is considered to be medium. The site IS listed on the EMR register given the existing use, but not listed on the CLR register. No obvious Environmental Contamination indemnity and remediate contamination clause in the lease document. The current use of the site is a printing press, which we consider to be a medium-high risk for matters of environmental concern. Surrounding uses are light and general industrial and commercial. Industrial uses by their nature have some grounds for environmental concern, however on our inspection we did not notice any obvious matters of significant concern. The API Environmental Checklist has been completed with the above noted.
Cash Flow Profile	<ul style="list-style-type: none"> Current passing rent of \$3,001,644 per annum net (\$330 per square metre net) is considered to be above current market rental value of the original base building industrial office/warehouse unit of 9,100 square metres assessed at \$1,092,000 per annum net (\$120 per square metre). The present value of this rental overage of \$9,006,775 is a diminishing interest. Medium term cashflow volatility can be expected at the initial term expiry on 5 November 2026. Current outgoings are \$148,000 per annum (\$16.26 per square metre). There are no outstanding tenant incentives. Income growth in the lease document is 3.0% per annum which is considered to be generally in-line with the wider industrial market.
Asset Management	<ul style="list-style-type: none"> A modern and specialised facility such as the subject is considered to incorporate experienced management requirements.
Potential Future Value Considerations	<ul style="list-style-type: none"> Remaining lease term is 6.02 years. CAPEX – Within our Discounted Cash Flow Approach, we have allowed \$3.5 per square metre per annum and a \$1,500,000 allowance on lease expiry, amounting to \$1,980,958 over the 10 years inflated by CPI with the present value of this CAPEX forecast being \$1,159,697 (reflecting 5.7% of the adopted value). Growth Rates are forecast to be 2.47% as an average compound rate over the 10 year forecast period. Letting up allowances over the forecast period include 24-month marketing/letting up period 17.5% tenant incentive on a notional 10-year lease with a 50% tenant retention probability and 15% agents letting fee.

Critical Conditions

- In regard to WATSO leases, we have been provided with a tenancy schedule and email correspondence from the landlord confirming a five-year lease from 01 July 2019, however we have not sighted any executed/signed documentation. Our valuation has been undertaken on the basis that a new lease is fully executed by both parties and is legally binding. We recommend the instructing party sight a copy of the signed lease and if the details vary from what has been relied upon, the report should be returned for further comment.
- We note that WOTSO Limited, is a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust (ASX Code: BWR) announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are at arm's length. If this is not the case our valuation may be affected and should be returned to us for review.

Comments

- The Code of Conduct relating to commercial tenancies, mandates leasing principles that are to apply on a case by case basis. The leasing principles operate as a guide to the negotiations landlords and tenants are encouraged to have to reach agreement on measures and arrangements that suit the particular case. However we have been advised by the owner that no tenants are receiving any COVID-19 related relief from 01 November 2020.
- The Coronavirus pandemic has impacted the commercial property market in 2020 and is property sector dependant. Although the affect is yet to translate into verifiable evidence of a market movement, agents, funds and operators are seeing caution flow through by investors, buyers and prospective tenants. Any party relying on this report should have regard to the current economic uncertainty and the potential for high volatility in property values over the short to medium term.

Critical Conditions

- In regard to *Watso 84*, we have been provided with a non-executed lease document, tenancy schedule and email correspondence from the landlord on acceptance of a new five-year lease from 01 July 2019, however we have not sighted any signed documentation. Our valuation has been undertaken on the basis that a new lease is fully executed by both parties and is legally binding. We note that the tenant is in occupation. We recommend that the lender sight a copy of the signed lease and if the details vary from what has been relied upon, the report should be returned for further comment.
- In regard to *Watso 76*, we have been provided with email correspondence from the landlord on acceptance of a new five-year lease from 01 July 2020, however we have not sighted any signed documentation. We note that the tenant has recently undertaken a fitout for this space. Our valuation has been undertaken on the basis that a new lease is fully executed by both parties and is legally binding. We recommend that the lender sight a copy of the signed lease and if the details vary from what has been relied upon, the report should be returned for further comment.
- We note that WOTSO Limited, is a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust (ASX Code: BWR) announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are at arm's length. If this is not the case our valuation may be affected and should be returned to us for review.
- We have included a vacant possession value in Section 10 of this report.
- The Courtyard area to the basement level of 84 Brunswick Street is in the process of being converted into open parking as at the date of inspection. Note that our valuation assumes completion of these works.
- We have included a \$150,000 of capital expenditure allowance to bring the vacant area to a marketable and usable condition.

Comments

- The Code of Conduct relating to commercial tenancies, mandates leasing principles that are to apply on a case by case basis. The leasing principles operate as a guide to the negotiations landlords and tenants are encouraged to have to reach agreement on measures and arrangements that suit the particular case. However we have not been advised by property management that the *Watso* tenant is receiving any Covid rental relief.
- The Coronavirus pandemic has impacted the commercial property market in 2020 and is property sector dependant. Although the effect is yet to translate into verifiable evidence of a market movement, agents, funds and operators are seeing caution flow through by investors, buyers and prospective tenants. Any party relying on this report should have regard to the current economic uncertainty and the potential for high volatility in property values over the short to medium term.

Property Specific Assumptions

Verifiable Assumptions

- The major tenant, WOTSO Workspace Pty Ltd is a subsidiary of WOTSO Limited, a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company. On 24 July 2020 BlackWall Property Trust announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that WOTSO Workspace Pty Ltd is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are “arm length”. If this is not the case our valuation may be affected and should be returned to us for review.
 - The copy of the lease to WOTSO Workspace Pty Ltd provided to us, is a draft only and is not executed. At the date of inspection, WOTSO were in occupation of two of the four ground floor commercial tenancies. For the purpose of this valuation, we have assumed that the lease has been or will become duly executed and registered on title. If this is not the case our valuation may be affected and should be returned to us for review.
-

The above property specific assumptions are provided in addition to the Critical Assumptions and Qualifications and Definitions and Disclaimers detailed within this report.

Market

Investment

- Investment demand has moderated since March 2020 at which time the Covid-19 pandemic began to disrupt the Australian economy and property markets. Transaction volumes have reduced significantly with few offerings and prospective purchasers exercising heightened levels of caution. If offered to the market, we believe the property would meet with moderate to good demand.
- The expected selling period is four to six months under current market conditions.
- The likely buyer profile would include private investors, investment syndicates and boutique investment funds.

Tenant

- The property is 100% leased to three tenants with a short to medium term lease expiry.
- Approximately 15% of the NLA is subject to leases which expire in the 24 month period from the date of valuation.
- Leasing demand in Canberra generally has been positive, although demand has been weak since March 2020 when Covid-19 began to materially impact the Australian economy and real estate markets. Demand is likely to continue to be challenged until economic conditions stabilise.
- The passing rent is on average, below market.
- We have adopted a gross market rent for the office space of \$350/m², based on assumed gross incentives of 26%.

Asset

- The building provides modern, good standard, office accommodation with good natural light provisions. It has been well maintained and presents in good order throughout.
- The building does not have a NABERS rating.
- Car parking is provided at a ratio of 1.47 spaces per 100m², which is an adequate provision for this market.
- We have included an annual capital expenditure allowance of \$20/m², escalated at CPI and a refurbishment allowance of \$100/m² at each lease expiry, escalated at CPI.

Cash Flow Profile

- The tenancy profile is regarded as medium to good calibre.
- The lease expiry is short to medium term at 2.88 years (income weighted).
- The adopted building outgoings represent \$100.73/m² which is considered reasonable for an office building of this size and nature.
- There are no outstanding lease incentives.

Asset Management

- The property presents well and appears well managed.

Property Specific Assumptions

Financial Assumptions

- We understand no tenants within the building are subject to any further rent relief related to the COVID-19 pandemic. Should this not be the case we reserve the right to review our valuation.
 - Our valuation excludes rental payments deferred prior to the valuation date.
-

Market Assumptions

- The current COVID-19 situation is causing significant economic and social uncertainty both globally and locally. We expect COVID-19 to impact negatively on commercial real estate in the short term however in the lack of market sales and leasing evidence, assumptions have been made and given the situation is fluid we recommend regular valuations are undertaken as the situation evolves.
-

Physical Property Assumptions

- **Due to access restrictions relating to the ongoing COVID-19 pandemic the Valuer has been unable to internally inspect the property. Accordingly, this valuation has been undertaken on a restricted assessment basis. In assessing the market value of the property, the Valuer has relied upon an inspection carried out by a local valuer. Despite not being able to internally inspect the property, the Valuer has undertaken all due diligence, research and analysis that would ordinarily form part of a full valuation. The Reliant Party agrees to accept the Restricted Assessment having regard to the commercial risk inherent in relying upon a report which does not have the benefit of a comprehensive inspection. This valuation is based on the critical assumption that the internal accommodation is of a quality and standard commensurate with that indicated by the photographs and information provided by the local valuer. Should subsequent advice or details be ascertained to be at significant variance to the details stated within this report and relied upon, then the Valuer reserves the right to review the level of value assessed.**
-

The above property specific assumptions are provided in addition to the [Critical Assumptions and Qualifications](#) and [Definitions and Disclaimers](#) detailed within this report.

Market

Investment

- The property should achieve a reasonable level of interest if offered to the market, however we highlight the most recent sale which we consider comparable occurred in September 2019.
- The likely buyer profile includes private investors, syndicates and small property funds.
- The estimated selling period is six to nine months plus an appropriate due diligence period in the current investment environment. The main factors delaying sale processes at present are economic uncertainty and an inability to inspect properties due to travel restrictions, limiting the ability to undertake adequate due diligence.
- The current and evolving COVID-19 is resulting in continued economic uncertainty both globally and locally, and as a result there is an increased indecision in investment decisions and therefore leading to a short term reduction in investor appetite. Prior to COVID-19 the Hobart CBD experienced significant investor appetite due to its strong economic fundamentals and attractive rental growth potential, and we expect this to be the case in the medium to long term.
- Investment activity is expected to be minimal over the next 6 to 9 months given the increased uncertainty resulting from the COVID-19 pandemic, and therefore in this valuation we have made assumptions based on available evidence as well as reflecting the changing investor appetite, and we note given the fluid nature of COVID-19 and its impacts on the broader economy, these assumptions are likely to change frequently in the near term and we recommend regular updates to the valuation.
- Australian and global markets are currently experiencing the early effects of the spread of COVID-19 (Coronavirus). The spread of the virus and associated impacts are expected to restrain growth and adversely impact economies. The disease outbreak is still unfolding and the impact on Australian markets is yet to be determined. We recommend that this issue be closely monitored and that if the local economy deteriorates significantly, a review of this valuation should be undertaken at intervals that may be relevant to your specific circumstances and/or requirements.

Tenant

- The next lease expiry due to occur is RGIT. Should they not renew their lease, significant works may be required to re-lease their space given its condition.
- We understand the retail tenancy, currently in holdover, is under renewal negotiations for a further term.
- The assessed market rent for the retail space is slightly lower than the passing rent prior to lease expiry.

Asset

- Constructed in 1974, the building provides a reasonable standard of refurbished modern office accommodation.
- The side core layout provides a for a functional floor plate, maximising views to the south.
- We understand there are minimal capital expenditure requirements in the near term but have made a general allowance of \$15 per square metre as well as tenancy specific allowances at lease expiry.
- The floors benefit from reasonable natural light provisions and views over St Davids Park and surrounding areas.
- Car parking is provided at a ratio of 0.92 spaces per 100 square metres which is an adequate provision for this market, particularly considering many Hobart office buildings rely on external car parking.

Cash Flow Profile

- The retail vacancy accounts for approximately 1.4% of the building's lettable area. A further 39.2% of lettable area is subject to the RGIT lease which matures in February 2022.
- One incentive remains partially outstanding, being a rent free period for WOTSO WorkSpace with 7.0 months remaining. The total outstanding amount is \$127,517, reflecting a present value of \$125,175.
- Annual increases for leases within the building range from CPI to 3.00%. We have assessed gross office market growth of 2.75% per annum.
- Passing rents for office range from \$200 to \$273 per square metre gross, compared with our assessed market rent of \$260 per square metre gross. This represents a variance of 11.9% to the average office passing rent.
- Outgoings of \$83 per square metre are considered reasonable for a CBD office building but represent a high proportion of the gross rent. The majority is attributable to Municipal Rates which are currently \$26 per square metre.
- A fair level of cash flow volatility is expected to follow lease expiries, exacerbated by the small number of tenants in the building. This may be mitigated by early renewals or lease extensions.
- The lease expiry profile is reasonable with a WALE by income of 2.44 years.

Asset Management

- The property is internally managed by BlackWall.
- The property has limited management requirements with only two tenants however due to the size of the asset, professional asset management is recommended.

Potential Future Value Considerations

- The lease for the retail tenancy has recently expired and it is currently in holdover. Renewing this lease will improve the WALE and reduce income risk.
 - The upcoming RGIT lease expiry in February 2022 presents an opportunity to extend or refurbish and re-lease the tenancies at a higher rental rate.
-

SWOT Analysis

Strengths

- Refurbished office building with basement parking located within the Hobart CBD.
- 98.6% leased with the only vacancy relating to car spaces and the retail tenancy which is currently in holdover.
- Good views are afforded to the upper levels including to St Davids Park.
- Secondary access to the carpark via a right of carriageway easement over the adjoining property on the corner of Harrington Street.

Weaknesses

- Secondary CBD location considered inferior to more central areas including Collins Street.
- Monthly retail tenancy which has been treated as vacant for this valuation.

Opportunities

- Renew the retail lease at a similar or higher rent, improving the WALE.
- Extend the lease to RGIT beyond the current expiry date of February 2022 and/or carry out a refurbishment of these tenancies.

Threats

- Leasing competition from superior quality buildings in more central areas.
- Should tenants fail to renew their leases, extended downtime and other allowances may apply.

Property Specific Assumptions

Verifiable Assumptions

- We understand the major tenant, WOTSO Adelaide Pty Ltd is a related entity of WOTSO Limited, a company that was demerged from ASX-listed BlackWall Limited in January 2020 and is currently an unlisted public company.
- On 24 July 2020 BlackWall Property Trust announced an intention to acquire the WOTSO Workspace business and for BWR to be restructured to form a stapled security structure. As at the date of valuation, it is our understanding that the Lessee entity is an independent business (from BlackWall Property Trust) and for the purpose of the valuation we have assumed the leases are at “arms-length”. If this is not the case our valuation may be affected and should be returned to us for review.
- The copy of the lease to WOTSO Adelaide Pty Ltd provided to us, is a draft version and is not executed. At the date of inspection, WOTSO were in occupation of 217 Flinders Street. For the purpose of this valuation, we have assumed that the lease has been documented in registerable form. If this is not the case our valuation may be affected and should be returned to us for review.
- We have been advised that Spring Holdings Pty Ltd have recently extended their lease for a further three years and that it is currently being documented. We have assumed that the lease extension has been documented in registerable form. If this is not the case our valuation may be affected and should be returned to us for review.

The above property specific assumptions are provided in addition to the Critical Assumptions and Qualifications and Definitions and Disclaimers detailed within this report.

Market

Investment

- Investment demand has moderated since March 2020 at which time the Covid-19 pandemic began to disrupt the Australian economy and property markets. Transaction volumes have reduced significantly with few offerings and prospective purchasers exercising heightened levels of caution. If offered to the market, we believe the property would meet with moderate to good demand.
- The expected selling period is four to six months under current market conditions.
- The likely buyer profile would include private investors and smaller investment syndicates.

Tenant

- The property is 53.2% leased to three tenants with a short-term lease expiry.
- There are no leases expiring in the 48 month period from the date of valuation.
- Leasing demand in Adelaide generally improved over 2019, although demand has weakened since March 2020 when Covid-19 began to materially impact the Australian economy and real estate markets. Leasing agents are now indicating the leasing market remains relatively active for enquiry under 1,000 square metres.
- The passing rent is on average at market levels.
- Leasing demand in this location is largely driven by smaller corporates and service type occupiers.
- We have adopted gross market rents for the office space ranging between \$230 to \$300/m², based on assumed gross incentives of 25%.

Asset

- The properties provides modest to medium standard office accommodation with average natural light provisions.
- Ability to sell the two adjoining properties separately.
- The building does not have a NABERS rating.
- The vacant accommodation in 221 Flinders presents to a modest standard and we have provided for a refurbishment allowance of \$350 per square metre of NLA.

Cash Flow Profile

- The tenancy profile is regarded as medium to good calibre.
- The lease expiry is short term at 2.06 years (income weighted).
- The adopted building outgoings represent \$51/m² which is considered reasonable for an office building of this age, size and nature.
- We are advised there are no outstanding lease incentives.

Asset Management

- The property presents well and appears well managed.

Valuation Comments

Major Issues

- COVID-19 has caused an unprecedented interruption in economic activity, and agents are reporting mixed sale and leasing strength. However, at the date of this valuation, the transactional sales evidence indicates that the market has not changed in a material way for good quality industrial assets. However, market conditions are still unfolding as transactions come to light during this pandemic period and our adopted valuation has some market uncertainty, particularly with the short-term outlook period.
 - The Code mandates leasing principles that are to apply on a case by case basis. The leasing principles operate as a guide to the negotiations landlords and tenants are encouraged to have to reach agreement on measures and arrangements that suit the particular case. We have been advised by Blackwall Property Trust that no existing tenants have requested rental relief and our valuation has been made on this basis.

Market

Investment

- The impact of the COVID-19 pandemic on property markets has evolved since the onset in circa mid-February 2020, however there is still a lack of clarity and a high degree of uncertainty as to the market sentiment outlook. It is evident that the impact is property and sector dependent. There has been a high volume and scale of investment sales transactions in the industrial sector in the last three to four months that has come to light.
- Overall investment demand for industrial property pre-COVID-19 was strong due to the weight of money and low interest rate regime prevailing. Looking past the acute phase of the virus, the fundamentals for investment in industrial property, remain sound. The 'lower for longer' forecast for the official cash rate is likely to encourage investment into real estate going forward (post the COVID-19 pandemic period), however, this will only occur when confidence and certainty returns to the market.
- Should the property be offered for sale in the current market conditions, we consider that the most likely purchaser would be a local business, possibly in a food handling or air-conditioned climate controlled related activity or potentially an investor looking to lease and hold the property as an investment.
- If the property was offered to the market, we would expect an estimated selling period of up to six months if offered for sale as part of an expressions of interest or similar marketing campaign. We do however emphasise that the current uncertainty (as a result of COVID-19) may extend this timeframe, depending on ongoing market conditions.
- The key characteristics that would receive due consideration from a potential purchaser would include:
 - **Positive:** The subject property is considered to be a quality industrial facility (in the context of the local market of Toowoomba). It provides a good standard of office space with reasonable quality air-conditioned warehouse and large adjoining loading canopy area. Adjoining the main building to the western side of the site is an additional area of 5,525 square metres of surplus land/hardstand area.
 - **Negative:** Major negative considerations include a possible environmental and remediation exposure to the former and/or current storing petroleum products or oil. The facility is also of a specialist design and layout which may not appeal to the wider industrial market. The facility is currently occupied on a short-term basis with holding income till 20 January 2021 and the short-term nature of this income may deter some potential investors, leaving the most likely buyer to be an owner occupier.

Tenant

- The occupied on a short-term basis with holding income till 20 January 2021.
- Letting up allowances over the forecast period include 9-month marketing/letting up period 12.5% tenant incentive on a notional five-year lease and 15% agents letting fee.

Asset

- The title confers an estate in fee simple.
- The property is within an established mixed business/ industrial precinct, close to arterial roads (Warrego Highway).
- The site provides a level operating platform with good access and wide internal hardstand/circulation areas.
- The improvements provide modern industrial accommodation with a moderate internal clearance height to the warehouse of 4.9 to 5.2 metres clear height, three container height roller doors accessing the warehouse and good quality office accommodation over a single level.
- The existing improvements appear to generally comply with planning controls.
- The highest and best use is considered to be the current ongoing industrial use/s.
- The internal clearance varies throughout the various compartmentalised warehouse (areas one, two and three) with areas one and two being air-conditioned.
- There is 5,525 square metres of surplus land/hardstand to the western section of the site.

Environmental

- The Toowoomba Regional Council does not identify the property as being susceptible to flooding. As such, the flooding risk of the property is considered to be low.
- The site IS listed on the EMR register but NOT listed on the CLR register.
- The previous use of the site is media related and manufacturing expanded polystyrene packaging for produce, seafood, medical, food and transport industries, which we consider to be a low to medium risk for matters of environmental concern.
- Surrounding uses are light and general industrial and commercial. Industrial uses by their nature have some grounds for environmental concern, however on our inspection we did not notice any obvious matters of significant concern.
- The API Environmental Checklist has been completed with the above noted.

Cash Flow Profile

- Current market rental value as the original base building industrial office/warehouse unit of 2,094 square metres is \$219,870 per annum net (\$105 per square metre), with the large canopy loading area of 585 square metres at \$29,250 per annum net (\$50 per square metre). Total rental value for the improvements is therefore \$249,120 per annum net.
- Current outgoings are \$71,400 per annum (\$26.65 per square metre).
- There are no outstanding tenant incentives.
- Income growth (when leased on a longer term basis) is considered to be generally in-line with the wider industrial market for the local Toowoomba region.

Asset Management

- A property of this nature is capable of owner management, however professional management is recommended.

- (ii) continues to be satisfied at all times until the last time it is to be satisfied (as the case may require); and
- (b) where a party is responsible for a Condition being satisfied, there is no occurrence that would prevent a Condition from being satisfied.

Without limiting clause 3.2:

- (a) **(Regulatory Approvals process)** each party must take all steps it is responsible for as part of any Regulatory Approval process, including responding to requests for information at the earliest practicable time;
- (b) **(representation)** each party has the right to be represented and make submissions at any meeting with any Public Authority relating to a Regulatory Approval; and

- (ii) if the waiver of the Condition is itself conditional and the other parties:

 - (B) do not accept the condition, the Condition has not been waived.

- (E) bring proceedings against BWR RE;
 - (F) take any steps to have BWR RE placed into any form of insolvency administration (but this does not prevent the appointment of a receiver, or a receiver and manager, in respect of BWR's assets); or

- (c) WOTSO may terminate this Deed by written notice to the other parties until the Cut-Off Time if at any time before the Cut-Off Time, a majority of the WOTSO Board publicly recommends a Competing Transaction that is a Superior Proposal, and provided that the Competing Transaction was not solicited or facilitated by WOTSO or its Representatives in breach of WOTSO's obligations in clause 9.

Where a party has a right to terminate this Deed, that right will be validly exercised if the party delivers a notice, in writing, to each of the other parties stating that it terminates this Deed and the provision under which it is terminating the Deed.

14.3 Consequences of termination

If this Deed is terminated by a party, or if this Deed otherwise terminates in accordance with its terms, then in either case all further obligations of the parties under this Deed, other than the obligations set out in this clause and in clauses 10 to 12 and clauses 15 to 19 (inclusive) will immediately cease to be of further force and effect without further liability of any party to the other parties, provided that nothing in this clause releases any party from liability for any pre-termination breach of this Deed.

14.4 Damages

In addition to the right of termination under clause 14.1, where there is no appropriate remedy for the breach in this Deed (other than termination), a non-defaulting party is entitled to damages for Losses suffered by it and expenses incurred by it as a result of the breach of the terms of this Deed.

15.1 Announcement of Transaction

Immediately after the execution of this Deed, WOTSO and BWR RE must each issue a public announcement of the Transaction in a form previously agreed between the parties.

- (c) Clauses 8(a) and 8(b) apply despite any other provision in this Deed Poll but do not apply with respect to any liability of BWR RE to another party (including for negligence):

The Stapled Entities must ensure that the Stapled Entities' registers if kept separately, are entirely consistent with one another.

8. Unstapling

8.1 Procedure for Unstapling

From the Stapling Commencement Date all Attached Securities will remain Stapled to each other for so long as the Stapled Securities remain on issue, unless an Unstapling Event occurs or the Attached Securities can be otherwise Unstapled in accordance with each of the Constituent Documents. On and from the effective date of Unstapling under the previous sentence:

- (a) the Stapled Entities must procure that the Attached Securities are Unstapled; and
- (b) except in relation to the ongoing obligations under clauses 2.1(d) and 8.2 and the acknowledgment and covenants in clause 11, this Deed ceases to be of any force or effect.

8.2 Consequences of Unstapling

If, as a consequence of Unstapling, an Attached Security is no longer Stapled to the Other Attached Securities each Issuer must promptly:

- (a) repay any outstanding amount under any loan given to the Issuer by any of the Other Issuers prior to Unstapling, unless the applicable Other Issuer otherwise agrees;

While Stapling applies, notwithstanding any other provision of this Deed, or any rule of law or equity to the contrary, in exercising any power or discretion, the Stapled Entities may, subject to the Corporations Act and any relief granted thereunder, have regard to the interests of the holders of Stapled Securities as a whole and not only to the interests of the Attached Security holders considered separately.

10. Retirement of Responsible Entity

If a Responsible Entity retires as responsible entity of a Trust:

- (a) the Responsible Entity must use its best endeavours to procure that any new responsible entity appointed under the Trust's Constituent Document executes a deed in a form acceptable to the other Stapled Entities undertaking to be bound by all of the obligations of the Responsible Entity under this Deed; and

- (d) This limitation of the Responsible Entity's liability applies despite any other provision of this Deed and extends to all liabilities and obligations of the Responsible Entity in its capacity as responsible entity of the Trust in any way connected with any representation, warranty, conduct, omission, deed or transaction related to this Deed.
- (e) Each Stapled Entity cannot sue the Responsible Entity in any capacity other than as responsible entity for the Trust, including seeking the appointment of a receiver, a liquidator, an administrator or similar person to the Responsible Entity or prove in any liquidation, administration or arrangement of or affecting the Responsible Entity (except in relation to property of the Trust).

- (f) The limitation of liability provisions shall not apply to any obligation or liability of the Responsible Entity to the extent that it is not satisfied because, under this Deed or any other document in connection with it, or by operation of law, there is a reduction in the extent of the Responsible Entity's indemnification out of the assets of the Trust, as a result of the Responsible Entity's fraud, negligence or breach of trust.
- (g) It is also acknowledged that a breach of an obligation imposed on, or a representation or warranty given by, the Responsible Entity under or in connection with this Deed or any other document in connection with it will not be considered a breach of trust by the Responsible Entity unless the Responsible Entity has acted with negligence, or without good faith, in relation to the breach.

12. Subordination

- (a) Nothing in this Deed shall be taken to amend or alter the Constituent Documents.
- (b) If there is any inconsistency between the obligations of a Stapled Entity under this Deed and the Stapled Entity's Constituent Document Constitution, the provisions of the Stapled Entity's Constituent Document applies to the extent of the inconsistency.

EXPLANATORY NOTES

This Notice of Meeting relates to the Scheme and should be read in conjunction with the balance of the Scheme Booklet. The Scheme Booklet contains important information to assist you in determining how to vote on the Scheme, including the information prescribed by the Corporations Act and the Corporations Regulations.

1. Terminology

Capitalised terms used in this Notice of Meeting but not defined in it have the same meaning as set out in the Glossary of Terms in Section 10 of the Scheme Booklet, unless the context requires otherwise.

2. Quorum

The constitution of WOTSO provides that the quorum for a meeting of WOTSO is two members (in person or by proxy, attorney or representative).

3. Chairman

The Court has directed that Seph Glew act as chairman of the Scheme Meeting or, failing him, Tim Brown.

4. Requisite Majorities

The Scheme can only proceed if, at the Scheme Meeting, the Scheme is approved by WOTSO Shareholders. For this to occur, the Scheme must be approved by:

- (a) unless the Court orders otherwise, a majority in number (more than 50%) of WOTSO Shareholders present and voting (whether in person, by proxy, by attorney or by corporate representative) at the Scheme Meeting; and
- (b) at least 75% of the total number of WOTSO Shares voted at the Scheme Meeting (whether in person, by proxy, by attorney or by corporate representative) .

5. Court approval

In accordance with section 411(4)(b) of the Corporations Act, the Scheme (with or without modification) must be approved by an order of the Court. If the Resolution contained in this Notice of Meeting is passed at the Scheme Meeting by the Requisite Majorities and the conditions precedent in the Scheme of Arrangement are satisfied or waived (if applicable), WOTSO intends to apply to the Court for the necessary orders to approve the Scheme.

In order for the Scheme to become Effective, it must be approved by the Court and an office copy of the Court Order must be lodged with ASIC.

6. Entitlement to vote

The Court has ordered that, for the purposes of the Scheme Meeting, WOTSO Shares will be taken to be held by the persons who are registered as WOTSO Shareholders at 7:00pm (AEDT) on 27 January 2021. Accordingly, registrable transmission applications or transfers registered after this time will be disregarded in determining entitlements to vote at the Scheme Meeting.

7. Voting at the meeting

You may vote in person at the Scheme Meeting or appoint a proxy, attorney or, in the case of a corporation that is a WOTSO Shareholder, a corporate representative to attend and vote for you.

All persons attending the Scheme Meeting are asked to arrive at least 30 minutes prior to the time the Scheme Meeting is to commence, so that either their shareholding may be checked against the WOTSO Register, their power of attorney or appointment as corporate representative can be verified (as the case may be), and their attendance noted.

Voting will be conducted by poll.

(a) Jointly held WOTSO Shares

Where there are joint registered holders of any WOTSO Shares, any one of them may vote at the Scheme Meeting either in person, by proxy or attorney or, in the case of a corporate WOTSO Shareholder, by corporate representative in respect of those WOTSO Shares as if that person was solely entitled to those WOTSO Shares.

If more than one of the joint holders of any WOTSO Shares is present at the Scheme Meeting, only the joint holder present whose name stands first in the WOTSO Register in respect of the jointly held WOTSO Shares is entitled to vote in respect of those WOTSO Shares.

(b) Voting in person

To vote in person at the Scheme Meeting, you must attend the Scheme Meeting to be held at WOTSO Pyrmont, Level 3, 55 Pyrmont Bridge Road, Pyrmont, NSW 2009 on 29 January 2021 at 10:00am (AEDT).

A WOTSO Shareholder who wishes to attend and vote at the Scheme Meeting in person will be admitted to the Scheme Meeting and given a voting card on disclosure at the point of entry to the Scheme Meeting of their name and address.

(c) Voting by proxy

You can appoint a proxy to attend and vote on your behalf at the Scheme Meeting using the personalised Proxy Form that accompanies the Scheme Booklet. A proxy need not be a WOTSO Shareholder and may be an individual or a body corporate. If you are entitled to cast two or more votes you may appoint two proxies to attend and vote for you at the Scheme Meeting. If two proxies are appointed, each proxy may be appointed to exercise a specified number or proportion of your votes. If no such number or proportion is specified, each proxy may exercise half your votes.

If you do not instruct your proxy on how to vote, your proxy may vote as they see fit at the Scheme Meeting.

A proxy will be admitted to the Scheme Meeting and given a voting card upon providing written evidence of their identity at the point of entry to the Scheme Meeting.

If you wish to appoint a proxy in respect of the Scheme Meeting, you are requested to complete and sign the Proxy Form in accordance with the instructions set out in the Proxy Form. Proxy Forms may be lodged:

- (i) **electronically** by visiting <https://investor.automic.com.au/#/loginsah> and logging on using the holding details as shown on the Proxy Form

(Securityholder Reference Number (SRN) or Holder Identification Number (HIN) as shown on the front of the Proxy Form). Once logged in, select 'Voting' and follow the prompts to lodge your vote;

- (ii) by **mailing** the completed proxy form to the WOTSO Share Registry using the reply paid envelope;
- (iii) by **faxing** the completed proxy form to the WOTSO Share Registry on +61 2 8583 3040; or
- (iv) in **person** on Monday to Friday between 9:00am and 5:00pm (AEDT) by delivering the completed proxy form to the WOTSO Share Registry located at Level 5, 126 Phillip Street, Sydney NSW 2000.

Proxy Forms (together with the original or a certified copy of any authority under which it was executed) must be received by no later than 10:00am (AEDT) on 27 January 2021 (or, if the Scheme Meeting is adjourned or postponed, no later than 48 hours before the resumption of the Scheme Meeting in relation to the resumed part of the Scheme Meeting).

Any faxed Proxy Form:

- (i) must be in legible writing; and
- (i) will be regarded as received by the addressee at the local time (in the place of receipt of that fax) which then equates to the time at which that fax is sent as shown on the transmission report which is produced by the machine from which that fax is sent and which confirms transmission of that fax in its entirety, unless that local time is not a Business Day, or is after 5.00pm on a Business Day in the place of receipt, when that communication will be regarded as received at 9.00am on the next Business Day.

Any revocations of proxies must be received prior to the commencement of the Scheme Meeting.

If a proxy appointment is signed by a WOTSO Shareholder but does not name the proxy or proxies in whose favour it is given, the Chairman of the Scheme Meeting will act as proxy.

A WOTSO Shareholder who sends a Proxy Form as set out above will not be precluded from attending in person and voting at the Scheme Meeting at which the WOTSO Shareholder is entitled to attend and vote. In such case, the attendance and voting in person overrides the previously submitted Proxy Form.

If you require assistance with completing the Proxy Form, please call the WOTSO Share Registry on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia).

(d) **Undirected proxies**

Proxy appointments in favour of the Chairman of the Scheme Meeting, the company secretary or any WOTSO Director which do not contain a direction will be voted in favour of the Scheme at the Scheme Meeting (in the absence of a Superior Proposal prior to the Scheme Meeting).

(e) **Voting by attorney**

If you wish to appoint an attorney to attend and vote at the Scheme Meeting the original or a certified copy of the power of attorney under which the attorney has been appointed must be received by the WOTSO Share Registry no later than 10:00am (AEDT) on 27 January 2021 (or if the Scheme Meeting is adjourned or postponed, no later than 48 hours before the resumption of the Scheme Meeting in relation to the resumed part of the Scheme Meeting). An attorney will be admitted to the Scheme Meeting and given a voting card upon providing at the point of entry to the Scheme Meeting written evidence of their appointment and their identity.

A WOTSO Shareholder who sends a power of attorney will not be precluded from attending in person and voting at the Scheme Meeting at which the WOTSO Shareholder is entitled to attend and vote. In such case, the attendance and voting in person overrides the previously submitted power of attorney.

(f) **Voting by corporate representative**

To vote at the Scheme Meeting (other than by proxy or attorney) a corporation that is a WOTSO Shareholder must appoint an individual to act as its representative. A body corporate which is appointed as the proxy of a WOTSO Shareholder must also appoint an individual to act as its representative. The appointment must comply with section 250D of the Corporations Act.

An authorised corporate representative will be admitted to the Scheme Meeting and given a voting card upon providing at the point of entry to the Scheme Meeting written evidence of their appointment including any authority under which it is signed and their identity.

Subject to the Act, the Listing Rules and the ASX Settlement Operating Rules, the Directors may in their absolute discretion ask ASX Settlement to apply a holding lock to prevent a transfer under the ASX Settlement Operating Rules, or refuse to register a paper-based transfer, of a Share where:

- (a) the Company has a lien on the Shares the subject of the transfer;
- (b) the Company is served with a court order that restricts the relevant Member's capacity to transfer the Shares;

are the only persons recognised by the Company as having any title to the Member's interest in the Shares.
- (b) The Directors may require evidence of a Member's death as they think fit.
- (c) This clause does not release the estate of a deceased joint holder from any liability in respect of a Share that had been jointly held by the holder with another person or persons.

6.2 Transmission of Shares by operation of Law

- (a) Subject to any applicable Laws, if a person:
- (i) becomes entitled to a Share in consequence of the death, incapacity or bankruptcy of a Member; and

 - (iv) have another person registered as the transferee of the Share.
- (b) All the clauses of this Constitution relating to transfers and registrations are applicable to any transfer as if the death, incapacity or bankruptcy of the Member had not occurred and the notice or transfer were a transfer signed by that Member.

6.3 Dividends and other rights

Where a Member dies, becomes incapacitated or bankrupt, the Member's legal personal representative or the trustee of the Member's estate (as the case may be) is, on the production of all information as is properly required by the Directors, entitled to the same:

- (a) Dividends, entitlements and other advantages; and

- (g) The Company must send notices of a call to the relevant Members at least 30 Business Days before the due date for payment.
- (h) Members who receive a call must pay the called amount at the time or times and in the manner set out in the notice.
- (i) The non-receipt of a notice of a call, or the accidental omission to give notice of a call, does not invalidate the call.

7.2 Liability of joint holders for calls

The joint holders of a Share are jointly and severally liable to pay all calls in respect of the Share.

7.3 Interest on unpaid amounts

- (a) If an amount called or otherwise payable to the Company in respect of a Share is not paid before or on the day appointed for payment of the amount, the person from whom the amount is due must pay:

- (b) If any other sum is not paid when due, all the provisions of this Constitution relating to payment of interest and expenses, forfeiture or otherwise apply as if that sum had become payable by virtue of a call duly made and notified.

7.5 Prepayments of calls

- (a) The Directors may accept from a Member the whole or a part of the amount unpaid on a Share even if that amount has not been called.
- (b) The Directors may authorise payment of interest on the whole or any part of an amount accepted under clause 7.5(a) until the amount becomes payable at a rate, not exceeding the Prescribed Rate, that is agreed between the Directors and the Member paying the sum.
- (c) The Directors may at any time repay the whole or any part of any amount paid in advance and any interest agreed ceases from the time of payment.

8. Lien on Shares

8.1 Company has lien

- (a) The Company has an exclusive first lien on every Share (and the proceeds of sale of every Share) for:

- (b) The Directors may at any time exempt a Share wholly or in part from this clause 8.1.
- (c) The Company's lien (if any) on a Share extends to all Dividends payable and entitlements in respect of the Share. The Company may retain those Dividends or entitlements and may apply them in or towards satisfaction of all amounts due to the Company in respect of that Share.
- (d) No person is entitled to exercise any rights or privileges as a Member until the Member has paid all amounts (including reasonable expenses and interest) for the time being payable in respect of every Share held by the Member.

8.2 Exercise of lien

- (a) Subject to clause 8.2(b), the Company may sell any Shares on which the Company has a lien, in the manner that the Directors think fit.

 - (i) an amount in respect of which the lien exists is payable; and
 - (ii) at least 10 Business Days before the date of the sale, the Company has given to the Member or the person entitled to the Share by reason of the death, mental incapacity or bankruptcy of the Member, a notice in writing demanding payment of the amount.

8.3 Completion of sale

- (a) For the purpose of giving effect to a sale of Shares to enforce a lien, the Directors may authorise a person to do everything necessary to effect a transfer of the Shares in favour of the purchaser.
- (b) The Company must register the purchaser as the holder of the Shares comprised in any transfer, after which the validity of the sale may not be disputed by any person and the purchaser is not concerned with the application of the purchase money.

- (c) The title of the purchaser to the Shares is not affected by any irregularity or invalidity in connection with the sale.
- (d) The purchaser is discharged from liability for any calls which were in default before the purchase of those Shares, unless otherwise expressly agreed.
- (e) The only remedy of any person aggrieved by any sale of a Share under this clause 8 is in damages and against the Company exclusively.

The proceeds of a sale made to enforce a lien must be applied by the Company in the following order:

9. Forfeiture and surrender of Shares

9.1 Liability to forfeiture

- (a) If a Member fails to pay a call or instalment of a call when due, the Directors may, at any time afterwards while any part of the call or instalment remains unpaid, serve a notice on the Member requiring payment of so much of the unpaid call or instalment, together with any accrued interest and all expenses incurred as a result of the non-payment.
- (b) The notice must:
 - (i) specify a day at least 10 Business Days after the date of the notice by which the payment is to be made and a place where the payment is to be made; and
 - (ii) state that the Shares in respect of which the call was made are liable to be forfeited if payment is not made by the time specified.

9.2 Surrender of Shares

Subject to the Act and the Listing Rules, the Directors may accept the:

- (a) surrender of any fully paid Share by way of compromise of any question as to the proper registration of the holder or in satisfaction of any payment due to the Company; and
